Proceedings

OF THE

Government of His Highness the Maharaja of Mysore

AUGUST 1913.

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS.
1913

PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 8th August 1913.

READ—

The summary of discussion of Subject No. 146 of the Proceedings of the Representative Assembly of 1912 regarding the grant of permission to raiyats in the malnad to construct houses on Government Kharab land adjacent to their holdings without the previous sanction of Government and the reply of Government thereto.

No. R. 1228-31—L. R. 613-12-2, DATED BANGALORE, 8TH AUGUST 1913.

ORDER THEREON.—Under G. O. No. 10063-65—R. 3873, dated the 12th May 1896, Deputy Commissioners have power to permit the appropriation of kharab land for building purposes. In order, however, to promote the convenience of the agriculturists, Government are pleased to direct that the power to grant permission to applicants to build on kharab land adjacent to their holdings, be delegated to the Amildars and Deputy Amildars of the malnad taluks.

2. Such power should be exercised only when the applicant executes a formal mutchalika undertaking to give up the land to Government whenever required by them.

3. The lands appropriated as above should be treated as temporary building sites and the rules laid down for the grant of building sites in the malnad (Appendix C to the Revenue Rules) duly followed, as far as possible, the extent to be granted being limited to 10 guntas.

4. The order should be communicated to the members who mooted the subject.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioners of Kadur, Hassan and Shimoga Districts.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 11th August 1913.

READ—

The summary of discussion in Subject No. 128 of the Proceedings of the Representative Assembly of 1912, regarding delay in the confirmation of sales for arrears of revenue and the consequential loss and inconvenience to the purchasers and the reply of Government thereto.

Messrs. Revanasidda, Gurulingappa and Halappa, Honnali Taluk.

Summary of discussion.—The purchasers at sales for arrears of revenue are required to deposit one-fourth of the sale amount forthwith and pay the balance within fifteen days from the date of sale. The purchasers are put to heavy loss if sales are not confirmed early, as they cannot enter upon and cultivate the lands taken up by them in sales. They are also made liable for the assessment from the date of sale. It is prayed that a period may be fixed within which final orders may be passed regarding the confirmation or otherwise of revenue sales, so that the sale purchasers may not be made liable for the assessment on lands accruing after the date of sale, in case it is not confirmed within that period.

Reply of Government.—If the land is not delivered into the purchasers' possession before the commencement of the cultivation season and it can not, therefore, be cultivated, instructions will be issued not to levy the kandayam from the purchaser.

No. R. 1353-61—L. R. 614-12-2, DATED BANGALORE, 11TH AUGUST 1913.

ORDER THEREON.—Government observe that although under Section 191 of the Land Revenue Code purchasers of land in revenue sales are liable to pay the instalments of land revenue accruing subsequent to the date of sale, Government Order No. R. 1783-91—L. R. 69-08-2, dated 14th September 1908, allows sufficient discretion to the District Officers to grant a partial or total remission of the assessment as the circumstances of each case may warrant on the score of the land not having been put in possession of the purchaser so as to admit of its being cultivated in proper time.

2. Further, Government Order No. R. 3134-42—L. R. 497-09-1, dated the 11th November 1910, directs that revenue sales should be confirmed within three months by the competent authority concerned and Government Order No. R. 3275—R. M. 494-05-3, dated the 17th September 1906, provides for payment of suitable compensation to purchasers in cases where the sales are cancelled for irregularity.

3. In these circumstances, Government deem it sufficient to call the attention of the revenue officers to the existing orders on the subject and to direct a prompt compliance with them in individual cases.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 22nd August 1913.

READ—

Letter No. 9245, dated the 1st May 1913, from the Revenue Commissioner in Mysore, forwarding for orders a copy of letter No. 507, dated the 13th February 1913, from the Deputy Commissioner, Shimoga District, stating that, in accordance with the general instructions issued by the Superintendent of Revenue Survey, deprecating the entry of the names of all joint khatedars in the village Khetwar, the names of the joint holders of certain inam lands in the Nellur village, Channagiri Taluk, have been omitted in the Khetwar prepared at the time of the revision settlement of the taluk, although the Khetwar prepared prior to the revision settlement contained the names of all the joint holders, and explaining the necessity for entering the names of all joint holders of alienated lands in the village Khetwar.

No. R. 1767-75—L. R. 482-12-2, DATED BANGALORE, 22ND AUGUST 1913.

ORDER THEREON.—The Superintendent of Revenue Survey, who was unofficially consulted, states that his instructions for the compilation of the Revenue accounts in accordance with the revision settlement records, were intended to apply only to unalienated lands and not to inam lands, that there is no reason why these instructions, which were the same as those usually issued in every case since the commencement of the original settlement, should have been misunderstood by the local authorities in this instance and that he has no objection to the names of all inamdars being noted in the Khetwar and other village accounts.

2. The Revenue Commissioner is requested to issue needful instructions to the Deputy Commissioners accordingly.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 25th August 1913.

READ AGAIN—

Government Order No. 4894-901—R. F. 60-94, dated the 10th September 1894, directing that process fees should not be levied unless there arises a necessity for employing a process service establishment.

READ—

The following letter No. 10963, dated the 12th June 1913, from the Revenue Commissioner in Mysore :—

"I have the honor to state that the Deputy Commissioner, Chitaldrug District, has, in his notes of inspection of the Jagalur Taluk Office held by him on 4th February 1913, instructed the Amildar not to levy process fees, unless a process establishment is maintained. I believe the Deputy Commissioner has relied upon Government Order of 10th September 1894 (published at page 342 of the new Revenue Manual).

2. It is doubtful whether the Government Order of 10th September 1894 is still in force. In the new Land Revenue Rules of 1901, no provision has been made to this effect Rule 103 prescribes the rate of fees leviable on different kinds of processes issued and Rule 105 states that a register of fees charged and collected and the salaries paid to batta peons should be maintained in each office and that payments made to Amins and batta peons should not exceed the amount of collections. It seems, therefore, that the collection of process fees and the maintenance of the process establishment do not depend upon each other.

3. Process servers are entertained in Taluk Offices only for four months during the collection season, when the work will be heavy and they are mostly entrusted with the serving of demand notices. The other processes, such as sale proclamations, attachment notices, etc., and also the demand notices in many cases are served by the Taluk Agency during the whole year. If it be considered that the above Government Order is still in force then I am afraid that no fees can be levied on any kind of process served through the Taluk Agency. Article 103 of the Revenue Rules seems to be positive on the levy of process fees leaving no discretion.

4. If my view is correct I request that the above Government Order, which was passed before the Land Revenue Rules of 1901 were framed and which conflicts with the present rules, may be cancelled."

No. R. 1817-55—L. R. 552-12-2, DATED BANGALORE, 25TH AUGUST 1913.

ORDER THEREON.—Government agree with the Revenue Commissioner in holding that, irrespective of the employment of a separate process service establishment, process fees should be levied under the Land Revenue Code in accordance with the scale laid down in Rule 103 of the Land Revenue Rules.

2. The Government Order read above is cancelled.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioners of Districts.

Exd.—C. K.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 25th August 1913.

READ—

Letter No. 14165, dated the 13th June 1912, from the Revenue Commissioner in Mysore submitting for orders the records connected with the appeal of Nagappa and other raiyats of Kuppur-Chikkanapalya, Majare village atttached to the Asli village, Gowdagere, in the Chiknayakanhalli Taluk, against the order passed by himself as Deputy Commissioner of the Tumkur District holding the appellants to be liable to pay the cost of earthwork in connection with the restoration of the minor tank of Venkataiyanakere in the Gowdagere village.

No. R. 1869-79—L. R. 564-11-2, DATED BANGALORE, 25TH AUGUST 1913.

ORDER THEREON.—The tank in question was restored in 1910 at a cost of Rs. 751 on some of the raiyats of both the Asli and Majare villages agreeing in writing to pay the cost of earthwork in 3 years. When the demand was made, the raiyats of the Majare village objected to pay their share of the cost of earthwork (Rs. 111-15-10) on the ground that they held no wet lands under the tank and derived no direct benefit therefrom. The Deputy Commissioner having, however, held them to be liable for the cost under Rule 2 of the rules for the maintenance of tanks laid down in Government Order No. R. 5251-61—Agri. 626-03-6, dated the 15th December 1904, the present appeal has been preferred against his order.

2. In his letter No. 299, dated the 6th June 1912, to the Revenue Commissioner, the Deputy Commissioner states that, though the raiyats of the Majare village own no wet lands under the tank, they were called upon to pay their share of the contribution, as they signed the Mutchalikas agreeing to pay the amount and as they derived direct benefit from the tank. Government observe that it is only in respect of the annual maintenance of restored tanks, that not only the holders of wet lands but also occupants of dry lands and Mohatarfa-paying raiyats in the village are liable under the rules and that in cases of restoration of tanks (whether major or minor) there is no rule either of law or usage for the levy of contribution from other than those holding lands under the tank. In the present case, the inhabitants of the Majare village do not own any wet lands under the tank. It is also observed that out of 20 Khatedars in the village, only seven have signed the Mutchalikas agreeing to contribute towards the cost of the restoration of the tank. In these circumstances, the Government consider that the raiyats of the Majare village should be exempted from contributing towards the cost of restoration of the tank and they are accordingly pleased to direct that the demand against them be waived.

3. Government are also pleased to direct that as the total cost of the restoration of the tank has amounted to Rs. 751 only, a third of it, *viz.*, Rs. 250, be recovered from the raiyats holding lands of the Asli village under the tank and that the balance of the cost be borne by Government.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The following summary of discussion on Subject No. 119 of the proceedings of the Representative Assembly of 1911 regarding the payment of miras by the raiyats of alienated villages.

Summary of discussion.—Orders were passed in 1893 by Government that the miras payable to village servants in jodi and kayamgutta villages must be levied from the raiyats and not from the jodidars; but the reply to Subject No. 61 of 1907, directly contradicts this order and states that patels and shanbhogs are entitled to remuneration and not to miras, such remuneration being recoverable from the Inamdar under, Notification No. R. 7642 of 20th December 1905. It is therefore prayed that miras may be levied from the raiyats in accordance with mamul.

Miras to village servants in jodi villages.
Mr. Suryanarayana Rao, Tumkur Taluk.

Reply of Government.—Will be considered. Where there is a well recognized mamul regarding payment of miras, it can always be enforced in unsettled inam villages. It does not appear that the orders of 1893 have at all been altered.

2. Correspondence ending with letter No. 11456, dated the 27th June 1913, from the Revenue Commissioner in Mysore, stating that there is no uniformity of practice as regards the payment in all the districts.

Letter No. 11456, Bangalore, dated 27th June 1913, from the Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to your letter No. 1667—L. R. 547-11-1, dated 17th June 1912, inviting attention to Subject No 119 of the Representative Assembly of 1911, regarding miras payable to village servants in Inam and Jodi villages and calling for a report as to what the practice is in alienated and unsettled villages and who are liable to pay miras to minor village servants and whether any miras is paid to patels and shanbhogs in those villages, I have the honor to forward herewith a summary of the reports received from the marginally noted Deputy Commissioners for the information of Government. It will be seen therefrom that there is no uniformity of practice in all the districts. It differs with every district, taluk or sometimes with every village

Bangalore
Kolar
Tumkur
Chitaldrug
Mysore
Hassan
Shimoga

The original reports received from the Deputy Commissioners together with their enclosures are also forwarded herewith.

A summary of the reports of Deputy Commissioners in the matter of miras to village servants in Inam villages.

---

1. The Deputy Commissioner of Hassan states that none of the shanbhogs, patels or minor village servants in any of the alienated villages in that district are getting miras from Inamdars though a few of the minor village servants in the alienated villages in the Hole-Narsipur Taluk and in the Agrahar village of the Arsikere Taluk, are getting the same from the raiyats But most of the minor village servants and a few of the patels are stated to have been given lands either free or partially free of assessment and in some cases on full assessment. It is also reported that the duties of the shanbhogi office in all the villages and of the patels in some of the villages are being attended to, by one of the Vrittidars, the payment of remuneration being arranged among the Inamdars themselves.

2 The Deputy Commissioner of Chitaldrug reports that it is only the totis and talaris who get miras just as in Government villages and that the patels and shanbhogs in some of the villages, wherever this class of servants exists, receive from the Inamdars, a small money remuneration, while those in other villages are allowed a small extent of lands as Inam. In villages where there are no patels and shanbhogs, the Inamdars themselves attend to this work.

3. The Deputy Commissioner of Tumkur states that the practice in his district is not uniform the patels and shanbhogs in most cases enjoying inam lands in addition to or without miras from the raiyats or Inamdar, while the minor village servants generally getting miras from the raiyats In many villages they enjoy inam lands also.

4. The Deputy Commissioner of Kolar also states that the system in his district is not uniform, that in some villages, the minor village servants enjoy land inams, in addition to miras by the raiyats according to the existing scale which does not exceed the scale fixed for Sircar villages and that in the case of patels and shanbhogs, they are granted inam lands in a few villages without any miras but where no inam is granted in any village, they are given some miras by the raiyats. In some villages, the Inamdars themselves look after these duties.

5. The report from the Deputy Commissioner of Shimoga says that in a few villages, where, totis and talaris exist, they usually get Aya from the raiyats whether or not any inam lands have been assigned for such service, that the patel of an inam village is generally one of the Vrittidars and that in a few villages service inams are set apart for this service also. As regards the shanbhogs

Land Revenue, dated 28th August 1913.

6. The Deputy Commissioner of Mysore states that the practice is not uniform, the patels and shanbhogs in some villages being paid miras in the shape of grain, while in others, wages are being paid to them at rates fixed by the respective Inamdars. Besides the miras, a masikanike of four annas or so per khate is also paid in some villages and that in the case of minor village servants, they are generally given inam lands in addition to miras from the raiyats.

7. The Deputy Commissioner of Bangalore, while referring to the diversity of practice in his district, states that patels and shanbhogs have Inam lands set apart for them either by Government as Jari inam or by Inamdars as Sthala inam, that they do not generally receive miras, but that instances are not wanting when they receive miras also partly from raiyats and partly from Inamdars. As regards minor village servants he says that the general practice is the payment of miras, but that in some places, inam lands also are given. No reply has been received from the Deputy Commissioner of Kadur, but a perusal of the reports from the other Deputy Commissioners will show that the practice in the Kadur District also may be more or less the same as in other districts.

No. R. 1959-67—L. R. 547-11-3, DATED BANGALORE, 28TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Under Government Order No. Pet. 380-8, dated the 12th September 1902, the mirasi rules applicable to minor village servants in Government villages apply also to alienated villages. As regards the payment to the patels and shanbhogs, Rule 6A of the Land Revenue Rules is equally explicit. In surveyed inam villages the village officers are entitled to get from the Inamdars, potgi in cash according to the scale sanctioned for Government villages. In unsurveyed villages, the amount of the remuneration and the persons liable to pay the same will be regulated according to usage.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

The Deputy Commissioners of Districts.

Exd —C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Read—

The following papers relating to the revision settlement of the late Koratagere Taluk in the Tumkur District.

Letter No. 56, dated the 15th October 1912, from the Superintendent of Revenue Survey Settlement in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments. (Printed as Accompaniment I.)

2. Letter No. 79, dated 13th December 1912, from the Superintendent of Revenue Survey and Settlement in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments. (Printed as Accompaniment II.)

3. Letter No. 5588, dated the 8th January 1913, from the Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments. (Printed as Accompaniment III.)

No. R. 1212-53—L. S. 12-12-4, dated Bangalore, 8th August 1913.

Order thereon.—The original settlement was introduced into the late Koratagere Taluk in 1876. The taluk then consisted of 404 villages, but soon after the settlement many of the smaller villages were combined together for administrative convenience and the total number was reduced to 330. In 1881-2 the taluk was broken up and a sub-taluk (the present Koratagere Sub-Taluk) was formed with 140 villages and the remaining 190 villages were added on to the adjoining taluks of Sira, Tumkur, Nelamangala, Dodballapur and Goribidnur. The present proposals relate to the revision settlement of the 330 villages which constituted the old Koratagere Taluk.

2. The tract under consideration is a narrow strip of country lying between the Maddagiri and Tumkur Taluks and is interspersed with isolated hills and small ranges, which serve as the watershed between the basin of the Vedavati to the west and that of the North Pennar, by its tributary the Jayamangali, to the east. The configuration of the land is favourable to the construction of tanks for irrigation purposes and almost all the best available sites have been utilized for this purpose. In all, there are under action 122 tanks and 65 gokattes. There are 1,129 wells in this tract used for irrigation and also a number of *talapariges*, especially in the beds of the Jayamangali and the Suvarnamukhi. The average rainfall for the tract is 25·03, the precipitation being spread over both the monsoons with noticeable fluctuations.

3. In common with the surrounding country, this tract suffered heavily from the great famine of 1876-78, the population in 1881 shewing a decrease of 42 per cent from what it was in 1871. Even 20 years later there was still a deficiency of 10 per cent to make up, but there has been a vigorous growth of population in the last decade with the result that the population now shows an increase of 19 per cent as compared with the figures of the census for 1871. The revenue history of the tract shows also corresponding fluctuations and it was not until the year 1893-94 that any increase was noticeable in the area under occupation as compared with that at the original settlement. In the closing years of the last decade the improvement in the agricultural revenue shows a satisfactory increase of 15 per cent over the collections of 1877-78.

4. The tract is fairly well provided with communications. Since the last settlement, two new roads have been opened which afford the interior villages convenience of access to the two railway lines, Bangalore-Haribar and Bangalore-Hindupur, the former of which runs not far from the south-eastern block of villages and the latter runs at a little distance from the eastern boundary. In consequence, the tract has been able to get the full benefit of the general rise in prices, which is computed as high as 30 per cent for rice and 100 per cent for ragi. The material resources of the people also show a great deal of improvement. Houses have increased by 16 per cent, horned cattle by 3·2 per cent, carts by 2·31 per cent and ploughs by 31 per cent.

5. There has been a satisfactory increase of 2,230 acres or about 36 per cent in the extent of rice or wet land and of 439 acres or nearly 10 per cent in that of garden land and this result is largely due to the improvement of the existing tanks and the construction of two new tanks at Mavattur and Ujjaini, a sum of over Rs. 5 lakhs having been spent in the improvement of irrigation during the currency of the settlement. The dry arable area shows on the other hand a decrease of 4,109 acres which is partly due to conversion of dry land into wet and garden and partly to reservation for forest or other public purposes. The resurvey has resulted in an increase of 1,363 survey numbers or 7 per cent over the number for the original survey due to the subdivision of existing numbers.

6. The original classification of the soil has not been disturbed except in the cases of conversion of dry into wet or of kharab lands classed for the first time but the water classification of all rice and garden lands has been revised under the rules of 1896. The original grouping of the villages has been adhered to and the tract divided into four groups with reference to the assessment on wet and dry lands. The maximum wet and dry rates proposed are as shown below:—

Group	Number of villages	Maximum dry rate		Maximum wet rate	
		Old	New	Old	New
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
I ...	94	2 2 0	2 8 0	9 0 0	9 0 0
II ...	128	2 0 0	2 6 0	9 0 0	9 0 0
III ...	73	1 12 0	2 0 0	8 8 0	8 8 0
IV ...	35	1 8 0	1 10 0	8 8 0	8 8 0

The maximum rate for garden lands has been reduced from Rs. 16 to Rs. 12.

7. The average old and new rates on the occupied area are as shown below:—

Description	Average rates		Increase or decrease	Percentage
	Old	New		
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
Dry	0 10 0	0 11 8	+0 1 8	+16·6
Wet	3 4 5	3 6 11	+0 2 6	+ 4·8
Garden	6 5 3	5 1 9	—1 3 6	—19·
Total ...	1 1 8	1 2 10	+0 1 2	+4

8. The proposals provide for an average increase of one anna two pies per acre of occupied area and a total increase in the land revenue of the tract by Rs. 4,093 or 4 per cent over the collections of 1908-09.

9. The Deputy Commissioner, Tumkur District, considers the increase in the rate of dry assessment as disproportionately high and likely to press hard upon the poorer section of the population and suggests a redistribution of the increase in the total revenue of the tract by limiting the increase in the dry rates to 10% and fixing the wet and garden rates at a higher figure than that proposed by the Deputy Superintendent. Both the Superintendent of Survey and the Revenue Commissioner are, however, not in favour of the modification suggested by the Deputy Commissioner and consider that the rates proposed by the Deputy Superintendent of Survey are moderate and reasonable and that they may be sanctioned.

Revenue (Land Survey), dated 8th August 1913.

The subjoined table shows the rates proposed for the old Koratagere Taluk as compared with those sanctioned for the Tumkur and Sira Taluks at the revision settlement of these taluks :—

Description of land	Late Koratagere Taluk		Sira Taluk		Tumkur Taluk	
	Maximum rates proposed	Average rates proposed	Maximum rates	Average rates	Maximum rates	Average rates
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Dry	2 8 0	0 11 8	1 10 0	0 6 2	2 12 0	0 13 10
Wet	9 0 0	3 6 11	9 0 0	3 13 1	9 0 0	1 3 1
Garden	12 0 0	5 1 9	10 0 0	3 11 8	12 0 0	5 2 1
Total ...	...	1 2 10	..	0 11 5	...	1 5 2

10. Government have carefully examined the rates proposed by the Deputy Superintendent and find that they are based on a careful consideration of the situation, and soil and climatic conditions of the tract and they agree with the Revenue Commissioner and the Superintendent of Survey in considering that the rates proposed are reasonable and moderate and compare favourably with the revised rates recently sanctioned for the Tumkur and Sira Taluks which adjoin the tract in question. Government are therefore pleased to sanction the proposals of the Deputy Superintendent for the revision settlement of the late Koratagere Taluk and direct that the settlement be brought into force with effect from the official year 1914-15, with the usual guarantee of 30 years. The revised rates will be announced in the next cold weather.

11. It is observed that the revenue history of the tract given in Appendix A of the report does not furnish details for the progress of cultivation under the different classes of land and this is reported to be due largely to the information not having been readily available in the various taluks from which it had to be collected. The Superintendent of Survey is requested to see that, in future reports, full particulars under all the heads are invariably given to enable Government to study the progress of cultivation and its fluctuations during the currency of a settlement.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Accompaniment I.

Letter No. 56, dated 15th October, from Rajakaryaprasakta Rao Bahadur D. Shama Rao, Esq., Superintendent, Revenue Survey and Settlement in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to forward herewith 6 advance copies of report No. 245, dated 5th September 1912, with appendices and maps from Mr. D. K. Darasha, Deputy Superintendent, on the revision of assessment in 330 villages of the late Koratagere Taluk as it stood at the original settlement.

2. It is not necessary for me to follow the Deputy Superintendent through all the details of his proposals, which, I am to observe, were fully discussed by him and myself before they were formulated and which, therefore, have my full concurrence.

3. As usual, copies of the report with its appendices and map have been forwarded to the Revenue Commissioner and to the Deputy Commissioner, Tumkur District, for their opinion on receipt of which the same will be forwarded to Government with my remarks.

4. Copies of my letters to the Revenue Commissioner and the Deputy Commissioner are enclosed herein.

ENCLOSURE 1.

Report No. 245, dated Bangalore, 5th September 1912, from D. K. Darashah, Esq., B.A., Deputy Superintendent, Mysore Revenue Survey, to Rajakaryaprasaktha D. Shama Rao Esq., Rao Bahadur, Superintendent, Mysore Revenue Survey and Settlement, Bangalore.

I have the honour to submit proposals for the revision settlement of 330 villages, which formed the Koratagere Taluk as it stood at the original settlement. The original settlement was introduced into these villages on the report of Colonel J. P. Grant, then Superintendent, Mysore Revenue Survey, in his letter No. 883 of 1875, under the late Chief Commissioner's sanction conveyed in his Proceedings No. 9723—Rev. 256, dated 16th March 1876.

2. Colonel Grant's report dealt with 404 villages. Soon after the settlement, however, this number was, by a process of amalgamation effected in veiw of better administrative efficiency, reduced to 330.

3. When the late taluk of Koratagere was abolished in 1881-82, 140 villages out of the 330 were marked off for the newly constituted sub-taluk of Koratagere, as it stands at the present day, attached to Maddagiri Taluk, and the remaining 190 villages were absorbed into the adjoining taluks of Tumkur, Sira, Nelamangala, Goribidnur and Dodballapur, as per details given in the margin.

Tumkur	...	74
Sira	...	31
Nelamangala	...	13
Goribidnur	...	21
Dodballapur	...	51
		190

4. The area comprised in the old Koratagere Taluk is bounded on the north by villages of the Maddagiri Taluk, south by villages of the Tumkur, Nelamangala and Dodballapur Taluks, west by villages of the Sira Taluk, and east, by villages of the Goribidnur Taluk.

The tract represents a narrow strip of country wedged in between the Tumkur and the Maddagiri Taluks, with spurs thrown out towards the north-west, the north-east and the south-east, which help to make it so very irregular in shape, that the breadth measured north and south varies from 24 miles in one place to less than 4 miles in another. The distance between the east and the west sides of the taluk is about 28 miles.

5. *Physical characteristics.*—Isolated hills of varying size and small ranges are found scattered in the taluk, all formed part of the great range traversing the province north-west to south-east, which is the eastern boundary of the Krishna river system. The most prominent peaks are Siddabetta (4,198 feet), Channarayadrug (3,744 feet), and Koratagere (2,906 feet).

A line drawn along the Siddabetta range, north and south, would roughly correspond to the watershed separating the main lines of drainage. The drainage to the east of this line is drawn into the Jayamangali, and affluent of the Uttara-Pinakini or North Pennar, and its tributaries, the Suvarnamukhi and the Garudachala; the drainage to the west, after filling several tanks, finds its way into the stream which flows to the Vedavati through the Sira Taluk. The Jayamangali rises in the Devarayadurg hills and flows through this tract in a

northerly direction into the Maddagiri Taluk, receiving the Garudachala near Holavanahalli from the east, and further on, near Rampur, the Suvarnamukhi from the west.

Oojjaini. Maddagiri. Gourgal | Kolakul. Maklidurg.

The hills in this tract are covered with trees of stunted growth and scrub-jungle useful chiefly as fuel or small timber. With a total area of 8,805 acres, survey numbers in 20 villages in this tract have been taken up for the marginally noted State Forests. Though these forests do not produce any valuable timber, their importance, at least as fuel and grass preserves, cannot be underrated.

While the red and gravelly soil varying in quality predominates, superior alluvial soil and fertile loams are found in the centre and the west of the taluk, along the banks of rivers and below the larger of the tanks.

6. *Rainfall.*—The following table, giving the rainfall at each of the rain-guage stations within the taluk, is taken from the Director of Meteorology's Report for the year 1910:—

Name of station	Periods of observation for which figures are available	Average for the period
Koratagere	10 years	22·83
Holvanahalli	14 ,,	23·66
Tovinkere	14 ,,	27·02
Mavattur	8 ,,	25·06
Kolal	7 ,,	27·89
Average for the tract	.....	25·03

On page 23 of the printed report, is found the mean for Koratagere for a period of 21 years, *i.e.*, 24·03 inches. The rainfall for each of 15 years between 1896 and 1910 is also given. It is to be noticed that in six of the fifteen years the rainfall has been more or less short of the average, while in the nine others it has gone well over the average. Of the years of short rainfall, 1896 with a fall of 15·23 inches and 1908 with 14·03 have been the worst, whilst in two of the best years, 1910 and 1903, so much as 35·59 and 37·58 inches were registered.

The position of the tract is favourable to its profiting mostly by the south-west monsoon and fairly well by the north-east monsoon. Though not free from anxious years of scantly rainfall, it is commonly known that the tract is not liable to suffer as frequently as several tracts to the north, such as those included in the Pavagada, Molakalmuru, and Challakere Taluks.

7. *Communications.*—As regards communications, the tract is fairly well off. The three main roads which existed at the time of the original settlement are (1) the Tumkur-Koratagere-Maddagiri road, (2) the Dobbspet-Koratagere road and (3) the Dodballapur-Maddagiri road.

The new roads constructed since the original settlement are (1) a road from Koratagere to Baichapur to meet the Maddagiri-Dodballapur road and (2) a road from Akkajihalli on the Koratagere-Dodballapur road running eastwards to Tondebhavi, a Railway station on the Madras and Southern Mahratta Railway. The cart-tracks, mostly old, some new, connecting all the important villages with made-roads, are almost all in fair condition.

The Bangalore-Tumkur Railway line passes not far from the south-eastern block of villages, and the Bangalore-Hindupur line passes at about the same distance not far from the eastern boundary of the tract. Tondebhavi and Goribidnur, on the latter, are stations much resorted to by the people of the taluk.

8. *Markets.*—Weekly markets within the tract are held at Mavattur, Koratagere and Tovinkere. They are all of small importance and serve only local needs. The outside markets of Tumkur and Hindupur are most freely resorted to, for securing good prices for surplus produce.

9. *Fairs and festivals.*—The only fair of importance is annually held at Kyamenhalli, about 8 miles from Koratagere, in connection with the car festival of Anjaneyaswami. A cattle fair is held at the place which lasts for about 4 days, where cattle are bought, sold or exchanged in large numbers. Raiyats from taluks, far and near, resort to this important fair.

10. *Manufactures.*—Very little can be said of the manufactures here. The iron smelting industry, which once flourished, is now almost extinct. There are 235 hand-looms for

cotton cloths, and 120 for cumblis, and 66 oil-mills, all designed to meet the local demand and nothing more.

11. *Exports and imports.*—The exports are chiefly rice and ragi; the imports are salt, piece goods, iron and oil.

12. *Irrigational resources.*—The sources of irrigation are much the same as those in Tumkur Taluk—wells, tanks and talapariges.

Wells.—In the absence of an assured water-supply from tanks, a safe and comparatively certain source of irrigation during summer is to be found in the *kapile* wells which stud the banks of the streams already named, or are constructed within the radius of influence of tanks, or are situated in low-lying ground, where springs can be tapped at easy depths. They are of all descriptions: some are *katcha* or temporary, being mere holes in the ground sunk at a cost of a few rupees; but many are deep cuttings through soft rock with stone revetment and substantial *kapile* fittings. The total number of wells is 1,712, of which 1,129 are used for irrigation. Under the Land Improvement Loans Regulation, the raiyats have pretty freely resorted to loans for the improving of old wells and for sinking new ones. After a season of ordinary rainfall, water is ordinarily obtainable at a depth of 10 or 12 feet in the month of February. But in 1909, the year that followed one of the scantiest of rainy seasons in Koratagere, many of them had dried up, and the water level in some of the better class of wells had subsided to a depth of about 25 feet.

Tanks.—Almost all the best sites for tanks in the tract have been turned to good use. The more important of the streams into which the drainage of the country gravitates, have been bunded up. The tract to the west of the Dobbspet-Maddagiri road possesses the majority of the larger tanks. There are in all 122 tanks and 65 *gokattes*. The most important addition to the irrigational resources of the tract has been the construction of the new tank near Mavattur, where the Garudachala, a tributary of the Jayamangali, has been bunded across at a cost of over three and a half lakhs of rupees. It has channels drawn off from the two sluices irrigating lands in a dozen villages. The area estimated to be brought under wet cultivation is 3,262 acres as computed by the Executive Engineer of the Division. Of this, about 1,200 acres only were brought under the head of 'wet land' at revision classification in the year 1909, because wet cultivation had not at the time reached the expected limits, and the raiyats had not been able to derive the fullest benefit from this important source. I need scarcely remind you that the safest course for classers in dealing with lands proposed to be brought under irrigation is to wait till they are actually irrigated and bear crop; otherwise mistakes are sure to occur, resulting either in hardship on the raiyats or loss to Government. The difficulty of classfication on mere estimates becomes the more pronounced in the case of lands under the Mavattur tank, inasmuch as the atchkat is situated in a long valley of about 10 miles and is distributed between 12 villages. The indirect benefit derived from the Mavattur tank by the *kapile* wells on the banks of the stream below the tank, as well as by the talaparige channels drawing water from the river-bed, is considerable, ensuring as it does, a supply of spring water at very convenient depths even during years of deficient rainfall. The tanks at Mavattur and Ojjaini are the more important of those constructed during the currency of the settlement. The major tanks of Agrahar, Chikkanhalli, Holavanhalli, Togarigatta, Gutlahalli, Dharmsagar and Rampur have been restored or improved. The tanks in the taluk are, on the whole, maintained in fair order. As the villages of this tract have been distributed over several taluks in three districts, it has been found difficult to ascertain the exact amount spent during the whole of the currency of the original settlement for restoration and improvement. It is seen, however, from the general list of tanks restored, published by the Public Works Department in the year 1901, that a sum of Rs. 1,76,061 was spent on the repair or improvement of tanks in the tract between the years 1884 and 1901. The Mavattur tank cost Government Rs. 3,62,843, bringing the total expenditure to Rs. 5,38,904.

Talapariges or surface springs are found in the beds of the Jayamangali and the Suvarnamukhi. Good advantage is taken of them by the raiyats. They are usually made to supply water by means of channels to irrigate some of the best rice and garden lands in the tract. The talapariges in the west of the taluk, which find their sustenance from hill drainage collecting in favourable spots, as a rule, begin to get attenuated in the month of March. But many of those connected with the beds of the Jayamangali and the Suvarnamukhi, keep alive throughout the hot weather.

13. *Crops.*—Rice, ragi, and jola are the stable crops in irrigated lands. Ragi, horsegram, oil-seeds, avaré, togari, and save predominate in dry lands. 'Baje,' a medicinal root peculiar to this tract, grows among other places in the village of Agrahar; it is planted in low-lying lands with an abundant supply of water and takes nearly 15 months to mature. The root is exported to the mahad and to other foreign places where it is used medicinally for rheumatism and like affections. The crop is said to pay on an average about Rs. 350 an

Revenue (Land Survey), dated 8th August 1913.

acre, the yield being large and the price obtained on the spot being no less than one rupee a maund. In the Dhuvapanu gardens, cocoanut, areca, betel-leaf and plantain are the chief crops raised. Generally speaking, the areca gardens are not of a very superior description; the best of them are met with in some villages of the Tovinkere magani bordering on Sira Taluk, as also on favourable sections of the banks of the Jayamangali and Suvarnamukhi. The following table, showing the distribution of the crops for the tract, is compiled from the figures supplied by the taluk offices:—

Rice	3·01
Ragi	38 61
Jola	1 58
Gram	1·41
Oil-seeds	3·80
Cotton	0 01
Sugar cane	0·23
Other cereals	46 18
Garden produce	1·21
Other miscellaneous crops	2 15
Pulse	1 02
Condiments	0 43
	100·00

I find it difficult to say that the figures given above may be relied upon, and prefer to offer the entries for the Koratagere Sub-Taluk, as published in the season and crop report for 1910-11, as representing more approximately the state of cultivation in the tract. The figures there given are for the five principal crops, rice, ragi, cholum, gram and sugar cane:—

Crops	Area cropped	Percentage to the entire cultivated area
Rice	5,681 acres	13 6
Ragi	22,000 „	52·6
Cholum	1,560 „	3·5
Gram	12,484 „	29·9
Sugar cane	155 „	0 4

These figures, it should be remembered, are not for the old Koratagere Taluk but for the present Koratagere Sub-Taluk, which, however, forms the major portion of the tract under report and may safely be said to be representative of the whole of the country we are dealing with.

14 *Agricultural resources.*—The following is a statement compiled from statistical returns prepared at the time of the original survey, and the results of the late Census of Agricultural stock held in 1911. Classers' statistics are, however, quoted for items for which Census figures cannot be had.

Items		At original settlement	Latest statistics	Increase	Decrease	Percentage of increase or decrease		Remarks
Houses	Tiled ...	66	147	81	.	+ 123		
	Mud roofed	11,628	13,053	1,425	..	+ 15	+ 11	
	Thatched ..	2,650	2,317	...	333	— 13		
Horned cattle	.. .	47,691	63,120*	15,429	..	+ 32		
Carts	Hulu Bandi .. .	145	10	...	135	— 93		
	Small or Chakkadi ...	407	1,787*	1,380	.	+ 339	+ 241	
	Waddar	2	39	37		+ 1,850		
Ploughs	.. ..	8,153	11,076*	2,623		+ 31		
Wells	Irrigational	Figures not	1,129	...	..	...		
	Others	avilable	683					

* Figures marked with an asterisk are those of the Agricultural Census of 1911. The rest are Classers' statistics

Under almost all the important heads, there has been a satisfactory increase. Houses show an increase of 11 per cent; horned cattle of 32 per cent; carts of 231 per cent, and ploughs of 31 per cent. The all-round increase in agricultural stock, in spite of seasonal vicissitudes, is an indication of the progressive material condition of the tract.

15. *Population.*—The following table, compiled from the decennial Census figures of the Government villages of the tract, illustrates their past history on the important point of population :—

Census of—				
1871	...	...	...	... 62,730
1881	...	...	...	... 36,390
1891	...	...	...	... 48,653
1901	...	...	...	... 56,678
1911	...	...	...	... 74,804

The figure for 1911 is only the advance figure for the recent Census; but we know from experience that advance figures are not ordinarily liable to material inaccuracies and will, therefore, bear quoting. The figure for 1881 shows the very heavy loss of nearly 42 per cent of the population owing to the ravages of the Great Famine of 1876-78. But the rate of recovery is just as striking. The population in the year 1891 showed an increase of nearly 34 per cent over that of 1881, though still 22 per cent behind 1871. In 1901 it showed a further increase of 16 per cent over that of the previous decade, though even then it was 10 per cent behind the 1871 population. In 1911, however, we arrive at figures working out to an increase of 19 per cent over the population of 1871. It is clear that the recuperative power of the tract is very considerable. Very few of the taluks that suffered so grievously at the famine, can show a better record of progress than does Koratagere. Separate Census figures of castes and creeds are not available, the villages being distributed over six taluks. I may, however, say that the castewar tables (1901) for Koratagere Sub-Taluk inform us that the Vokkaligars number about 22 per cent of the total population, and that the more important of the numerous other castes are the Lingayet, Madigar and Bedar, each of which forms about 10 per cent. We have no reason to think that any material alteration in these proportions will be brought to notice by the Census Report for 1911 when it is published.

16. *Prices.*—The information from the Taluk Offices is very meagre on this point and does not, in any case, go behind the year 1890. However, the question has been discussed in para 21 of the Report on the revision of assessment of the Pavagada Taluk. The Revision Settlement Reports on the Tumkur and Sira Taluks also contain interesting details about the rise in prices; and it is not assuming too much to say that the facts and figures, adduced in the reports for those taluks, stand good for Koratagere as well. The tract is not, by any means, an isolated one, and enjoys to no small extent the advantages from the Railway, not far from its frontiers, and from improved internal communications. I believe no one will hesitate to own that the price of rice in the tract has risen, as was proved for the Tumkur, Sira, and Pavagada Taluks, within the past 35 years, by at least 30 per cent, and that of ragi, by 100 per cent.

17. *Sales and mortgages.*—I have had examined 519 cases of sale and 170 of mortgage extending over 30 years from 1876 to 1906, in which the amount of sales aggregates to Rs. 62,959 and that of loans, to Rs. 31,006 or to Rs. 93,965 on the whole. The land, when sold, realized on the average 13 times, and loans on mortgages, 15 times the assessment. These results are, roughly speaking, similar to those arrived at in the case of Tumkur and Sira Taluks. The market value of agricultural land in Koratagere may be said to be about as high as it is in the Tumkur and Sira Taluks.

18. *Past and present survey.*—There are now 20,156 new or re-survey numbers, against 18,793 original survey numbers, showing an increase of 1,363 or 7 per cent. This increase is due (1) to the sub-division of large-sized dry survey numbers below new tanks into small survey numbers, (2) to small-sized survey numbers made out of unassessed kharab in the interests of cultivation, and (3) to the sub-division of occupied survey numbers under Re-survey Rules.

Revenue (Land Survey), dated 8th August 1913.

The area of each description of land, according to past and present surveys, is as follows:—

Description	Former survey as per Akarband	Present survey	Increase or decrease
	Acres	Acres	Acres
Arable dry crop ..	113,197	109,088	– 4,109
Rice or wet land ..	6,168	8,398	+2,230
Garden land ...	4,444	4,883	+ 139
Unarable land ...	90,139	92,647	+2,508
Total ...	213.948	215,016	+1,068

The increase of 1,068 acres by re-survey in the gross area of the tract is of no practical consequence as it amounts only to 0·5 per cent.

The decrease of 4,109 acres under the dry arable area is due to the conversion of dry into wet or garden, or to the transfer to the unarable head, where assessed land has been taken up for forests, new roads, new tank-beds or other public purposes

The wet area shows a large increase of 2,230 acres or nearly 36 per cent. This is mainly due to the classification, for the first time as 'wet' of old 'dry' lands under new irrigation works, such as the tanks at Mavattur and Oojjaini, and partly to the transfer of a number of gardens, to the 'wet' head. The garden area shows an increase of 139 acres, due to the conversion of old wet or dry lands.

19. *Re-classification.*—The original classification of the soil has been left undisturbed except in the comparatively few cases of conversion of dry into wet, or of kharab lands classed for the first time in the interests of cultivation. The water classification of all rice and garden land has been revised under the Rules of 1896.

20. *Revenue history.*—Appendix A gives the revenue history of the tract under report for 32 years. In spite of repeated requisitions and reminders from this office, and from the Revenue Commissioner, and strict orders from the Deputy Commissioners, there was much difficulty in obtaining statistics for compiling the statement prescribed by Government. The figures received from the taluks are still far from being complete. Not one of the six taluks among which the villages are now distributed, has sent up a complete record of its own share of the late Koratagere Taluk-the statement received from Kortagere Sub-Taluk omits to take account of a large number of villages for 31 years, that for Goribidnur is likewise defective for 7 years, Tumkur for 15, Sira for 3, Nelamangala for 12, and Dodballapur for 20. It is clear that such fragmentary statements, if put together, could not have afforded any grounds for useful comparison. I have, therefore, had to compile Appendix A from the statements received annually at the Superintendent's Office, exhibiting the area and assessment of the occupied and unoccupied lands in each of the past years, though these are not classified under the heads of dry, wet and garden, as required by Government in their Proceedings No. R. 4299-310—L. S. 3-06-2, dated 29th October 1906.

The following is an excerpt from Appendix A.

Periods	Government occupied lands					Government unoccupied lands		
	Acres	Assessment	Remission	Revenue realised	Percentage of increase or decrease as compared with the year 1877-78	Acres	Assessment	Percentage of increase or decrease as compared with the year 1877-78
1st year 1877-78 in abstract	78,277	85,762	143	85,619	..	86,268	19,820	...
Average of 5 years 1878-82	60,594	78,629	158	78,472	—14	53,906	32,460	+64
Do 1883-87	61,614	74,066	192	73,874	—14	54,019	33,875	+71
Do 1888-92	72,245	82,734	287	82,447	+ 4	44,624	25,908	+31
Do 1893-97	80,756	91,079	322	90,758	+ + 6	36,221	18,396	— 7
Do 1898-02	86,518	93,516	135	93,381	+ + 9	34,005	17,187	—13
Do of 7 years 1903-09	89 147	99,302	491	98,811	+ 15	27,203	13,148	—34

During the first quinquennial period, the average revenue collection was Rs. 73,472 against Rs. 85,619 for 1877-78, the year succeeding that of the introduction of the original settlement, showing a fall of 14 per cent. This was due to the great famine of 1878, which caused a terrible loss of 42 per cent of the population. During the next period, the same state of things continued. In the third period, lost ground began to be recovered and the revenue was short by only 4 per cent of the collections in the year following the settlement. In the three periods following this, a progressive advance is shown to have been maintained, the first showing an increase of 6 per cent, the second of 9 per cent, and the latest of 15 per cent, over the collection of 1877-78. All this was due to the increase in population, the improvement and restoration of important irrigation works, and improved communication both inside and outside the tract.

21. The exposition of the economic conditions in the tract made in the foregoing paragraphs may now be summarised: there have been additions to means of communications the population has increased to a satisfactory extent, and a general rise in the prices of food-grains is undoubted; the agricultural resources have shown expansion under the important heads of houses, ploughs, cattle and carts; the major tanks in the tract have been improved and maintained in good order; the tract is a healthy one, and the soil is fairly fertile. The only disadvantage is the occasional deficiency in rain-fall, which, however, is not as frequent here as in the taluks to the north and west. A comprehensive view of all these facts will not fail to indicate that an increase in assessment ought, in fairness, to be expected at the proposed revision. How far and in what direction the increase is proposed to be effected, will be explained in the next paragraph.

22. *Grouping.*—On a careful comparison of the considerations that weighed with the original Settlement Officer in delineating what we call the "Grouping," with the condition of things now obtaining in different parts of the tract in question, I can think of no substantial reason calling for any alterations in that direction I propose to adhere to the old grouping, and the tract will consequently be divided into the following four groups with reference to the assessment of wet and dry lands:—

Group I.—Ninety-four villages, (originally 103, reduced in number since the reconstitution of the taluk by which some villages were amalgamated with others), well situated in the central and southern portion, near to high roads and favourably placed with reference to markets. The maximum dry rate for these villages will now be Rs. 2-8-0 as against Rs. 2-2-0 of the original settlement. This moderately increased rate tallies with that of the adjoining villages of the Tumkur Taluk already resettled.

The wet maximum will be Rs. 9, the same as at the original settlement. This maximum, it must be said, had been adopted for the adjoining villages of the Tumkur Taluk at Revision Settlement.

Group II.—One hundered and twenty-eight villages, (originally 182), being the remainder of the central and southern villages, possessing the advantages of Group I as regards roads and markets, though in a less degree. The dry maximum of Rs. 2 is proposed to be raised to Rs. 2-6-0. The old wet maximum of Rs. 9 will serve the purposes of revision settlement for this group also.

Group III.—Seventy-three (originally 87) villages to the east and the west of Group II, with advantages inferior to those of Groups I and II. The old dry maximum for these villages is Rs. 1-12-0, and this is proposed to be raised to Rs. 2. The old wet maximum of Rs. 8-8-0 will be retained.

Group IV.—Thirty-five villages situated in the north western spur adjoining the Sira Taluk. The dry maximum here is proposed to be raised from Rs. 1-8-0 to Rs. 1-10-0. This increase is in agreement with that effected at revision settlement in the case of the adjoining villages of the Sira Taluk. The old wet maximum of Rs. 8-8-0 is retained for this group also.

Garden maximum.—The old maximum rate for tank gardens in the taluk is Rs. 16 throughout. I propose to reduce it to Rs. 12, but even this reduced maximum will have been reached only in the case of a few gardens which are really flourishing well, and it corresponds moreover, to that proposed and sanctioned for the Tumkur Taluk recently resettled. The assessment of well-gardens will be revised under the lenient rules of the 24th of January 1902.

Revenue (Land Survey), dated 8th August 1913.

23. *Revised garden assessment.*—There were found at re-classification 4,579 acres of garden land against 4,055 acres of the original settlement. These I propose to classify and assess as below:—

Description	As per Original Settlement			As per Revision Settlement			Increase or decrease
	Acres	Assessment	Average per acre	Acres	Assessment	Average per acre	
			Rs. a. p.			Rs. a. p.	
I. Tank gardens	Separate	figures not	available.	3,306	19,776	6 2 8	
II. Gardens receiving indirect benefit from tanks, streams, etc	..	Do	..	760	2,415	3 2 10	
III. Gardens under self dependent wells.	...	Do	...	216	540	2 8 0	
IV Old dry cocoanut gardens ...	...	Do	...	6	21	2 10 0	
V. Gardens as in III, but water-supply failed.	...	Do	..	145	226	1 8 11	
VI. New gardens under wells sunk since original settlement, and new dry cocoanut gardens.	...	Do	...	211	422	1 11 8	
Total ...	4,055	25,670	6 5 3	4,579	23,400	5 1 9	

As separate figures and averages for tank and well gardens for the original settlement are not to be had, no comparison can be instituted as between details. The table given above, so far as it goes, is perfectly clear as to the principles now adopted in the case of gardens. The average for all kinds of garden will, under these proposals, come to Rs. 5-1-9 as against Rs. 6-5-3 of the original settlement Tank supplied gardens will bear a reasonable average rate of Rs. 6-2-8 and gardens dependant partially on the indirect influence of tanks, streams and such like have been assessed, on the average, at Rs. 3-2-10 per acre, while scrupulous care has, under the rules of 1902, been taken in the treatment of lands under self-dependant wells and of new gardens, that is, of gardens formed subsequent to the original settlement. With such rates as these we may expect to hear of progress in the future in garden cultivation. It will be noticed that though there is an increase of 524 acres in this description of cultivation, a net loss results to Government, of Rs. 2,270 under these proposals.

24. *General results of revision.*—The following table shows the results of my proposals under the recognised descriptions of cultivation, for all occupied Government lands.

Description	As per collections of 1908-09 in accordance with Original Settlement rates			As per Revision Settlement			Increase or decrease per acre
	Acres	Assessment	Average per acre	Acres	Assessment	Average per acre	
			Rs. a. p.			Rs. a. p.	Rs. a. p.
Dry	81,115	50,789	0 10 0	76,373	55,845	0 11 8	+0 1 8
Wet	5,157	16,683	3 4 5	7,196	24,694	3 6 11	+0 2 6
Garden	4,055	25,670	6 5 3	4,579	23,400	5 1 9	—1 3 6
Miscellaneous	...	6,504	.....	.....	.....	.....	.....
Total ...	90,327	99,646	1 1 8	88,148	1,03,939	1 2 10	+0 1 2 per acre or Rs. 4,088.

The net results of settlement on the lines proposed will be an average increase of one anna two pies per occupied acre. It will be noticed that the enhancements in the case of dry and wet lands are in themselves of a modest character, and the loss to the revenues in garden land is Rs. 1-3-6 per acre.

All these particulars and more, are exhibited in a more interesting form in the table given in the following para:—

25. The distribution of the increase over the several descriptions of occupied land in the four groups is shown below:—

Group	Description of lands	Old as per collections for the year 1908-09			New			Difference between columns 4 and 7	Increase or decrease per acre
		Acres	Assessment	Average	Acres	Assessment	Average		
				Rs. a. p.			Rs. a. p.		Rs. a. p.

	Total ...	90,327	99,846	1 1 8	88,148	103,939	1 2 10	+4,093	+0 1 2

Taking the various descriptions of land in detail, the average rate for dry land shows an increase of Re. 0-1-8 per acre obtained by an increase of Re. 0-1-11 in the first two groups, where the soil is on the whole, of a higher standard than that prevailing in any of the other groups, of 0-1-3 in group III, and of 0-0-10 in group IV, where the soil is of the poorest in the taluk. The incidence of these moderate increases in the dry rates cannot, in reason, give rise to complaint. The average wet rate shows an increase of Re. 0-2-6, or only 4·8 per cent on the average rate of the original settlement; this results from the increase of Re. 0-1-0 in group I, of 0-2-8 in group II, of 0-1-1 in group III and of 0-1-5 in group IV. These enhancements are to be ascribed not to any increase in the wet maxima, for, that has been avoided, but to the re-classification of water-supply as it exists at the present day, due account having been taken of the qualifications of the tanks newly constructed, of improvements carried out on several old tanks and of the deterioration that has set in a number of them. The increase per acre is largest in the 2nd group, for the simple reason that all the highest grades of irrigation in the taluk are centred there. The net result in the case of the wet lands in the tract must be said to be one of a comparatively small increase over the old average; for it must be borne in mind that Government have spent something near 5½ lakhs of rupees on major irrigation works alone, during the past 25 years.

The average garden rate for the whole tract shows a substantial decrease of Rs. 1-3-6 per acre or 19 per cent.

Revenue (Land Survey), dated 8th August 1913.

The miscellaneous item of land revenue, *viz.*, Rs. 6,504, is shown separately under old collections in the statement; it represents the water rate levied on dry lands converted into wet chiefly under the new tank at Mavattur:—

26. The effect of the proposed settlement showing the percentages of increase or decrease on the several groups, will be seen from the following table.

Group	Number of villages	By former survey		By revision survey				Total		Difference between columns 4 and 6	Percentage of increase or decrease on occupied land
		Government occupied land		Government occupied land		Unoccupied Government assessed waste					
		Acres	Assessment including miscellaneous	Acres	Assessment	Acres	Assessment	Acres	Assessment		
			Rs.		Rs.		Rs.		Rs.		
I	91	24,197	24,387	23,677	26,160	5,132	2,968	28,709	28,151	+1,763	+7
II	128	37,761	48,361	37,091	50,914	9,108	5,719	46,202	67,131	+2 553	+5
III	79	20,627	17,997	20,170	18,230	10,162	4,710	30 332	23,271	+2 33	+1
IV	35	7,742	9,101	7,307	8,615	2.586	911	9,893	9.620	—456	—5
Total ...	330	90,327	99,846	88,148	1.03,939	26.988	14,308	1.15,136	1,18,173	+3,093	+4

The net increase for the whole of the taluk, of Rs. 4,093 works out to 4 per cent on the collections of 1908-09 inclusive of miscellaneous revenue, and is as already pointed out, obtained chiefly by small increases in the dry maxima. Group I is responsible for an increase of Rs. 1,763 or 7 per cent, group II of Rs. 2,553 or 5 per cent, group III of Rs. 233 or 1 per cent; while there is an actual decrease of Rs. 456 or 5 per cent in group IV. The increase is not evenly distributed over the different groups as will be clear from the table, a circumstance that illustrates incidentally, that any readjustment of burdens that can claim to have been done with care, will not always produce results such as are obtained from a mere all-round enhancement or reduction by percentages. In group I, there has been an increase both under dry and wet assessment, resulting in an increase of Rs 2,512, while the loss under garden, Rs. 316, has not been heavy. In group II, the increase under the wet area is the highest, that under dry is moderate, and the loss under garden is insignificant; thus a net increase of 5 per cent is brought about in it. In group III, there has been an increase of Rs. 1,812 under dry and wet, but the loss under garden revenue, Rs. 1,298, is the heaviest; hence there is here only a small increase of 1 per cent. In group IV the loss under garden revenue exceeds the increase under both dry and wet; hence the decrease of 5 per cent.

27. Among other details repeated in the subjoined table for the sake of convenience of comparison, will be found the extent of the arable but unoccupied lands, and the assessment that they will bear under these proposals. I need do no more here than call attention to the fact that the general progress in the tract has resulted in 6,136 acres of land being excluded from the list of unoccupied fields, and that there are still nearly 27,000 acres of comparatively interior land available at the easy average rate of Re. 0-8-6.

Proceedings of the Government of His Highness the Maharaja of Mysore,

28. The following comparative table gathers into one comprehensive view particulars of all cultivable land in the taluk whether occupied or not, with the old assessments and those now proposed. The entries for the year 1908-09, the year in which revision survey operations were brought to a close, which will help in the understanding of the case, also find a place :—

29. The present proposals are expected to yield a total assessment of Rs. 1,03,939 against the actual collections of Rs. 99,846 in 1908-09, which includes the miscellaneous item of Rs. 6,504 representing 'Neersardi' or water rate on dry lands; the net increase therefore, is only Rs. 4,093 or 4 per cent. The adequacy of such an increase may well be open to question, in the case of a tract with a flourishing population and agricultural resources, greatly improved and extended irrigation works, good facilities for trade, and above all, with natural advantages of a fairly high order. But the fact has to be steadily kept in mind that our settlement is one of a fixed character, that is to say, the assessments fixed are to be levied in full in good seasons as well as when the monsoons prove unfavourable. I feel certain that in good years the raiyat would not feel pinched if something near double the rates proposed were demanded. Yet on the other hand, it is likely he would feel disheartened in a year of scanty rainfall if he had to pay rates pitched considerably in advance of those now current. On balancing these facts, I am inclined to think that attempting any higher than the limits I have proposed, would involve risk, which it is easy to avoid. Moreover, the proposed rates for all classes of land are in consonance with the rates in force in the recently revised taluks of Tumkur and Sira.

30. There are only nine villages, as noted in the margin, which have exceeded the villagewar limit of 66 per cent; but in none of them is such excess due to enhancement of rates. The increase in the case of the first six villages is due to extended wet or garden cultivation with the help of a new supply of Government water, while in the case of the three last-named villages, the increase is due to extended dry cultivation. These cases call for no further explanation. Any increase beyond the allowed percentage on individual holdings, will be duly enquired into and adjusted if necessary, when the settlement papers are ready.

Number in Appendix B	Name of village
5	Baleveernahalli.
105	Navalkunke.
158	Bhaktarhalli.
190	Majrehosahalli.
218	Mavattur.
255	Ghattitimanhalli.
260	Mannurtimanhalli.
262	Tirumalapalya.
279	Yeramuddanhalli.

31. The Local Fund and Irrigation Cesses will be separate levies as have been provided by law. Being proportionate amounts, no calculation of results is necessary.

32. Twenty coloured copies of the map of the taluk on the scale of 2 miles to an inch are submitted in addition to Appendices A and B.

33. In conclusion, I have to add that this report whould have been submitted by Mr. K. Ramaswamy Iyengar, M.A., my predecessor in office, before he retired from service, had he been able to collect the statistical information on which the report is based. The tract having been distributed over several taluks, the information had to be obtained from the Amildars thereof, and the unusually long delay on their part in the submission of the statistics prevented Mr. Ramaswamy Iyengar from completing the task he had undertaken. He had, however, left some notes, broadly indicating the lines on which the proposals were to be based. I have utilised these notes largely in drawing up my report. I am prepared to say that my own experience, gained during the reclassification of the tract, is in perfect consonance with Mr. Ramaswamy Iyengar's views, which have helped me a good deal.

APPENDIX A.

Revenue statement for 330 villages representing the late Koratagere Taluk.

ENCLOSURE 2.

Letter No. 190, dated 15th October 1912, from the Survey Superintendent in Mysore, to the Revenue Commissioner in Mysore.

I have the honor to forward herewith for favour of your opinion an advance copy of the printed report with an illustration map on the revision of assessment of the late Koratagere Taluk of the Tumkur District as it stood at the original settlement, drawn up by Mr. D. K. Darashah, Deputy Superintendent, Mysore Revenue Survey, together with a copy of my letter No. 191, dated 15th instant, addressed to the Deputy Commissioner of the Tumkur District on the subject. His opinion, when received, will be forwarded to you.

ENCLOSURE 3.

Letter No. 191, dated Bangalore, 15th October 1912, from the Superintendent, Mysore Revenue Survey, to the Deputy Commissioner, Tumkur District.

I have the honor to forward for an expression of your opinion and obliging return at your earliest convenience, a report with map and appendices drawn up by Mr. D. K. Darashah, Deputy Superintendent, Revenue Survey, for the revision of assessment of the 330 villages, which formed the late Koratagere Taluk of your district as it stood at the original settlement. I need scarcely say that the Deputy Superintendent and myself fully discussed the general scope and effect of the proposed settlement before he prepared his report and I am fully satisfied that the revision is on sound lines and the rates proposed have my full concurrence. The settlement now proposed provides for an increased assessment on occupied lands of only 4 per cent. As the report gives a full and detailed exposition of the proposals, it is unnecessary for me to go over the same ground again.

I shall feel obliged by your favouring me with your opinion as early as possible.

Accompaniment II.

Letter No. 79, dated Bangalore, 13th December 1912, from the Superintendent, Revenue Survey in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

In forwarding herewith copy of letter No. 934, dated 25th November 1912, from the Deputy Commissioner of the Tumkur District, expressing his opinion on the proposals for the revision settlement of the late Koratagere Taluk, I have the honor to state as follows:—

2. The proposals have been well examined by the Deputy Commissioner with reference to the total increase of revenue expected from the revised settlement and considers it to be moderate, and I am glad that his observations have given me scope for further explaining the proposals, which have been submitted to Government.

3. The Deputy Commissioner, while agreeing that increase provided for by the proposed revision is moderate in itself, thinks that, whereas the wet and garden lands are capable of being taxed more than what is proposed, the dry lands need not contribute to the increase to the extent proposed. In other words, the Deputy Commissioner proposes a decrease in the dry rates and an increase of the wet and garden rates. He suggests that it would be a better adjustment to enhance the old dry rate to only 10 per cent instead of 16¾ per cent as under the proposals, to advance the wet rate average from 4·8 to 6 per cent and to retain the old garden average, or at least, to reduce it no further than by 10 per cent.

4. I have myself given the matter much earnest consideration but regret my inability to concur with the Deputy Commissioner in thinking that the dry rates have been raised beyond suitable limits. The increase in the several groups has been adjusted in accordance with the soil classes as determined at the original survey and as against the increase of 11 per cent in the IV group, higher percentages of increase are found in the other groups. It will be very clearly seen from the details given in the report that the rates have followed the classes of soil comprised in each group. Taken as a whole the soil of Koratagere is homogeneous with that of the adjoining Tumkur Taluk, for which an average increase of 3 annas 4 pies, exactly double of what is now proposed for Koratagere, was considered moderate and sanctioned by Government. The ryots of Tumkur have never to my knowledge complained of heavy dry rates, showing that the measure taken was only fair. The increase in Tumkur works out to so much as 31¼ per cent, whereas that proposed for Koratagere is just about half of it, 16¾ per cent.

5. Dry cultivation, though considered less remunerative in these parts of the country than the other two kinds, is more easy, less costly and less risky. It cannot be stated generally that it is only the poorer classes of ryots that take to dry cultivation, but as a matter

Revenue (Land Survey), dated 8th August 1913.

of fact, we find that ryots generally including owners of wet and garden lands hold dry lands also. Every ryot in the maidan country, be he rich or poor, considers it essential to be possessed of some dry land. The revenue from dry lands does not entirely come out of the purse of the poorer ryots but is paid by the rich and the poor as well as by the middle class.

6. As observed in the report, the very great advance made by prices of agricultural produce within the past generation, is a matter beyond doubt. The price of ragi, the chief dry crop in these parts, is well known to have moved beyond 100 per cent. All other dry crops have gone up to between 40 and 50 per cent, at the most cautious estimate. Against this large increase in prices, the small increase proposed in the dry average, must, certainly, be taken to be moderate and justifiable and as providing an ample margin for increased cost of cultivation, etc. In taluks less favourably situated than the late Koratagere, there have been larger percentages of increase on the dry lands and from experience it is found that these rates have been paid with conspicuous ease. Nowhere in the taluks brought under revision, have the ryots complained of the increase in the dry rates of assessment and this is due to the fact that a broad margin of profit has always been left to them.

7. I suspect that it is not the degree of increase effected to the dry rate in itself that strikes the Deputy Commissioner, as inequitable, it is rather the comparison with an apparently inadequate enhancement proposed for the wet rate that leads him to criticise the new dry rate. I may be wrong in my surmise, but I only venture to say what occurs to me as a possible explanation for his questioning a rate that still appears to me to be a very modest one.

8. Regarding the wet rates, I would invite attention to the fact that wet lands mostly depend upon tanks and seasonable rainfall. The occasional occurrence of bad years of unseasonable rainfall and the generally inefficient condition of our minor tanks render wet cultivation less remunerative than it ought to be. At the same time, it requires more capital and labour. With an increase in the cost of cultivation and want of ample facilities for irrigation, the cultivator of wet lands is placed at a disadvantage. His profits depend mainly upon timely rains and the filling up of the tanks, an uncertain circumstance which cannot be foreseen. He may earn good profits at times but he is also subject to corresponding loss during unfavourable seasons. In years of indifferent rainfall, dry land may yield something, little though it be, say, the few bundles of grass which would go to a greater or less extent, to pay the assessment, whereas unfavourably situated rice land would yield practically nothing or even inflict an actual loss to the amount of expenditure incurred in cultivating the field in expectation of good rains to come. Then again in generality of cases, profits of wet cultivation will have to be shared between the landlord and tenant. In the matter of assessing wet lands at a settlement which is to be in force for a long term of 30 years it is better to err on the side of leniency than to impose a rate which might at times become burdensome and thus affect the resources of the ryots.

9. It is urged that a larger enhancement than is proposed would be justified by reason of the larger expenditure by Government on irrigation works. I must, however, point out firstly that expenditure on the upkeep and restoration of tanks is a natural duty of Government that levies wet rates, on the implied condition that the receptacles of water will be maintained in good order. Secondly, the major portion of the expenditure was incurred on constructing new tanks, such as the one at Mavathur and the return for this should be looked for, when rice and garden cultivation under them comes into full swing, that is, when the area irrigated extends to the expected limits. More than a thousand acres under the Mavathur tank which have not yet been brought under irrigation and still classed as either dry or kharab, would bring in a commensurate return for the outlay, when arrangements for bringing all the lands under wet cultivation perfected. But we cannot be justified in saddling lands under other tanks with a heavy assessment, in order to make up as it were, the insufficiency of the return from Mavathur and other new tanks.

10. Above all the maximum wet rate proposed for Koratagere (Rs. 9) is the same as that adopted at the Revision of Tumkur Taluk. To raise it any higher must be on grounds not intelligible to the ryot. The old maximum of Rs. 10 in Tumkur had, of necessity, to be brought down to Rs. 9. In the discussion that followed my proposals, both the Deputy Commissioner and the Revenue Commissioner suggested that it should be reduced still further. With these facts before us, we shall be overstepping the line of safety if we raised the Koratagere maximum to beyond that of Tumkur.

11. In the matter of assessing garden lands, I have only to point out that the lines on which the Settlement Officer should proceed have been laid down by Government. Previous to the Rendition, the garden maximum was always very much higher than the wet maximum; but the propriety of this was questioned and it was decided by Government that the garden rates should be made to approximate wet rates more closely. As a consequence of

this change in the policy, comparatively higher rates of assessment on gardens are found in taluks settled before the Rendition, of which the Koratagere is one. The leniency towards gardens was further increased by the Government Order of the 24th January 1902 prescribing limitations on garden assessment at Revision Settlements.

12 Before quitting the subject of further increases in the wet and garden rates, I beg to remind Government of the fact that, at the original settlement of the taluk, the irrigation cess was merged in the survey valuation of wet and garden lands. At revisions, however, it has, by order of Government, to be a separate levy. I need hardly say that when the amount of the cess (roundly 3,000 rupees) is taken account of, the increase, will in itself, work out to something more than that suggested by the Deputy Commissioner as being permissible for wet and garden lands.

13. I have only to touch upon one other point raised by the Deputy Commissioner, and that is about the grouping of villages. It is already pointed out in the report that without substantial reasons, the original grouping should not be disturbed. Any change in the grouping will either unduly increase or decrease the assessment, and unless such increase or decrease is entirely justified by special reasons, the old grouping should be adhered to. In the Taluk under consideration, I do not see such changes as call for and justify a readjustment of grouping of villages. Moreover by actual estimates made, in the three villages mentioned by the Deputy Commissioner, I find that though there is not much to be gained by transferring these villages to the next higher group, yet, it will tend to further increase the percentage on dry rates.

14 In conclusion, I beg to add that I should not be misconstrued as being averse to modify my proposals. So far as I am able to judge, I think the rates proposed are fair and reasonable and will not press unduly upon the ryots, and with this assurance on my part, I submit the matter for the orders of Government.

15. The Revenue Commissioner in his letter No. 4815, dated 7th December 1912, states that, on the receipt of the Deputy Commissioner's opinion, his own opinion will be furnished to Government. I would, in this connection, beg to invite your kind attention to para 14 of the Government Proceedings No R. 4299-310—L S 3-06-2, dated 29th October 1906. I have, however, sent him copy of this letter together with a copy of the Deputy Commissioner's letter No. 934, dated 25th November 1912, for his information.

ENCLOSURE 1.

Letter No. 934, dated 25th November 1912, from C. S. Balasundaram Iyer, Esq., B.A., Offg. Deputy Commissioner, Tumkur District, to the Superintendent, Revenue Survey in Mysore.

I have the honor to reply as follows to your letter No. 191, dated the 15th October 1912, forwarding for my opinion the report of the Deputy Superintendent, Revenue Survey, on the Revision Settlement of 330 villages which formed the late Koratagere Taluk —

2. I concur in the statement that an increase of about 4,000 rupees according to the proposed settlement over the collection of Rs. 99,846 in 1908-09, is moderate in itself, but I fear sufficient stress is not laid in the report on the fact that the collection of 1908-09 was spread over 90,327 acres, while under the proposed settlement the amount of Rs 1,03,939 will be payable on 88,148 acres or over 2,000 acres less than in 1908-09. Area for area the proposed settlement works out an increase of about 6 per cent.

3. One feature of the proposals which I think deserves consideration is the fact that the increase of revenue is proposed to be obtained entirely from the dry lands. The present average rate of dry assessment is 10 annas per acre and the proposed rate is 11 annas, 8 pies, the increase being 16⅔ per cent. Taking the groups the increase is nearly 11 per cent in group IV "where the soil is of the poorest in the taluk" On the other hand the average wet rate is proposed to be raised by only 4·8 and the garden rate to be *lowered* by 19 per cent. It is a matter of common knowledge that a majority of persons engaged in dry cultivation are poorer than those who resort to wet and garden cultivation. The latter two kinds of cultivation require a larger capital than dry cultivation but the returns are also correspondingly larger. Then again the large expenditure by Government on irrigation works chiefly benefits wet and garden cultivation.

4. Taking these circumstances into consideration it seems to me that the large increase in the average rate of dry assessment is disproportionately high and will press hard upon the poorer section of the population. I regret I cannot agree in the dictum enunciated in para 25 of the report that "the incidence of these moderate increases in the dry rates cannot, in reason, give rise to complaint." On the other hand it seems to me that the wet rates will bear a slight additional enhancement so as to bring the average rate near Rs 3-8-0 per acre.

Revenue (Land Survey), dated 8th August 1913.

5. In regard to the garden rates I fail to see adequate justification for lowering the average rate by 19 per cent. Whatever reasons there might have been for an *ultra liberal* treatment of garden cultivation in the malnad particularly in view of the sparseness and continued diminution of the population, there is no need for special concessions in a tract like the late Koratagere Taluk, where population has more than doubled itself in thirty years. I do not think there would be much complaint if the old maximum were retained or at any rate if the proposed reduction is about 10 per cent instead of 19 per cent.

6. I would, therefore, suggest that the proposals may be revised so as to raise the average dry rate by not more than 10 per cent (instead of 16¾ per cent as at present proposed) to raise the wet rate to about 6 per cent (as against 4·8 per cent as proposed) and to lower the garden rate by about 10 per cent (as against 19 per cent as proposed).

7. Revision on these lines will, I am sure, secure to Government an enhanced revenue on the whole not less than that anticipated in the proposals put forward by the Deputy Superintendent and will, at the same time, distribute the extra burden more equally between the different classes of the people than is done by the proposals now under criticism.

8. In regard to other points I have very little to say, except that in regard to the grouping, the villages near the Koratagere-Baichapur road such as Rampur, Sompur, Holavanahalli, etc., (now in Group II) are better off in regard to communications and access to markets than Kolal and other villages in Group I. A slight readjustment of the grouping would perhaps be justifiable and desirable.

9. The enclosures of your letter are returned as desired.

Accompaniment III.

Letter No. 5588, Bangalore, dated 9th January 1913, from K. Dorasami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

Adverting to Survey Superintendent's letter No. 190, dated 15th October 1912, forwarding for my opinion an advance copy of the printed report on the revision of assessment of the late Koratagere Taluk and letter No. 378, dated 11th December 1912, from the Deputy Commissioner, Tumkur District, forwarding a copy of his letter to the Survey Superintendent furnishing his opinion on the subject, I have the honor to state as follows :—

1. The villages which comprised the late Koratagere Taluk are now distributed among the taluks of Tumkur, Sira, Nelamangala Goribidnur and Dodballapur and the present Sub-Taluk of Koratagere. Hence it is not possible to collect any statistical information relating to the economic condition of the tract in question from the published reports or returns received in this office, and the figures furnished in the Deputy Superintendent's report have therefore to be relied upon without verification.

2. The following facts relating to the tract in question are gathered from Mr. Darashah's report :—

(1) *Rainfall.*—The average rainfall for the tract is 25·03 inches. The tract occasionally suffers from deficiency of rainfall but not so frequently as the tracts lying to the north and west of it.

(2) *Communications.*—Two new roads have been opened since the last settlement, one of which connects the interior with the Thondebhavi Railway Station.

(3) *Markets, fairs and festivals.*—The weekly markets are of small importance. There is only one annual jatra held at Kyamenahalli where cattle are brought for sale.

(4) *Manufactures.*—There is nothing worth mentioning under this head here.

(5) *Irrigational resources.*—The only important addition is the Mavathur tank which at present irrigates 1,200 acres. The indirect benefit from the tank is great. The tanks in the tract are on the whole maintained in fair order.

(6) *Crops.*—Ragi is the staple crop covering 52 per cent of the total area under cultivation. The next in importance are gram and rice.

(7) *Prices.*—The price of ragi has risen by 100 per cent, of rice by 30 per cent.

(8) *Value of land.*—The market value of agricultural land may be said to be as high as in the adjoining taluks of Tumkur and Sira.

(9) *Population.*—The increase in population since the last settlement is 19 per cent.

(10) *Agricultural resources.*—There has been an increase in tiled and mud-roofed houses, though the number of the former (123) is insignificant, and there has been a decrease in thatched houses. Horned cattle show an increase of 32 per cent, carts of 231 per cent and ploughs of 31 per cent. The all-round increase in agricultural stock is an indication of progress in the material condition of the tract.

(11) *Area under cultivation.*—There is an increase of 36 per cent in the area under wet cultivation and a corresponding decrease in the area under dry cultivation, due to the construction of new irrigation works.

(12) *Revenue history.*—The average revenue collection of the period of 1902-09 shows an increase of 15 per cent over that of 1877-78.

All the above facts show that the economic condition of the tract has improved generally and that an increase in assessment ought, in fairness, to be expected.

3. *Grouping.*—The old grouping has been adhered to, and the following maxima have been fixed:—

	Dry		Wet	
	Original settlement	Re-settlement	Original settlement	Re-settlement
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Group ... I ...	2 2 0	2 8 0	9 0 0	9 0 0
II ...	2 0 0	2 6 0		
III ...	1 12 0	2 0 0	8 8 0	8 8 0
IV ...	1 8 0	1 10 0		

The maximum for garden has been reduced from Rs. 16 to Rs. 12.

4. *Average rates and results of revision.*—There is an increase of Re. 0-1-8 for dry and of Re. 0-2-6 for wet lands, while there is a decrease in the garden rates of Rs. 1-3-6 per acre. The net increase is one anna and two pies per acre, resulting in an increase of Rs. 4,093 or 4 per cent on the total revenue of the tract. The increase in average rates sanctioned for the adjoining taluk of Sira is Re. 0-1-4 per acre or 5 per cent in the total revenue and that sanctioned for Tumkur is Re. 0-1-5 per acre or 6 per cent in the total revenue. The average rate per acre sanctioned by Government is Rs. 1-5-2 for Tumkur, Re. 0-14-5 for Sira and that proposed for Koratagere is Rs. 1-2-10 per acre.

5. From these it will appear that the Deputy Superintendent's proposals are moderate and well considered. As regards the objection of the Deputy Commissioner, Tumkur District, regarding increase proposed for dry rates, it will be seen that it is only two pies more per acre than the increase sanctioned for Sira, *viz.*, Re. 0-1-6, and considerably less than the increase sanctioned for Tumkur, *viz.*, Re. 0-3-4. Koratagere is more favored in point of * rainfall than Sira and less so compared with Tumkur both as regards rainfall and means of communication and the increase of two pies per acre over that sanctioned for Sira Taluk appears very modest. As regards the increase in wet rates recommended by the Deputy Commissioner though the average rates proposed by the Deputy Superintendent of Survey are not as high as those sanctioned for † Tumkur and Sira the maximum rate, *viz.*, Rs. 9 is the same as that sanctioned for Tumkur. As regards garden lands, the rates proposed for Koratagere are nearly as high as those sanctioned for ‡ Tumkur and much higher than those for Sira and are not therefore capable of further enhancement.

* 25·00 inches as against 19·17 inches.

† Tumkur	Sira	Koratagere
4—3—1	3—13—1	3—6—11
‡ Tumkur	Sira	Koratagere
5—2—1	3—14—6	5—1—9

6. The report of the Deputy Superintendent, full and interesting as it is, would have been still more so, if some information had been furnished as to the letting values of different kinds of land and also the ease or difficulty with which the revenue was being collected during the period.

7. I think the Survey Department's rates are on the whole fair and may be adopted. The Deputy Commissioner's objection in regard to the increase of dry rates and his recommendation of an increase in wet and garden rates do not strike me as very sound.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Survey, dated 29th August 1913.

READ—

Letter No. 531, dated 13th July 1911, from the Revenue Commissioner in Mysore, submitting for orders a copy of letter No. 24, dated 7th July 1911, from the Deputy Commissioner, Chitaldrug District, reporting a case of encroachment by the British officials of the Bellary Collectorate upon Survey Nos. 23 to 25 and 29 to 33 of the Alur village of the Davangere Taluk due to their having fixed new boundary stones on the Mysore side of the stream which forms the natural boundary between the Alur village and the village of Kenchapur in the Bellary District.

2. Correspondence ending with Memo No. 3465, dated 11th June 1913, from the First Assistant Resident in Mysore, forwarding a copy of letter No. 1686, dated 7th June 1913, from the Secretary to the Government of Madras, Revenue Department, stating that where a road or a river forms the boundary, the Madras Government have no objection to the exclusion from British Territory of half the road and half the stream and that the Board of Revenue has been asked to issue instructions accordingly for the demarcation of the boundary after verification of the discrepancies pointed out by the Durbar.

No. R. 1992-3—L. S. 7-11-10, DATED BANGALORE, 29TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. The Revenue Commissioner is requested to submit a report to Government as soon as the British demarcation is rectified.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 9th August 1913.

READ—

Letter No. 2460, dated 19th May 1913, from the Director of Agriculture in Mysore, reporting on the working of the Implement depôt, sanctioned in Government Order No. R. 6055-66—Agri. 62-09-2, dated 8th March 1910, up to the end of March 1913 and recommending that the depot may be kept open for a further period of ten years.

No. R. 1261-73—Agri. 133-12-2, dated Bangalore, 9th August 1913.

Order thereon.—Government are glad to see from the report that the Implement depôt has been the means of extending the use of improved agricultural implements to a considerable extent. Implements of the value of over Rs. 18,000 consisting mostly of ploughs and spare parts of ploughs have been sold during the three years that the depôt has been open, and the stock at the end of March was of the value of Rs. 6,780.

The report does not state explicitly how the depôt has been stocked, but it is evident that most of the goods have been procured without direct payment and on commission sale. Government desire that in future accounts should be maintained in such a manner as to show the value of goods directly purchased and sold and the value of goods received and sold on commission sale.

It is noted that attention has been paid to adapt the implements to local conditions and requirements and attempts made to manufacture locally some parts which require frequent replacement.

2. Government would be glad if arrangements could be made at more than one centre for the local fitting up of ploughs and other implements for which there is most demand, the iron and steel parts being obtained wholesale from America.

3. Government are inclined to believe that the usefulness of the depôt can be greatly enhanced and the introduction of improved implements rapidly pushed, if, with the collaboration of the Revenue Department and the Agricultural Department, takavi loans are granted with as little delay as possible to raiyats who wish to purchase such implements. This is also a field of work in which District Committees, District Agricultural Associations and Co-operative Societies can most beneficially engage themselves in supplementing the efforts of the Department of Agriculture. Government will be glad if the Director of Agriculture will place himself in communication with the Agricultural Committee of the Economic Conference and draw up and submit to Government, at an early date, a scheme for making the Implement Depôt of the utmost practical utility to the raiyats.

4. With these observations Government are pleased to sanction the continuance of the Implement Depôt for a further period of ten years.

C. S. BALASUNDARAM IYER,
Secy. to Govt.,
Departments of Agriculture, Education and Industries and Commerce.

APPENDIX.

Amendments to the Mysore Famine Code, 1909.

I. Substitute the following for Section 54 of the Famine Code—

54. In the 2nd week of each month and along with Form 9 when submitted, a report should be submitted by the Deputy Commissioners to the Commissioner and to Government (General and Revenue Secretariat), containing such information as is available as to

(1) Private relief.
(2) Village and poor-house relief.
(3) General character of relief works.
(4) Steps taken to supplement insufficient programmes of relief works.
(5) Physical condition of the people.
(6) Food-stocks.
(7) Importation of grains.
(8) General condition and prospects of affected area.
(9) Rates and changes in rates of famine wages.
(10) Extent to which selection in admission to relief works is being carried out.
(11) Increase or decrease authorized in the standard wage.
(12) Cattle mortality due to scarcity of fodder and water.
(13) Emigration or immigration.
(14) Any other matters of importance.

Under "Physical condition of the people" as clear an explanation as possible should be given of any increase over the normal death-rate of the month or of the month previous, and the result of investigations of "Starvation" deaths should be stated.

II. Substitute the following for sub-clause (7) of Section 303.

"Report on the relief measures in the 2nd week of every month (Section 54)."

III. Substitute the following for Appendix VI and Forms A, B, C, D and E:—

APPENDIX VI.

(*See Chapter XXI.*)

Rules for famine reports required by the Government of India.

Appendix VI.
Rules for famine reports required by the Government of India.

1. *Notice of first indications in the ordinary weekly reports.*—The first indications of a probable failure of the harvest or scarcity in the State should be communicated in the weekly "season and crop" reports furnished to the Resident in Mysore. Whenever the state of

affairs becomes so strained that the opening of test or relief works appears likely to be necessary, the fact should be distinctly stated in the said reports, and when test works are opened, the number of persons attending them should be noted therein.

2. *Special preliminary reports.*—Whenever, owing to a deficiency or failure of the rainfall, agricultural prospects become serious and apprehensions of distress arise in the State, the Resident in Mysore should be furnished with a special report on the state of affairs. The report should be short and general and no special enquiries for its preparation are necessary. It should as far as information is readily available review the state of affairs under the following heads:—

(*a*) Recent harvests.
(*b*) Probable duration and intensity of distress.
(*c*) The classes most affected.
(*d*) Condition regarding food and fodder stocks, prices and water-supply.
(*e*) Precautionary steps taken and proposed.

This report should be furnished as soon as it is possible to form a general estimate of the position, and should not be delayed for detailed or exact statistical information, the object being to give the earliest information practicable as to the likelihood of relief measures being required. Any marked change in the situation for the better or worse should be immediately communicated to the Resident in Mysore.

3. *Weekly famine reports.*—When the test stage has been passed and relief measures have actually commenced, a weekly famine report should be furnished to the Resident in Mysore, distinct from the weekly "season and crop" reports, so as to reach his head-quarters by Wednesday in each week. It should state

(*a*) the aggregate number of persons in receipt of relief under the following heads, without details of age or sex, such number being the *daily average* for the period covered by the latest weekly relief return, but if this cannot conveniently be given, the number on the last day of the week:—

(1) Number of workers on test and relief works of all kinds excluding dependents;

(2) Number of persons in receipt of gratuitous relief of all kinds including the dependents of workers relieved on works;

(3) Total number of persons on relief.

(*b*) the price in seers per rupee, as it stood on the last day of the week under report, of the staple grain upon which the famine wage for the time being is calculated; when the price of the staple varies from place to place, an average will suffice, or the price of the principal staple;

(*c*) general information as to changes in the condition of the people and the state of affairs in the affected areas, *e. g.*

(1) Whether distress is acute or slight, increasing or decreasing, the classes mostly affected, and the cause of any marked rise or fall in the number of persons reported to be on relief;

(2) Whether the people are resorting freely to relief works, clinging to their homes or concentrating in towns; whether there is much wandering, any general appearance of emaciation among applicants for relief, any large influx of foreigners, etc.

(3) The physical condition of the people on relief, particularly of the women and children, and of the labouring and cultivating classes generally;

(4) The sufficiency of relief measures, and any special measures, such as the grant of advances, suspensions of land revenue, importation of fodder for cattle, measures to improve the water-supply, etc.;

(5) The state of the public health, and the prevalence of epidemics;

(6) The need for private charitable relief for clothing, medical comforts or other objects, and the extent to which it is being met.

(NOTE.—In Form 8 an example is given of a telegraphic famine report.)

4. *Weekly return of numbers on relief.*—Details of the relief figures reported in the weekly famine report under Rule 3 should be despatched in Form A appended, so as to reach the office of the Resident in Mysore not later than the Friday following the despatch of the report.

5. In the second week of each month and along with Form A (when sent) the Resident in Mysore should be furnished with a report containing such information as is available as to—

(1) private relief,
(2) village and poor-house relief,

(3) general character of relief works,
(4) steps taken to supplement insufficient programmes of relief works,
(5) physical condition of the people,
(6) food-stocks,
(7) importation of grain,
(8) general condition and prospects of affected area,
(9) rates and changes in rates of famine wages,
(10) extent to which selection in admissions to relief works is being carried out,
(11) increase or decrease authorised in the standard wage,
(12) cattle mortality due to scarcity of fodder and water,
(13) emigration or immigration and
(14) any other matters of importance which will not delay the despatch of the statement beyond the 15th of the following month.

Under "physical condition of the people" as clear an explanation as possible should be given of any increase over the normal death-rate of the month, or of the month previous, and the result of investigations of "starvation" deaths should be stated

6. (*a*) *Special reports.*—Immediate information should be furnished to the Resident in Mysore of any disturbance in the nature of a grain riot. The report should indicate, as far as possible, how far the disturbance was serious, what measures were adopted to put it down and how far loss of life and property resulted from it, and in serious cases it should furnish full details

(*b*) When there is reason to believe that subjects of the State are migrating into British Territory or into other States to any unusual or considerable extent owing to distress, the Resident in Mysore should be informed of the facts; and similar action should be taken when British subjects or subjects of other Native States are found to be migrating to this State.

7. *Final report.*—On the conclusion of a period of famine, a review of famine relief operations, prepared under Section 305 of this Code, should be furnished to the Resident in Mysore.

FORM A.

Famine statement for the week ending .....

Name of State	Area under famine relief							Tract under observation and test	
	Area affected in square miles	Estimated population in Col. 2	Number of persons employed on relief works	Number of persons on gratuitous and specific relief			Grand total on relief	Number of persons on test works	Number of persons in receipt of gratuitous relief
				Dependants of relief workers relieved on works	Relieved in villages kitchens, poor houses, etc.	Total			
1	2	3	4	5	6	7	8	9	10
Total									

(i) Special relief to weavers and artizans should be included in column 6.
(ii) In a foot note it should be stated whether the figures represent the daily average for the week or the numbers of the last day of the week under report.
(iii) Where figures are wanting or incomplete, the fact should be stated in a foot-note.
(iv) No taluk should be removed from columns 1 and 2 till all forms of State Famine relief have been finally closed in it.

IV. Substitute the following form for Form 9.

FORM 9.

(See Section 53.)

Famine statement for the week ending .....

Name of taluk	Area under famine relief							Tracts under observation and test	
	Area affected in square miles	Estimated population of area in column 2	Number of persons employed on relief works	Number of persons on gratuitous and special relief			Grand total on relief	Number of persons on test works	Number of persons in receipt of gratuitous relief
				Dependents of relief workers relieved on works	Relieved in villages, kitchens, poor houses, etc.	Total			
1	2	3	4	5	6	7	8	9	10
Total									

(i) For taluks in which no regular relief is being given, columns 2 to 8 should be left blank.
(ii) Special relief to weavers and artizans should be included in column 6.
(iii) In a foot-note it should be stated whether the figures represent the daily average for the week, or the numbers of the last day of the week under report.
(iv) Where figures are wanting or incomplete, the fact should be stated in a foot-note.
(v) No taluk should be removed from columns 1 and 2 till all forms of State Famine relief have been finally closed in it.

V. CANCEL FORMS 10, 11, 12 AND 13.

Revenue (Agriculture), dated 14th August 1913

Proceedings of the Government of His Highness the Maharaja of Mysore.

(Printed as an accompaniment.)

Letter No. 1854, dated the 11th August 1913, from the Revenue Commissioner in Mysore forwarding a copy of the statement* showing the losses in cattle of various kinds for the quarter ending 31st March 1913 together with a copy of his review* thereon.

NO. R. 1860-8—AGRI. 26-13-2, DATED BANGALORE, 25TH AUGUST 1913.

ORDER THEREON.—Recorded.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioners of Districts.

(ACCOMPANIMENT.)

The Revenue Commissioner's Review.

Recorded.

2. It is seen from the consolidated statement that during the quarter under review there was an appreciable decrease in the total cattle mortality in the State as compared with the corresponding quarter of the previous year. The decrease is particularly noticeable in the case of sheep and goats, the mortality among which for the quarter was 2,867 as against 4,985 of the corresponding quarter of the previous year. The mortality among horses due to accidents and other causes has gone up considerably being nearly three times what it was in the corresponding period of last year.

Ed.—K. N.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 25th August 1913.

READ—

Summary of discussion on Subjects Nos. 477, 478 and 536 of the Proceedings of the Representative Assembly of 1912, regarding the establishment of Agricultural Demonstration Farms at Shimoga and other places.

2. The following letter No. 2989, dated 27th June 1913, from the Director of Agriculture in Mysore, expressing his opinion in the matter :—

"With reference to your letter No. R. 8078—Agri. 139-12-4 of the 26th instant, I have the honour to state that I have in many communications to Government expressed my opinion that the establishment of demonstration farms as such would be unwise as the work of demonstration can be done much more effectively and at smaller cost to Government by utilizing the lands of private owners for the purpose. In my recent tour I found this latter procedure being followed almost universally in all the countries I visited. In this connection I would refer you to Mr. Bradford Knapp's remarks* (quoted on page 47 of the report on Agricultural Education submitted with my letter No. 2603 of the 26th May 1913). I may say that so-called model or demonstration farms are likely to prove of much less value here than in enlightened America.

I note, however, that the farms referred to in Subjects 477 and 536 would be experimental and not demonstrational in nature. I have already expressed my opinion on this matter and the only point I wish to emphasize is that such a farm should not be established in district headquarters unless such place is at the same time the most suitable centre for a large soil or rainfall tract. Shimoga does not meet this condition nor do for that matter Haribar and Davangere."

* The single model farm or country farm, located in one place has attracted a great deal of attention owing to the names of many prominent men who have been advocates of this system of disseminating knowledge. It is of undoubted value, but our experience leads us to believe that it accomplishes far less than the carrying on of from 25 to 150 farm demonstrations in co-operation with the farmers, taking the problems of the farm as we find them and working out the answer in the bale and crib. The doing of the work by the farmer instructed is a means of driving home the lesson in a much more emphatic manner than the mere occasional observation of a model farm, located at a distance from his home. The object is to convert acquired knowledge of the few into the actual practice of the many.

No. R. 1856-9—AGRI. 139-12-6, DATED BANGALORE, 25TH AUGUST 1913.

ORDER THEREON.—Government accept the opinion of the Director contained in the above letter, and direct that the Representative Assembly members concerned be informed accordingly.

READ—

The following summaries of discussion on, and the replies of Government to, Subjects Nos. 200, 482 and 484 of the Proceedings of the Representative Assembly of 1912, regarding the reduction of seigniorage on fuel removed for jaggery boiling from certain State Forests in the Shikarpur Taluk.

SUBJECT No. 200
Fuel to raiyats.
Messrs. Revana Siddaiya, Gurulingappa and Halappa Honnali Taluk.

Summary of discussion.—For want of fuel in several localities, cattle dung is being used at present for fuel. As this deprives the agricultural lands of valuable manure, steps may be taken for the supply of fuel to raiyats at cheap rates. In Karadibetta Forest fuel required for boiling jaggory is allowed to be taken at two annas a cart-load. The same concession may be allowed in other State Forests in the Shikarpur Taluk.

Reply of Government.—Seigniorage on fuel required for jaggory boiling will be reduced to two annas.

SUBJECT No. 482
Levy of reduced rates for fuel and grazing fees in the Gangavvanasara State Forest
Messrs. Revana Siddaiya, Gurulingappa and Halappa, Honnali Taluk.

Summary of discussion.—The small area of District Forest left for the use of the raiyats of Gondichatnahalli, Jog, Siddapur and Biderhalli villages in the Honnali Taluk scarcely contains anything which meets the domestic and agricultural needs of the villagers. Originally, with the permission of the Deputy Commissioner grazing fees at one anna per head of cattle, and green wood for fuel at 2 two annas per cart-load used to be levied within the State Forest. At present dead wood fit for fuel is allowed to be removed at four annas per cart-load and green wood is not allowed to be removed. As green wood is very necessary for boiling sugar cane juice, etc., it is prayed that green wood may be allowed to be removed at two annas per cart-load and that the grazing fees may be reduced to one anna per head of cattle in the State Forest.

Reply of Government.—The rates for grazing and fuel are already very low. Green fuel will be allowed in annual coupes at the rate applicable to dry fuel.

SUBJECT No. 484.
(*a*) Reduction of seigniorage on fuel in the Gangavvanasara and Chandrakal State Forests.
(*b*) Grant of licenses for fuel for jaggory boiling at concession rates.
Mr. Bhavani Rao, Shikarpur Taluk.

Summary of discussion.—(*a*) The rate of two annas per cart-load allowed in the Belandur and Karadibetta State Forests may be extended to Chandrakal and Gangavvanasara State Forests.

(*b*) The grant of licenses for fuel at concession rates for boiling sugar cane juice commences every year in January. As the raiyats will then be busy with harvesting their crops and with other engagements, the licenses may be granted whenever asked for.

Reply of Government.—Will be considered.

No. R. 1728-9—Ft. 188-12-4, DATED BANGALORE, 21ST AUGUST 1913.

ORDER THEREON.—The concession rate of two annas per cart-load of green fuel taken for jaggory boiling from the Belandur and Karadibetta State Forests, prescribed in Government Order No. R. 5828-9—Ft. 143-08-1, dated the 6th February 1909, is hereby extended to the Gangavvanasara State Forest also. Government consider it inexpedient to extend it to other State Forests.

2. The villages to which the concession should be extended will be determined by the Deputy Commissioner, Shimoga District.

3. The issue of licenses for green fuel should be restricted to sugar cane growers only and to ten cart-loads for each acre of land under sugar cane.

4. In conducting the fellings, the licensees should be bound to observe all departmental rules which should be widely made known among the villages.

Revenue (Forest), dated 21st August 1913.

5. Licenses may be granted any time between the 1st November and the 31st January and the licensees should be bound to remove the fuel before the end of the 31st January, as this restriction is necessary to guard against danger from fires.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Conservator of Forests in Mysore.

The Deputy Commissioner, Shimoga District, with the request that he will communicate the order to the members concerned.

(9) Letter No. C. 26, dated 14th August 1913, from the Deputy Commissioner, Kolar District.

No. R. 1750-60—Ft. 187-07-13, DATED BANGALORE, 22ND AUGUST 1913.

ORDER THEREON.—The question of the constitution of village forests and the vesting of a part of their management in village communities with a view to secure the co-operation of the raiyats in their protection and in an economical and well-regulated use of the forest growth therein, has long been engaging the attention of Government. In their Order No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, Government briefly reviewed the previous history of the subject and invited a consideration of it by the Deputy Commissioners and requested them to submit their opinions in the matter in consultation with the Sub-Divisional Officers, Amildars, Forest Officers, and representative raiyats in their districts. The Deputy Commissioners have submitted their opinions in the letters read above.

2. Government have perused these reports and find that the subject has not received that amount of consideration, on the part of some of the Deputy Commissioners, which its importance required and they consider that an interchange of opinions among the several officers of Government interested in the working of the scheme will tend to a more definite, practical and comprehensive consideration of the subject. Government accordingly direct that a Committee consisting of the Revenue Commissioner in Mysore as President, the Conservator of Forests in Mysore, the Deputy Commissioners of Districts and the Secretary to the Economic Conference, as members, be appointed to meet in Mysore during the ensuing Dasara to consider the subject in all its bearings and to submit to Government not later than the 1st December next a practical and workable scheme for introduction in a few selected localities in each district.

3. The Secretary to the Economic Conference will be requested also to place this subejct before the Agricultural Committee of the Economic Conference as early as possible and forward a copy of its recommendations on the subject to the Revenue Commissioner for consideration by the special Committee appointed in paragraph 2 above, when it meets during the Dasara.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

READ—

The following papers on the subject of forming Village Forests :—

(1) Letter No. 10592, dated the 31st March 1908, from the Revenue Commissioner in Mysore.

(2) Letter No. 9306, dated the 27th April 1908, from the Conservator of Forests in Mysore.

No. R. 951-60—Ft. 187-07-3, DATED BANGALORE, 13TH AUGUST 1910.

ORDER THEREON.—In order to encourage raiyats to depend upon their own resources for the supply of fuel and timber required by them for agricultural and other purposes and pay some attention to the preservation of forests, the subject of assigning them definite portions out of existing forests and other wooded areas as Village Forest in which they may make systematic efforts to promote the growth of trees and refrain from wasteful and wanton destruction, has been often urged before Government.

In the year 1895 the late Mr. L. Ricketts, who was then Inspector-General of Forests, expressed his opinion in the matter as follows :—

> "The agriculturists of maidan have not hitherto felt the want of separate Village Forests for themselves save those that live in the vicinity of forests and for whom necessary provision has already been made. Raiyats and traders, where no Village Forests exist for the former, get their supplies side by side from the District Forests which remain common to both. This measure has led to the gradual deterioration of such District Forests and it is under contemplation to stop the issue of licenses to traders in taluks where depots are established by the Forest Department for the sale of wood and bamboos. It would not, therefore, be inexpedient to form village forests, where possible, from portions of the existing District Forest and from unoccupied waste lands, and hand them over to the village communities for preservation and economical use of the same under certain conditions in the shape of a few simple and practical rules. A Village Forest thus formed will have to be assigned to village or group of villages which have hitherto been exercising their customary privileges in the District Forest prior to its division or conversion into Village Forest. In most cases, it may be necessary for purposes of management to include in one block the forest area of several contiguous villages. All fellings in a Village Forest for jaggory or arecanut boiling will have to be paid for and the fees collected should be formed into a Provident Fund and utilised for the improvement of the Village Forest. The revenue from minor forest produce in it may also be assigned for the same purpose. The Village Forest should be regarded as an indigenous institution for the agricultural prosperty of the State."

2. The opinions of Deputy Commissioners of Districts were also invited in connection with this proposal, but the scheme to constitute Village Forests did not take practical shape as it was considered at the passing of the Forest Regulation in 1900 that the time had not arrived when the people could be rendered independent of Government control in such matters and trusted to regulate the use of any forests to their best advantage without direct interference from Government. Provision was, however, made in the Forest Regulation of 1900 for the constitution of Village Forests, so that there may be no difficulty in forming such forests whenever it became practicable or necessary to do so.

3. Under the Forest Regulation all forests are divided into three classes, *viz.*, State Forests, Village Forests and District Forests; and as Village Forests have not been separately constituted, there are at present only two classes of forests, *viz.*, State and District Forests. The State Forests are entirely under the control of the Forest Department and managed according to strict principles of forest conservancy. The District Forests are under the control of the Deputy Commissioner

Revenue (Forest) dated 22nd August 1913.

and the rules issued by Government in Notification No. 245-1300, dated 2nd October 1901, for the management of District Forests are mostly intended to preserve the stock from wanton destruction and reckless removal by defining the raiyats' privileges and fixing the seigniorage to be paid for cutting reserved and classified trees. These rules do not provide for any systematic sylviculture and exploitation in such areas. The result is that the improvement and preservation of the stock in District Forests have been greatly neglected, and though it is stated that some efforts are made by the Forest Department towards the conservation of timber in such areas, it is nevertheless apprehended that unless some special measures are devised for securing more attention to the growth of timber in such tracts, the resources of the raiyats will be greatly diminished and their general prosperity also affected by neglect and misuse of the District Forests, on which they are now solely dependent.

4. According to the definition of District Forests in the Forest Regulation, lands assigned at the Survey Settlement as free grazing ground or for any other public or communal purposes are not included in it, but under the rules issued for the management of District Forests, such lands are also brought within the scope of these rules. The lands to which the rules apply, are (*a*) lands of which the Government has acquired the ownership or possession by purchase, lease or otherwise, (*b*) assessed but unoccupied land, (*c*) unassessed and unoccupied land, (*d*) lands assigned as free as grazing ground or for other communal purposes. The rules thus apply to all lands that are not reserved as State Forests and that are not in private holding. As it is difficult to devise any satisfactory method by which lands so widely scattered and presenting such great varieties could be efficiently protected, it has seemed to Government, that if such parts thereof as are not so valuable as to require to be conserved scientifically and treated as State Forest or reserved lands, could be made over to the people and if they could be induced to take some interest in their preservation, it would tend greatly to the improvement of the forest resources of the State. Conditions have greatly altered during the last ten years and Government have no doubt that there are several tracts in the State in which the people will be found capable of sufficient co-operation to be fit to be entrusted with the management of Village Forests. Where the area of forests still available after reservation of all important tracts is large as in the Malnad and the raiyats exercise numerous peculiar privileges in these wooded tracts, which are known as Kans, it may be even desirable to introduce such a scheme as an experiment.

5. The Conservator of Forests and the Revenue Commissioner who were consulted do not agree in their opinions. The Conservator proposes that all gomal lands and District Forests should be constituted into Village Forests and that all unreserved lands in any village or group of villages containing an area of 250 acres or more must be demarcated and managed under proper rules, a small fee being levied on every head of cattle in excess of a fixed number grazed in the tract and forest produce removed over and above a fixed quantity to meet the cost of management of planting and of rearing. The collection of the revenue and management of the forest is to be left to the Village Panchayat, who in all matters relating to exploitation and improvement of the stock will be guided by the advice of the Forest Range Officers. He proposes, that the experiment be tried for the present in Bangalore and Tumkur. The Revenue Commissioner, on the other hand, considers that it would be very difficult to lay down the general principles as to the lands which should be constituted into Village Forests, and to separate them from Amrut Mahal kavals, forest plantations and reserves with which they are intermixed and to fix the manner in which the rights and privileges which should be given to the villagers should be determined and the agency for the management of such forests decided upon. He, therefore, proposes that a committee should be appointed to consider the question in all its aspects, so that a suitable scheme may be drawn up, if necessary.

6. Government are of opinion that the subject is one in the solution of which local conditions are of great importance and that it may not be possible to devise one uniform scheme for the entire State. The Deputy Commissioners of Districts are requested to consider the subject with reference to the peculiar circumstances

of each district and furnish Government with their opinion on the following points:—

(1) What are the arrangements that have been made in their districts for the management of District Forests and what improvements can be effected in them?

(2) What is the present condition of District Forests and to what extent is it possible to devise some means whereby reproduction in these forests can be carried on systematically without employing any separate agency for the purpose?

(3) Whether there is any part of their districts in which the scheme of Village Forests may be tried and if so what classes of land they would purpose to include in these forests. What are the conditions under which the management is to be entrusted to the villagers and the manner in which the privileges to be exercised by them are to be defined and regulated; how should the governing body be constituted and how are the expenses of management and conservancy of the forest to be met?

In submitting their opinion Deputy Commissioners would do well to have the subject discussed in a conference to which the Sub-Division Officers, Amildars and Forest Officers and some representative raiyats may be invited. The forthcoming preliminary meeting of the Dasara Assembly may furnish a suitable occasion for such a conference.

Letter No. 855, dated 2nd February 1911, from K. Chandy, Esq., B. A., Deputy Commissioner, Chitaldrug District, to C. S. Balasundaram Iyer, Esq., B. A., Officiating Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, Bangalore.

With reference to Government Proceedings No. R. 951-60—Ft. 187-07-3, dated 3rd August 1910, calling for my opinion about the formation of village forests, etc., I have the honor to forward, in original, a memo by the Assistant Conservator of Forests and its enclosure which gives the available information on the querries contained in the Government Order.

2. As regards District Forests in this district, it has to be said that there are practically no areas fit to be called 'Forests.' Hence, in this district, the chances of 'Village Forests' taking shape are at present remote, as the villagers have not risen to the level of appreciating the benefit of raising woods themselves.

3. For this district, which is so bare of trees, it will be a great help if a special grant is made for investigating the kinds of trees that will grow in different areas and for planting up, by Government Agency, areas near villages (Gomal being appropriated for this purpose) with trees; either synchronously or after Government have been at work for some years, liberal rules on the lines of the Tope rules may be issued, which will induce the raiyats individually or in groups to plant up trees by themselves in their communal lands and even on the margin of their dry fields.

4. If the above suggestions meet with approval, I shall submit detailed proposals in consultation with the Conservator of Forests, which, if sanctioned, may make this district more wooded after some years and capable of working the Village Forests Scheme to advantage.

MEMO

ENCLOSURE.

Reference:—Government Proceedings No. R. 951-60—Ft. 187-07-3, dated the 13th August 1910, regarding formation of Village Forests.

Revenue (Forest), dated 22nd August 1913.

With reference to the above, begs to state as follows:—

A copy of the above order was forwarded to each of the Amildars and Assistant Commissioners with a request to discuss the subject in their respective Taluk Board meetings and submit a copy of their resolutions thereon. And the District Forest Officer was requested to draw up a scheme. Accordingly, he submitted a memo to the Deputy Commissioner which was read out and explained to the members in the District Board meeting held at Chitaldrug on the 30th September 1910. Thereupon, it was resolved that a copy thereof should be forwarded to each of the Amildars and Assistant Commissioners with a request to again discuss the subject in the next Taluk Board meeting in the light thereof and report the results together with their opinion. This was duly done and the reports of the undermentioned Amildars have been received in reply thereto.

1. Amildar, Molakalmuru.
2. ,, Challakere
3. ,, Chitaldrug.
4. ,, Jagalur.
5. ,, Davangere.

2. The Amildars of Challakere Molakalmuru and Hiriyur Taluks have reported that no change in the existing system is called for in their taluks; while the Amildar, Chitaldrug Taluk, has reported thus:—

(1) That Village Forests may be formed in villages where 100 acres are available including their gomal lands.

District Forest Officer's marginal remarks.

This is in accordance with the District Forest Officer's memo dated 18th September 1910, discussed in the District Board meeting and circulated among Amildars and Assistant Commissioners. On a further consideration he is of opinion that even larger areas or the whole of the forest lands included in a village or group of villages concerned, excluding the area of State Forests may be constituted into Village Forests.

(2) That the management thereof may, as suggested in the District Forest Officer's memo, be entrusted to the village panchayet.

3. The Amildar of the Jagalur Taluk has stated thus:—

(1) That the formation of Village Forests will be highly beneficial to the raiyats and that there are suitable tracts in some portions of the taluk for forming the same.

(2) That Village Forests may be formed for groups of villages within a radius of 2 to 4 miles.

The District Forest Officer is of opinion that instead of a portion of the district jungle, the whole of it may be included or else, there would be room for smuggling of produce from district jungles which would not unlikely tend to shirk their responsibility regarding Village Forests.

(3) That all gomal and kharab lands and a portion of district jungles of the said villages may be included therein.

This may be done.

(4) That the management of the Village Forests may be entrusted to a committee consisting of the patels and shanbhogs and two leading raiyats in each of the villages.

This may be done, subject to certain limitations to be imposed in the nature of the forests.

(5) That as a portion of the existing district jungles where the raiyats are at present enjoying certain rights and privileges is proposed to be included in the Village Forests, the raiyats may be allowed to continue to exercise the said rights and privileges in the Village Forests.

(6) That the expenses of management and conservancy of the said forests may be met from the following items.

The rate proposed by the District Forest Officer in his memo under notice will result in a larger realization.

(*a*) The hulbanni collected from the villagers for grazing their cattle.

This is not advisable, as there will be a lot of practical difficulties in working out this, since the produce is being sold talukwar and not villagewar.

(*b*) The sale proceeds of tangadi bark in the tract.

Do

(*c*) The rent, etc., on toddy trees standing on the lands.

Do

(*d*) The sale proceeds of minor forest produce available in such portions of the Village Forests as have been taken up from the district jungles.

Without the inclusion of toddy reserves, sufficient areas for village forests can be easily had; and so it is not necessary to take up the said lands.

(7) That, as the extent of gomal and kharab lands in some of the villages is very small, it would be advisable to take up some of the lands reserved by the Excise Department; and that the same if added on to the kharab and gomal lands will make a big Village Forest more advantageous to the raiyats.

4. The Deputy Amildar, Harihar, has stated as follows:

(1) That Village Forests may, as an experimental measure, be formed in the Malebennur hobli and that the same may be constituted from the kharab and gomal lands of the respective villages.

(2) That the management of the forests may be entrusted to the village panchayet consisting of the village officials and leading raiyats.

Revenue (Forest), dated 22nd August 1913.

It is not practicable to allot the sale proceeds of minor forest produce for reasons already stated.

(3) That the expenses of management and conservancy may be met from the hulbanni and sale proceeds of wood and minor forest produce and that the same may be placed at the disposal of the panchayet.

This will be done after making due provision for free grazing as stated in the District Forest Officer's memo under notice; and so there will be no hardship as apprehended.

(4) That as no license fee is levied at present for grazing their cattle, it would cause great hardship to the raiyats if the same is levied in future, and that the following rates of seigniorage on fuel and wood required for building purposes and agricultural implements may be levied.

Fuel	0—4—0 per cart-load.
Wood	1—0—0 ,
Classified trees for building purposes	5—0—0 per cart-load.

The existing rates of seigniorage on fuel and wood removed from unreserved lands may be enforced (*vide* list enclosed).

5. The Amildar, Davanagere Taluk, has reported as follows:—

(1) That as all kinds of trees that are used for fire wood and agricultural implements have been brought under the list of reserved trees, the district forests have not been of much use to the raiyats, and the marginally noted kinds of trees may therefore be removed from the list of classified trees and left free for the *bona fide* use of the raiyats.

1. Dindiga.
2. Tare.
3. Karijali.

A separate reference on the subject is pending and the Amildar's proposal may be considered in replying thereto.

This is unnecessary as there will be no District Forest where village forests are formed.

(2) That the District Forests are at present under the watch and ward of the village officials; and that better results will be achieved, if the management thereof is entrusted to a committee consisting of the patel, the shanbhog and 2 or 3 leading raiyats of the villages, concerned.

(3) That the District Forests are at present in a denuded condition, that fellings are being made every year, while no steps are taken to improve the stock, that no separate establishment can be employed for the latter purpose, that it should therefore be entrusted to the village panchayet.

This may be done in connection with the Village Forests when formed.

That the sale proceeds of all fuel, wood, etc., may be placed at the disposal of the said panchayet who will utilize the same for raising fresh trees well suited to the locality, that the Forest Department may, when required, render necessary assistance in this work.

The planted areas should be closed to all kinds of animals at least for ten years as in the case of coupes in State Forests.

And that it is necessary to close the planted areas to sheep and goats until the plants grow well.

It is not clear whether the right to all topes and tank beds belongs to Government and so it would not be advisable to include them. They may, however, be treated as enclosures. All other forest lands excepting State Forests may be included in the Village Forests. In other words the whole of the District Forests including gomal lands may be constituted into Village Forests.

The existing rates of seigniorage on fuel and wood removed from unreserved lands may be enforced in Village Forests also. *Vide* list enclosed and referred to above.

The rates existing for State Forests may be enforced for Village Forests also : *viz.*—

0—4—0 per head of cow or bullock
0—8—0 „ buffalo
0—1—6 „ sheep

For goats a rate of 0—3—0 per head may be levied.

(4) That the District Forests adjoining Hedne, Hunsekatte and other villages are suited for forming Village Forests and these may be formed by including the gomal and kharab lands, topes and tank beds.

(5) That the following rates of seigniorage may be levied on all fuel and wood for agricultural implements removed from Village Forests.

Fuel 0—4—0 per cart-load
Wood 1—0—0 „

(6) That grazing in the tracts may be allowed at the following rates of seigniorage.

For sheep and goats per annum per 50 heads 1-8-0.

That a pair of bullocks for each plough may be left free and that on all cattle in excess of that number, seigniorage may be levied at.—

0—2—0 per head (big animal)
0—1—0 „ (small animal.)

And young calves may be allowed free of seigniorage.

6. It will be seen from the above that the Taluk Boards of Jagalur, Chitaldrug and Davangere including Harihar Sub-Taluk are of opinion that the formation of village forests is good and may be given a trial, though they differ in certain details which are not of much consequence. The Amildars of Hosdurga and Holalkere have reported that the subject has not yet been properly discussed in their respective Taluk Board meetings and that the same will be discussed in the next meeting and the results reported. The Amildars of Hiriyur, Molakalmuru and Challakere have reported that no change in the existing system is called for in their taluks.

7. The undersigned is of opinion that the main point to be remembered in this connection is the co-operation of the village or villages concerned with regard to the conservancy and improvement of Village Forests which are to be attended to by the raiyats themselves with the aid of funds to be set apart therefor in the manner already set forth in the undersigned's memo dated 18th September 1910. And it is doubtful whether the said funds would be adequate at least for the present. The works referred to will, therefore, have to be carried out by them free of cost almost. It is needless to state that nobody will come forward to undertake the work willingly under such circumstances. The only way to make the raiyats realize their responsibility and carry out the required works would be to convert into Village forests all the District Forests including gomal lands of the village or villages concerned and not to allow any concessions outside thereof. In other words, where village forests are formed, there ought to be no other class of forests, except State forests. Unless this is done, the scheme is not likely to succeed, in as much as the raiyats are now enjoying all the privileges in District Forests without doing any thing in return. Besides, this will give room to the formation of Village Forests, sufficiently big, which cannot but reduce the cost of supervision to its minimum.

Revenue (Forest), dated 22nd August 1913.

8. As regards the three points referred to in the Government Proceedings quoted above, begs to state as follows:—

(1) None of the Amildars have stated anything about this point, excepting the Davangere Taluk Amildar, who suggests that the management of District Forests should be vested in the village panchayet for the improvement thereof. If Village Forests are formed, as suggested above, there will be no district jungle. Hence, there is no necessity for this, and where no Village Forests are formed, the existing rules for the management of district forests are quite ample in the opinion of the undersigned, if the same is given effect to properly, as they hold patels of respective villages responsible for the due protection of district jungles. And the Amildar's suggestion too, practically, supports this view, inasmuch as panchayets are made up of village officials mostly.

9. (2) The District Forests at present are almost devoid of a good growth of trees. Unless the villagers are prepared to contribute free labour or money, no improvement can be effected.

10. (3) (*a*) Yes. The scheme may be tried in the taluks of Jagalur, Hosdurga, Holalkere and Davangere including Harihar Sub-Taluk. Though the District Forests in these taluks are not likely to meet all the requirements of the villagers, if Village Forests are formed out of them, yet Village Forests have to be formed out of them alone, as no better jungles are available.

Gomal, assessed and unassessed waste and kharab lands, or in other words, all the lands included in the definition of District Forests may be included in Village Forests. If assessed waste lands are required for cultivation subsequent to the formation of Village Forests, they may be given out and treated as enclosures as in the case of occupied lands, etc., in State Forests.

(*b*) The conditions are that they should work out the produce in such a way that the forest allotted to them does not deteriorate and that, at the same time, they should look after its conservancy and improvement operations, as laid down by the Forest Department.

A Village Forest is a forest set apart exclusively for a village or group of villages to meet their requirements under grazing, fodder and thatching grass, wood for agricultural implements and wood for fuel and building purposes. These requirements may be fixed at so much per house at the time of the formation of Village Forests, and allowed to be removed every year, consistent with the resources of the forests, either free or on payment, according to circumstances, as in the case of constitution of State Forests.

(*c*) The management should be entrusted to the panchayet formed of village officials and leading raiyats of the village or group of villages concerned, subject to such instructions as may be given to them by the Forest Department from time to time. And the money required for expenses in connection with the conservancy and improvement of Village Forests may be met in the following way:—

(i) to levy fee on all cattle over and above 2 bullocks and 2 cows for each plough;

(ii) to levy seigniorage on all green wood felled and removed over and above the stipulated quantity.

The amount thus realized should be left at the disposal of the Village Panchayet for incurring the needful expenditure.

11. In conclusion, begs to state that the question of formation of Village Forests is a very complicated one and not susceptable of an easy solution, inasmuch as no Village Forests exist anywhere. The undersigned has therefore given only an out-line, so that further details may be elaborated according to the merits of each case.

Submitted to the Deputy Commissioner, Chitaldrug District.

Y. SITARAMAIYA,
District Forest Officer, Chitaldrug District.

Proceedings of the Government of His Highness the Maharaja of Mysore,

(3)

Letter No. 92, dated the 28th August 1911, from M. Shama Rao, Esq., M. A., Officiating Deputy Commissioner, Tumkur District, to C. S. Balasundaram Iyer, Esq., B.A., Officiating Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, Bangalore.

With reference to para 6 of Government Proceedings No. R. 951-60—Ft. 187-07-3, dated the 13th August 1910, calling for opinion of Deputy Commissioners on the subject of forming Village Forests in the districts, I have the honor to submit herewith copy of a '*note*' drawn up by the District Forest Officer of this District regarding the constitution and working of these forests. Opportunity was taken of the District Board meeting which assembled here last month when all the Amildars, Sub-Divisional Officers, the District Forest Officer and other representative raiyats and members were present and the subject was discussed in detail. Almost all the members present were unanimously in favour of the introduction of the Scheme. The District Forest Officer's *Note* deals with the subject in all its aspects and I generally concur with the views expressed therein. I beg to recommend, therefore, that the scheme propounded in the accompanying note may generally be approved, and any modifications that may be needed may be made later on after some experience is gained of its practical working. I may also state that it is advisable to try the experiment only in selected areas to start with.

ENCLOSURE.

DISTRICT FOREST OFFICER'S NOTE.

With reference to the enquiry made in Government Proceedings No. 951, dated 13th August 1910, regarding the constitution of village forests, I have the honour to express my views as below. The Government after discussing the various aspects of the question at length have finally reduced the information they require into the form of a few questions as detailed at the end of the above Proceedings and I therefore stick to replying these questions in order.

Question I. Present management of District Forests.—District forests are under the control of the Deputy Commissioner in the Revenue Department. The patels and people of the surrounding villages are the custodians of the forests. The Forest Department also exercises its own supervision and takes all revenue derived from them on timber, fuel, minor produce and sandal. The revenue from Hullubanni, village amaroy, malki on lands applied for cultivation and the tax on chunam and stone quarries all go to the Revenue Department. Wherever regular forest staff is not maintained, the Amildar of the Taluk performs the function of that department under the direction of the Deputy Commissioner in the Forest Department. The Forest Department also deals with cases relating to breach of rules under Section 35 of the Forest Regulation and it has also organized in greater portions a staff of license vending officers who issue permits on payment for collecting forest produce from these areas subject to rules sanctioned by Government.

It will thus be seen that the revenue derivable from these areas is divided between the Revenue and Forest Departments as per Government orders issued at different periods and both the departments exercise their own control though nominally the Revenue Department alone is said to have the management of these areas. Where toddy trees are found, the Excise Department also comes to share its management. But with all this, as the land problem of these tracts is vested in the Revenue Department, that department may be said to possess the supreme control.

Question II (*a*).—Though several departments exercise control and participate in the revenue, none of them makes any efforts to safeguard or improve the existing growth in them or to produce it where it is absent, except perhaps the Forest Department which tries to petrol the important district jungles adjoining State Forests where establishment is maintained and by the extensive sandal dibblings which it carries on in those tracts.

Revenue (Forest), dated 22nd August 1913.

But what the Forest Department does in this way is insignificant compared to the vast area of district jungles which are actually left to the enjoyment of the adjoining villagers who exercise various rights in them. The villagers are much divided and have no common opinion or interest at heart. As each man is responsible to Government, all vestiges of communal spirit has become extinct and with this has disappeared the old village panchayet body. In the absence of communal obligations or bindings, each seeks for individual gain and the attempt to secure it reacts on the natural resources of the country of which District Forests form the main and easily accessible item. Hence *unrestricted grazing, thoughtless lopping, ruinous pollarding* of valuable trees for goat fodder, irregular and *wasteful cutting* obnoxious firing to secure early pasturage and numerous other acts such as timber stealing, injurious girdling, etc., are all markedly noticed in these areas. These ill treatments combined with the ever extending cultivation are gradually denuding the country of forest growth. Dr. Buchanan in his travels in 1801 has described certain forests as then existing but those forests are not found now. In a note written by the late Mr. A. Krishnaswami Iyengar, called the *50 years of Forest Administration in Mysore*, some allusion is made to the early distribution of forests and it is concluded they do not exist at present. The indirect effect of forest destruction is seen in the change of climate, irregularity of seasons, *dearth of timber, fuel and fodder* and the scarcity of manural resources. The agricultural and economic condition of the country is for this reason slowly drifting to the unfavourable.

Deputy Commissioner's remarks.

Extension of cultivation and of human habitations add also to the disappearance of forest tracts.

Before going to the next question and with a view to ensure the weighty consideration which forest protection demands, I beg permission to make a little diversion from the subject at hand and give a few notes of scientific importance regarding the economic distribution of the surface of the country.

The agricultural prosperity of a country depends upon its climate, rainfall and underground springs. Proximity to seas and oceans influences the climate vastly; but in inland tracts climate and rainfall are largely influenced by the *forests*, the *cultivation* and water *evaporating surfaces* such as reservoirs and irrigated lands. The effects which these severally exercise are as follows:—

(*a*) *Forests.*—1. Forests pump out the underground water by transpiration and air saturated with vapour of water is cooler. Therefore the temperature over forests is observed to be cooler by about 10° F. as compared with that over bare land.

(2) Cool air helps to condense the passing clouds which again fall as rain. Therefore apart from the influence of monsoon currents (which chiefly influence rainfall) more rainfalls in forest tracts than in the forestless dry regions. Scientific observations have proved that rain in forest tracts exceeds the fall in the non-forest areas by 10 to 20 per cent.

(3) Forest soils absorb rain water more rapidly and the humus formed on the surface acts as sponge to retain it. Thus every facility is afforded to promote free percolation of water to underground layers which help to feed the springs regularly. Therefore, during ordinary showers no water flows out from forest lands while from bare lands, rain water may be seen rushing out in streams. These results are proportionate to the extent and density of growth, the length of time during which the foliage persists and the quantity and depth of humus formed on the ground. Humus is also hygroscopic to some extent. As an illustration of this I beg to state that streams rising in evergreen forests of Coorg flow all round the year while those rising in deciduous forests dry up in summer.

(4) Of course the other advantages of forests in supplying wood, fuel, fodder, manure and other minor produce are well known as also its value as a preventive of erosion or washing of surface.

(*b*) *Cultivation*—Ploughed lands absorb rain water more readily than unploughed lands. In ordinary falls of rain, no water flows out from ploughed fields.

Water absorbed by the lands feeds the springs. The absorption of water is proportionate to the extent ploughed, depth stirred, and the gradient and nature of soil. For example, in Tiptur and Chiknayakanhalli Taluks where cocoanut plantations abound, tanks in whose catchment the gardens are situated do not easily fill as cocoanut plantations are always kept in tilth. Therefore, the rainfall and other conditions being the same springs are high and well fed in flat areas under extensive and deep cultivation.

(*c*) *Reservoirs and wet lands.*—Tanks and reservoirs when full and wet lands when irrigated evaporate much water and play the same role as forest in modifying the climate. This result is proportionate to the extent of evaporating surface and the length of time during which this action is kept up. When reservoirs and wet lands become dry, their action on the atmosphere is that of the bare dry land.

Thus it will be seen that *forests, ploughed lands, reservoirs* and wet *lands* when irrigated all tend to modify the climate, increase the rainfall and feed the underground springs whereas *untilled* dry land bare of trees has the opposite effect. It renders the climate hot and dry by radiating heat, reduces the rainfall, allows rain water to flow away rapidly and swells the streams. It is, therefore, unable to feed the underground springs as very little water is absorbed. The results under this head are proportionate to the extent of such lands, their bareness and their nature, whether hard or soft, sandy or rocky.

In the light of the above observations, it is very necessary to have all cultivation in the midst of forests in order to contribute to successful agriculture and to maintain a congenial climate. An ideal discontribution of surface of an inland country, like ours, would be to apportion its surface, as far as possible, between *well covered forests, cultivation* and areas of *water spread and irrigation*, giving major portion to the first of these and minimising the untilled bare dry land as far as possible. We must, therefore, aim at making as near an approach to this ideal of distribution as possible in proposing any scheme for the protection of jungles as Village Forests. Kankanhalli Taluk, eastern part of Heggaddevankote Taluk and parts of Magadi and Closepet Taluks make some approach to this ideal and it is people's experience that crops fare better in those taluks than in others and this difference is more marked in seasons of scarcity. Even in the recent scarcity of 1908, these taluks had good crops while other taluks in which this condition is ill-balanced had a total failure of crops. Such things require observations and keen study at the hands of Government as they help to combat difficulties which often arise.

II (*b*) Going to the other part of question II the only solution to bring about re-production, is to remove the causes which prevent its appearance, *i. e.*, to protect them well against injuries. If protection is afforded, reproduction will take place as the natural result of that measure. Dibblings of seeds of desirable species may be attempted to help nature, where necessary, after protection is ensured. Thorough conservancy is all that is necessary to create forests but the raiyats' privileges and customs obtaining here thwart all attempts at such a protection. The raiyats are less bound by legal obligations to safeguard forests and there can be no check on their actions. The scientific importance of forest growth cannot reach their heads at this stage. Even the few restrictions that exist are only nominal. There is no body responsible to prevent any violations except in rare instances. A close inspection of some District Forests will convince any one of the truth of this statement. The following are the acts detrimental to the appearance and growth of forests which it is necessary to prevent or regulate.

(1) Over grazing,

(2) Felling, lopping and pallarding,

(3) Firing.

In an agricultural country it is impossible to stop grazing and felling. All that could be done in this away is to regulate these rights according to extent and necessity consistent with protection.

Revenue (Forest), dated 22nd August 1913.

(1) Though grazing is harmful it is known that cattle do less damage than sheep and goats, and of the latter two, goats do the most damage. They are therefore to be excluded from all areas under protection. Cattle and sheep must be limited by number. Where only small grazing areas are available, it may be allotted entirely for free grazing on condition of raising trees thereon by artificial means which may be made easy as will be explained further on.

(2) Felling should be confined to thorns and dead wood and to regulated coppice plots.

(3) Setting fire to forests and waste lands which is the most damaging of all acts must be stopped by strictly enforced rule, that in case of fires every acre burnt will be levied a damage huttubanni of 4 annas to one rupee according to value of forest damaged and the right holders must be made to pay this damage conjointly unless they make any particular person responsible for it.

There is no necessity to set fire to forest areas for the sake of fresh grass: on the other hand, there is much danger in doing so in case early rains and south west monsoons disappoint. In the event of such a failure, the livestock of the country will badly suffer from a fodder famine as new grass could not appear without rain. My experience is that wherever old grass is standing, it is set fire to before the early rains commence. This year I saw the whole of the vast district jungles adjoining Manchaldore and Bukkapatna about 40 or 50 square miles in the Sira and Gubbi Taluks wilfully burnt, causing extensive damage to forest growth. Fires were seen being started every day at noon.

Protection as above detailed combined with some sowings where necessary will create forests in course of time even where they do not exist at present.

Question III. The question of selection, constitution and management of Village Forests presents numerous difficulties inasmuch as the requirements of the village communities have to be met with.

Constitution of forest.—The class of land to be taken up need present no difficulties when it is necessary to cover up all the bare tracts with vegetation as far as possible. All lands at the disposal of the Government, *i. e.*, unassessed waste, gomal and even assessed waste when covered with shrubby growth capable of improvement by protection may be taken up for constituting Village Forests. As all such lands are encumbered with the rights of the villagers, the requirements of the people are to be first met with. The requirements of the people are:—

1. Grazing for cattle, sheep and goats.

2. Fuel for home use and for industrial purposes such as iron smelting, glass making, sugar cane crushing, silk reeling, pot making, arecanut boiling, etc.

3. Wood for agriculture implements.

These are daily necessities and cannot be denied to the people, but they can be limited and regulated.

Since goats feed on trees and shrubs, goat browsing is inconsistent with forest growing. Some provision has, therefore, to be made in each village where goats are reared for their sake. Free grazing being an institution as old as the country itself, this privilege cannot be denied now. For this reason, in each village a plot of land generally treeless, has to be set apart for free grazing and grazing of goats. The area of such land may not exceed 150 acres generally and not below 20 acres, but where the constitution of a Village Forest is not possible for want of the minimum extent fixed for it, free gomal may run up to 250 acres. The allotment of gomal during survey settlement had not been made on any accurate calculations and so it is more than what is required in many places. After setting apart this area the remaining extent in each village may be constituted as Village Forest provided it is 100 acres and above. The area allowed for free grazing cannot be allowed to remain a treeless waste for all the time in consideration of the climate and economic interests of the country elucidated above. Therefore, right holders must be bound to plant up this area with such trees, as afford cover to the ground and fodder to cattle in famine times as suggested further on.

Proceedings of the Government of His Highness the Maharaja of Mysore,

The management of Village Forests and village gomal is to rest in the hands of villagers to which the lands belong. The villagers being more prominently individual than communal, a communal spirit could be roused by entrusting the management of village forests and gomal to the panchayet body to be constituted for the preservation of tanks, etc. In the absence of such a body the shanbhog and the patel together with one or two influential men of the village have to undertake the management. The shanbhog as the Secretary of the panchayet body may keep the accounts and correspondence connected with the forest, subject to the supervision of the Amildar and the forest Range Officer controlled by the Deputy Commissioner in the Forest Department.

All lands at the disposal of the Government in villages will thus fall under one of the 3 categories *viz*;—Village Forest, gomal assessed waste. The last may be reserved for cultivation and sold under hullubanni each year, or dealt with in any other manner Government deems fit.

The working of village forests and gomals.—After constitution it is necessary to detail the working and regulation of rights in two class of lands. The following tabular form contains the suggestions regarding this.

VILLAGE FORESTS	VILLAGE GOMAL
1. The Deputy Commissioner may issue a boundary notification for this area as is done for State Forests and publish it well in the neighbourhood of the forest.	1. No notification is necessary but only the necessary alterations have to be made in the village accounts transferring the gomal entries to the tract assigned for tree grazing.
2. The tract shall be demarcated by a 10 feet cleared line which shall be marked by stones, cairns or small stones planted every half a furlong. The line should be cleared every year.	2. No demarcation and making is needed.
3. A fee of annas 2 per head of cattle, anna 1 for sheep and annas 4 per buffalow shall be levied for grazing and the permits issued by the managing body. No goats shall be admitted. If necessary a fixed number may be allowed free pasturage.	3. Cattle, sheep and goats shall graze free of charge.
(4) Fellings may be allowed free of cost for *bona fide* home use and for fencing fields but the meterials removed free shall be only dead wood of unclassified kinds and thorn (green and dry) to be collected under the free permits of the panchayet. If green or dead fuel except that of thorns and shrubs, for manufacturing agricultural and industrial products or wood for agricultural implements be required, they must be obtained from the annual coupes of which the fellings shall be regulated by a simple provisional working plan on payment of the usual seigniorage rates now prevailing for such woods.	4. Except the reserved trees and green wood of classified trees, people can cut and remove all other trees and shrubs and thorns for fuel and agricultural implements reserving some trees and important shrubs such as devadari, kakkorle and a few others to be named hereafter, one every 20 feet apart. This reservation is necessary to give some cover to the ground and improve the soil to bring about a bumper crop of fodder grass. Green wood of classified kinds has to be obtained on payment as now.
5. A provisional working plan on a 20 years rotation has to be drawn up for working these forests and the annual coupes determined by the Forest Department.	5. A working plan is necessary not so much to regulate fellings but for planting and sowing works on 20 years' rotation. The fellings shall not be wasteful.
6. Grazing shall be prohibited in the worked coupes for two years after working.	6. No prohibition to graze at any time and anywhere.
7. The annual coupes shall be sown with seeds of more useful species that can grow in the locality.	7. The annual coupes shall be sown in patches with seeds of trees not eaten by goats such as Honge, Cassia florida, etc., which yield manure and also planted with cuttings or seedlings of banyan, atti, goni, basari, arali and bevu, etc., which have large spreading crowns and deep roots

Revenue (Forest), dated 22nd August 1913.

VILLAGE FORESTS	VILLAGE GOMAL
	and which can afford fodder in large quantities to the starving cattle in times of famine. Arali and Bevu are more useful in this way inasmuch as cattle and goats feeding on them will not fall in condition for a considerable time. When it is found difficult to protect the transplants against grazing stock they may be surrounded by a fence of prickly pear which affords the last protection possible. Prickly pear which was feared and hated till now has got a high value now as it forms a more valuable manure than sheep manure. Its value as a manure—yielding plant is so much appreciated that people have commenced to purchase prickly pear for manure—making in a few villages near Kolar. Sowing and planting have to be done by raiyats free of cost in compensation for unpaid rights enjoyed. The trees shall be planted 66 feet apart. The planted trees are not to be lopped for any purpose except in famine years with permission.
8. Large sources of Government revenue such as *sandal, tangadi* bark and woods of reserve-kinds shall remain the exclusive property of Government. Revenue from other timber, grazing, bamboos and other minor forest produce may be divided between the villagers and the Government each taking half, or it may be entirely given to villagers. The minor forest produce shall be sold by the Amildar together with Amaroy sales, villagewar.	8 Large sources of Government revenue such as tangadi, sandal and wood of reserved kinds shall be the exclusive property of Government. Revenue from other timber, bamboos and minor forest produce shall be divided between the Government and the villagers each taking half or it may be entirely given to the villagers. The minor forest produce shall be sold by the Amildar together with Amaroy sales villagewar.
[Deputy Commissioner's remarks. Except the revenue from reserved trees which may go to the Forest Department all the income derived from a Village Forest may be given to the village or villages concerned to form a communal fund to be used for the common benefit of the villagers concerned.]	
9. The money that comes to the share of the villagers will be formed into a provident fund as suggested by the late Mr. Ricketts to be spent for the improvement and fire protection of the forest itself, such as pay of watchman, reproductive works, small bonus to panchayets and for other communal purposes. The village watchman's system called in olden times *Gida Kavalgars*, on small remunerations, may be revived for watch and ward of these forests.	9. The money that comes to the share of the villagers may be reserved as a fund to be spent primarily for the improvement and fire protection of these Village Forests and other communal purposes as in the case of Village Forests. The *gidakavalugar* or watcher employed for Village Forests must prevent wasteful and over-cutting in gomal lands also and safeguard them against injuries.
10. Village Forests shall be managed as per limitations above given.	These shall be pure District Forests and shall be managed under the rules of District Forests.

These suggestions are made purely to indicate the general line of procedure to be adopted and are not final. These have to be modified and added to, if necessary, after a full discussion of the subject by competent persons. All details of working revenue and expenditure will have to be given in the working plan and the panchayet body will be its executive.

Besides wasteful and reckless cutting, firing and overgrazing there are two more important causes helping the rapid denudation of forest tracts. These have to be removed at the earliest opportunity possible.

These are:—

(1) In many villages, jungle lands and lands having tree growth are often applied for cultivation. In the majority of cases, the underlying motive is not cultivation but desire to benefit themselves by the trees. The lands are often reported by local subordinates as having some insignificant growth or no growth and they are sold for nominal sums. It is not rare to find such lands resigned in a year or two after cutting and selling the trees. Applications for jungle lands are often granted even when there are assessed waste numbers (but having no trees) available for taking up, and much closer to the villages. If the motive were cultivation, such lands would be chosen in preference to jungle lands but ordinarily they are ignored. Thousands of acres of jungle lands have been actually denuded of their growth from this cause. It is, therefore, very desirable not to grant jungle lands for cultivation so long as other treeless lands fit for cultivation are available, except for special reasons. When a land is once laid bare, it is extremely difficult to restock it even with the best attempts. It takes many years to bring it to the original condition. In heavily grazed areas, restocking a denuded area is almost impossible.

(2) The other cause of denudation is the exercising of grazing and felling rights by many villagers in the limited District Forests of one village. Some village people having laid waste their jungle lands have resorted to getting their wood supplies from the neighbouring village jungles. This leads to lay bare the small extents of jungle lands available in some places. The present forest laws do not aim at strictly stopping this denudation. If distant villagers are prohibited from felling in areas other than their own, a great impetus will be given to planting industry and to rearing forests. Where the exercise of such rights is necessary to allow to any villagers, owing to absence of waste lands in their own village, for growing trees, the right must be enquired into, allowed and regulated. In all other cases the people of each village must be informed to prohibit fellings by other villagers within their limits.

The constitution, management and working of Village Forests and gomal lands being a vast work, the existing staff of forest subordinates cannot be expected to do. In fact in many taluks, there is no forest establishment at all. To help the Amildar in making periodical inspection of these areas and for managing its work, a *separate Forester for each taluk is necessary.* The Forester should work under the Amildar subject to the control of the Deputy Commissioner in the Forest Department. The District Forest Officer will prepare with the help of the respective Range Officers a simple working plan for all areas constituted as Village Forests and control their working.

It will be a great advantage to the Province if the owners of Jodi and Inam villages be made to adopt the scheme instituted in Government villages.

H SREENIVASA RAO.
District Forest Officer, Tumkur.

---

(4)

Letter No. 801, dated Mysore, 23rd February 1912, from M. Kantaraj Urs, Esq., B.A., Deputy Commissioner, Mysore District, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, through the Revenue Commissioner in Mysore.

With reference to Government Proceedings No. R. 951-60—Ft. 187-07-3 of 18th August 1910, inviting my views on the formation of Village Forests in Mysore, I have the honor to state that in reply to my reference to them on the subject the Revenue Sub-Division Officers as well as the present and former District Forest

Revenue (Forest), dated 22nd August 1913.

Officers have drawn up an exhaustive memo, each discussing the matter from a different standpoint in the light of his own experience and their reports are herein enclosed for your kind perusal.

2. As suggested in the last para of the Government Order, the matter was discussed in an open conference and the members were of opinion that the suggestion made by Government may be tried in one or two places.

3. There are three points on which the opinions of the Deputy Commissioners have been called for. The first two relate to the present management of District Forests and the means that can be devised to improve them; and they can be disposed of easily.

4. The District Forests are under the general control of the Deputy Commissioner who manages them with the assistance of the District Forest Officer. There is no separate establishment for the watch and ward of these forests. Of course we have got a system of forest beats which include all important District Forests in the district, but I cannot say that it helps much in exercising an efficient check over them all. The District Forest Rules no doubt provide for (1) the prohibition of the conversion of the forest into cultivated land except on special permission; (2) the reservation of a limited class of valuable trees; (3) the preservation from any acts which by abuse would lead to the devastation or denudation of the forest. But it is very difficult to successfully detect cases of infringement of these rules and mete out proper punishment to the offenders. Our villagers are, moreover, improvident and short-sighted and recklessly remove very valuable trees in these forests to serve their immediate needs.

5. For want of a regular forest procedure of demarcation and settlement, no systematic exploitation, and syliculture in these areas have hitherto been undertaken. But this state of things cannot be allowed to go on indefinitely. Such a policy will, in course of time, result in a complete destruction of District Forests, which in its turn will prove a set-back to the prosperity of our agricultural population which is now mainly dependent on the District Forests for its supply of fuel, timber and grass, etc.

6. Viewing the matter in this light, I think it behoves us to devise some measures for the preservation of the District Forests. To take them entirely into the hands of Government and manage them on scientific lines would mean an enormous outlay which the Government may not be willing to bear.

7. It is for this reason that a suggestion has been put forward whether portions of the existing District Forest and unassessed occupied waste lands may not be constituted into a Village Forest and handed over to the village communities for preservation. The suggestion is no doubt an excellent one and amply deserves a trial. As pointed out by the Sub-Division Officer, French Rocks, there are practical difficulties in the carrying out of it. The great difficulty is that such a scheme cannot be tried everywhere. For instance, in the Taluks of Chamrajnagar, Gundlupet, Hunsur and Heggaddevankote, where there are extensive areas covered with valuable forest growth, people cannot be induced to join hands in such a scheme for they can get all they want without any trouble at their very doors. But in T.-Narsipur, parts of Nanjangud, Mandya, Krishnarajpete and Nagamangala Taluks, where there are no District Forests containing valuable trees, if some encouragement be held out to the raiyats they may be easily brought round as they more or less appreciate the advantage of having good and valuable forests close to their villages. That is, we have to appeal to their self interest as the chief motive for the formation of village forests.

8. In the above I have merely indicated the difficulties that we may possibly have to face in the undertaking; but they do not certainly prevent us from trying the experiment in one or two places in this district where the conditions are favourable. I would, therefore, suggest that Village Forests may be constituted in certain localities and their up-keep handed over to the villagers.

ENCLOSURE 1.

District Forest Officer Mr. Heera Singh's Memorandum.

With reference to your memo No. 336, dated 5th instant, forwarding to me copy of Government Order No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, for report, I beg to note my views regarding the formation of Village Forests in Mysore in answering the three questions put in the Government Order.

1. *Question.*—What are the arrangements that have been made in their districts for the management of District Forests and what improvements can be effected in them?

1. There is no separate establishment for the watch and ward of District Forests in this district. These forests are under the general management of the District Forest Officer as Assistant of the Deputy Commissioner. It must, however, be noted here that the preservation and improvement of District Forests, so much honey combed and broken up by cultivation and villages, as long as they are left undemarcated and unprovided with adequate establishment is an impossible task. Close to the State Forests, however, where we have the necessary establishment they may be said to be in fair preservation. Elsewhere the villagers who are proverbially improvident and short-sighted have done much harm to these valuable tracts by reckless cutting and firing.

2. *Question.*—What is the present condition of District Forests and to what extent is it possible to devise some means whereby reproduction in these forests can be carried on systematically without employing any separate agency for the purpose?

2. As stated above the condition of the District Forests is anything but satisfactory at present. I cannot think of any means whereby reproduction can be carried out without employing any separate agency. The areas will have to be protected from fire and the grazing of cattle regulated in case any reproduction in these forests can be carried on systematically. Sowings and plantings also will have to be undertaken in areas where the original forest growth has disappeared or been denuded and all this is out of question without an adequate staff and the expenditure of large sums of money every year.

3. *Question.*—Whether there is any part of their districts in which the scheme of Village Forests may be tried and if so what classes of land they would propose to include in these forests. What are the conditions under which the management is to be entrusted to the villagers and the manner in which the privileges to be exercised by them are to be defined and regulated; how should the governing body be constituted and how are the expenses of management and conservancy of the forest to be met?

3. I very much doubt that the short-sighted villager can ever be safely entrusted with the management of these areas and it will take a very long time indeed before an ordinary raiyat can be educated to realise the vital importance of conserving and protecting the forests in his own interests. If Village Forests must be formed all the gomal lands, unassessed and assessed waste lands in every village may be classed as village forest and assigned to it for ever, but the management of such forest should be entirely in the hands of special foresters under the control of the Deputy Commissioner and the District Forest Officer as his assistant.

Revenue (Forest), dated 22nd August 1913.

4. Amrut Mahal and Revenue kavals and lands of which the Government has acquired the ownership or possession by purchase, lease or otherwise are the sole property of Government and should not be included in any village forest in my opinion, on the other hand, if necessary, they may be subjected to regular settlement and constituted as State Forests as early as possible.

5. Every Village Forest should be thoroughly inspected and its productive capacity estimated and only so much of the annual yield allowed to be cut and removed by the villagers during the year according to their requirements in case the yield is equal to the demand. On the other hand, if the annual yield is insufficient to meet the requirements of the village, the individual privileges and concessions will be proportionately reduced. I mean that these Village Forests should be managed according to the working plans to be carefully thought out and prepared by competent officers with a view to their maintenance and improvement in the interests of the agricultural community.

6. The question of financing the scheme is an important one. As large recurring expenditure has to be incurred for the staff and the conservancy and reproductive operations in the Village Forests, I beg to suggest for your consideration the desirability of levying forest cess of one anna per rupee of land tax in view of the enormous advantage that will be assured to the agricultural population and the privileges and concessions they have been and they will continue to enjoy in future in these areas. This cess and a portion of the revenue by the sale of minor forest products from these areas and the sale of reserved timber (excepting sandal) will be more than ample to maintain and improve the productive capacity of these areas in course of time. When the agricultural population are thoroughly educated in matters of forestry and realize the communal interests in the preservation, maintenance and improvement of these forests, their management may be entrusted to them in the future.

B. HEERASINGH,
District Forest Officer, Mysore.

ENCLOSURE 2.

District Forest Officer, Mr. M. G. Rama Rao's Memorandum.

1. The District Forest Rules provide for,

   (*a*) the prohibition of the conversion of the forest into cultivated land except on special permission,

   (*b*) the reservation of a limited class of valuable trees, and

   (*c*) the prevention of any abusive acts which would lead to the devastation or denudation of the forest.

2. Under the above restrictions and under the general control of the Deputy Commissioner the District Forests are managed by the departmental agency under a system of forest beats, which include all important District Forests in the district. They are inspected by the District Forest Officer and the Range Officer and their condition is brought to the notice of their superior officers from time to time.

3. Sandal dibbling operations are carried on on an extensive scale in the District Forests wherever the locality was suitable for reproduction and no improvement of forest growth was effected for want of a regular forest procedure of demarcation and settlement.

4. The growth in District Forest adjacent to populous villagers is not what it ought to be as no systematic sylviculture and exploitation in such areas were undertaken to replace the reckless removal of the less valuable kinds by the agricultural population.

5. The constitution of Village Forests is much needed as there is an enormous demand for grass and grazing, for fuel and for the smaller classes of building timber for the growing population.

6. The waste lands that were given to villagers at the time of settlement were not subject to any condition regarding their preservation as Village Forest and consequently the forest growth on lands assigned to the villages was denuded for want of regular protection and management. As fresh forest tracts have to be assigned for the constitution of Village Forests under a guarantee, the Village Forests have to be managed under a measure of State supervision. At the time of settlement an option may be placed before the village communities of setting aside a definite proportion of their village waste or communal forests. Groups of villages may be allowed to combine to subscribe to the formation of a communal forest between them. The Settlement Officer should settle such areas under the regular forest procedure and then hand them over to villages as forest and grazing ground reserving sandal and teak to Government. These Village Forests should be brought under regular conservancy and subject to the Forest Law.

7. All cuttings have to be made according to a plan of operations under a regular agency. No irregular fellings should be allowed. The produce in building timber as well as firewood in stacks has to be cut and handed over to each person entitled, in the proper quantity. The rights of the commune should not be allowed to grow as the number of the inhabitants increases, for that would lead to the demand becoming greater than the supply and to Government being obliged either to allow the villagers to destroy the communal forest or increase its area. To avoid this, the houses in the commune must be counted and the right to timber and fuel fixed once for all at so much per house. The number of cattle allowed to graze in the communal forest should likewise be limited so that even when the commune has doubled or tribled the quantity of produce to be supplied and the number of cattle grazed in, will remain fixed as in the original settlement.

8. Produce delivered or used in kind should be valued and recorded. When once the annual cost for the maintenance and working of the Village Forest is fixed, it should be collected from the inhabitants of the village or groups of villages in proportion to their requirements in the shape of a tax instead of recovering the seigniorage on any produce removed as that system would be irksome to the Village Community as they were hitherto enjoying the free removal of forest produce without let or hindrance.

Revenue (Forest) dated 22nd August 1913.

9. A village forest thus constituted may be managed by the village headman or by a panchayat formed of the leading men of the village and the distribution of the produce for the use of the commune must be controlled by the Amildar and the Sub-Division Officer under the orders of the Deputy Commissioner. It is not possible to carry on reproductive measures without a separate agency as expert advice among the people is needed till a desire grows up to appreciate the importance of well managed forests.

10. He would suggest that all gomal lands and district forests, which are not suitable for growing timber for the market and for public works, and which are not of a protective character and not required for the maintenance of water-supply in springs or streams may be formed into village forests.

The village forest system has a wholesome influence on climatic conditions and if the scheme were taken up the area under forest growth in the aggregate would be enormous and will be a permanent source of supply of small building timber, grass and fuel which are essential to the happiness and existence of the rural population.

There are hardly any forest tracts in the maidan taluks of this district except a few isolated tracts which have already been declared as State Forests, and there is no immediate prospect of getting the village wastes planted up as the operation requires enormous funds to start with. It would be more appropriate if village forests are first formed in Hunsur, Heggaddevankote, Gundlupet and Chamrajnagar Taluks where the forest growth on gomal and district forests is being denuded and where conservancy is most needed to prevent further denudation as a stitch in time saves nine.

M. G. RAMA RAO,
District Forest Officer, Mysore District.

ENCLOSURE 3.

Report of Mr. N. Subba Rao, B. A., Assistant Commissioner, French-Rocks Sub-Division.

Reference.

Correspondence ending with your Memo No. 2568, dated the 23rd December 1910, calling for opinion *in re* the formation of village forests.

I have the honor to state that the conditions obtaining in this division seem to me to be most unfavourable for a scheme of the kind under reference being worked out to success. In the first place the Amildars are over-burdened with work, so much so that even the most willing among them are sometimes obliged to allow the most important items of work, such as revenue collection, etc., to drift and therefore it cannot be expected that they will be able to pay that amount of special attention which this important scheme calls for. In the next place the conditions obtaining in villages are also not very encouraging. The patels, of whom more than 60 per cent are illiterate, command no sort of respect or influence in their respective villages, and further in majority of villages there are several factions. Under these circumstances it is, in my opinion, next to impossible to secure the willing co-operation of villagers to work out any scheme however advantageous it may be to them. Under the existing circumstances even the maintenance of road side avenue trees is very much neglected by the raiyats though they derive some profit from them.

2. A wholesome scheme to allot separate fuel reserves to villages had to be abandoned some years ago as unworkable. Again the schemes which have been recently sanctioned by Government for profitable use of gomal and kharab lands by granting them to villagers jointly for eksal cultivation and for growing fodder has been found in a way unworkable.

3. I am therefore quite diffident if the most useful scheme under reference can succeed, if left in the hands of the Revenue Department. There is no doubt an absolute necessity for an arrangement of the kind proposed. The only way to give

effect to it is, in my humble opinion, to extend reservation to gomal and kharab lands, in other words to district jungles also, of course, subject to villagers exercising with certain restrictions their usual rights and privileges and thus to leave the developments of the district forest in the hands of the Forest Department alone.

ENCLOSURE. 4

Report of Mr. T. K. Sundararaja Iyengar, Sub-Division Officer, Nanjangud.

With reference to your Memo No. 1268-71, dated the 15th September 1910, forwarding for reference, copy of Government Order No. R. 951-60—Ft. 187-07-3, dated the 13th August 1910, and calling for my opinion, in the matter of forming village forests, I have the honor to state as follows:—

2. The fixing of land assessment is to a great extent dependant upon the facilities afforded by Government to the raiyat in the matter of free grazing, firewood supply and free supply of green manure.

3. While the raiyats have thus a right to take their supplies free from the Village or District Forests which may be assigned to them, it may not be good policy to charge them separately for the items above enumerated. The concession granted in the Village and District Forests to the raiyats need not be taken away now and on the other hand some definite rules may be framed to fix their responsibility in the matter of protection of such forests from wanton destruction. The raiyats who pay the lowest kandayam are the largest consumers of the forest produce and this circumstance has to be considered while framing the rules.

4. In the Mysore District, ample provision has been made at the revenue survey for gomal, kharab and grass lands in addition to the District Forests. The village officials are the officials in immediate charge of those lands and if those officials devote their special attention, it will not be difficult to improve the lands classed as above. Charitably disposed people may be permitted to excavate kattes and sink wells and plant topes without hindrance in the District and Village Forests and it must be made a rule that raiyats paying land revenue to Government should plant and rear not less than three plants a year, such as ala, basari, tamarind, honge, etc., in valleys and water-logging places to create shade, and cutting green wood should be prohibited except thorny scrub jungle wood whose removal would be advantageous to the growth of better kinds of trees. All dead wood thorns and other stunted jungle wood may be removed by raiyats. Separate plots where trees cannot grow but which are fit for pasture of sheep and goats should be assigned for sheep and goats and their grazing clandestively should be discouraged as much as possible. In places where villagers cannot be induced to sink wells or build kattes, some amount may be spent by Government on such works and the raiyats may be enjoined to plant trees alone. It should be admitted that owing to failure of raiyats on the one hand and laxity of supervision of Government officials on the other, our District Forests have undergone great deterioration and the systematic conservation of the same under well directed supervision, will, it is hoped, bring our forests to their original flourishing condition. If funds permit, an official to be called District and Village Forest Overseer should be appointed for each taluk on a salary of Rs. 20 with a horse allowance of Rs. 10 to work under the Amildar. This man's duty shall be to constantly move about villages and the several District and Village Forests attached to them and it will be his duty to see to planting and the conservation of reserved timber trees and sandlewood and trees yielding forest products. His pay will be met from the realizations from the income of the District and Village Forests. We need not be sorry for the extra cost as, the more the forest is improved, the surer is the income. The system of rewarding village patels by means of giving them silver bangles may be introduced in cases in which good improvement is shown similar indulgences may also be shown to deserving raiyats who sink wells or build kattes or plant topes within forest areas. The above may be taken as answers to the queries Nos. 1 and 2 contained in the Government order quoted

Revenue (Forest), dated 22nd August 1913.

above. In regard to para III, I would beg to submit that Village Forests may be conveniently constituted in the Gundlupet, Chamrajnagar and Nanjangud Taluks. The T.-Narsipur Taluk has no appreciable gomal or kharab save portions of the river beds and that taluk is left out of consideration in this report. For the present the lands known as gomal, kharab and "hulbanni" may be included in the area to be designated into Village Forests. The condition to be imposed shall be that each raiyat enjoying forest rights must in return plant trees or pay towards the planting and an individual list showing the names of people who planted trees and the varieties of trees planted should be maintained by the patel and for the trouble of watching and for the control, a yearly allowance of Rs. 3 to 5 shall be paid to the village toti on whom the burnt of work falls. Lump sum grants may be made for each district with full discretion to the Deputy Commissioners to reward those who have done good work and to withdraw the same in the case of those who do not exert. The patel alone cannot be sufficient for the purpose. In addition to Government patel, there exist in almost every village a patel who looks to the convenience of villagers in religious and social matters and such men do carry weight. This class of men assisted with two or three intelligent and respectable raiyats living in the village may be ordered to form themselves into a committee to control the action of the raiyats at large and it will be the privilege of such committees to frame minor regulations as to how much firewood and thorns should be allowed to each raiyat and how much fee has to be levied from raiyats who own large herds of cattle inclusive of sheep and goats without owning appreciable extent of land. I would fix one cart load of firewood per month for every family of a raiyat consisting of 5 souls and four heads of cattle and two sheep might be allowed to graze gratis in the Village Forest and for those in excess of that number the owners should be enjoined to pay a small fee of half anna in the case of every sheep and one anna in the case of other cattle per head per season. This will give a small income without unduly pressing upon the resources of the poor raiyats and this fee might be formed into a fund and devoted towards the cost of preserving the Village Forests. The cattle census will give the actual number of cattle which each raiyat possesses and upon that data our future accounts can go on. Passes may be given to each raiyat showing the total number of cattle of which cattle exempted and cattle that have to pay for may be distinguished. As raiyats frequently change cattle, it would be better to have the yearly khanishmari and to fix the number of cattle with each raiyat according to that account. The fee to be imposed shall be scrutinized by the sheikdar and checked by the Amildar and finally the list should be approved by the Amildar. As Amildars are enjoined to itinerate not less than 10 days in a month, there will be ample time for them to devote to this particular branch of work and if this work is done in right earnest, I am hopefull that good deal of assistance can be rendered to the raiyats instead of driving him out of his house in search of pasture to his cattle in distant places and thereby putting him to loss and trouble during bad seasons.

5. I thought of advocating the introduction of the system that obtains in the malnad in the matter of apportionment of gomal and kharab lands according to the patta extents of each raiyat. The malnad is peculiarly situated and that rule cannot with advantage be enforced here, as raiyats here own from ½ to 2 acres each which is no comparison whatever to the enormous extent owned by the people of similar standing in the malnad and so I have desisted from advocating that system in the taluks of this sub-division.

ENCLOSURE 5

Report of Mr. G. B. Heblikar, Esquire, B.A., L.L.B., Assistant Commissioner, Mysore Sub-Division.

With reference to your Memo No. 1268-71, dated 15th September 1910, calling for my views on the subject of forming Village Forests, I have the honor to state that Government have sought your opinion on the following three points:—

(1) What are the arrangements that have been made in their districts for the management of District Forests and what improvements can be effected in them.

(2) What is the present condition of District Forests and to what extent is it possible to devise some means whereby reproduction in these forests can be carried on systematically without employing any separate agency for the purpose.

(3) Whether there is any part of their districts in which the scheme of Village Forests may be tried and if so what classes of land they would propose to include in these forests? What are the conditions under which the management is to be entrusted to the villagers and the manner in which the privileges to be exercised by them are to be defined and regulated? how should the governing body be constituted and how are the expenses of management and conservancy of the forest to be met?

2. As to the first and second points I think it needless to enter into the details of the arrangements made for the management of District Forests in my Sub-Division. As the practice that obtains in the district is uniform and there are no local variations. The Amildars issue licenses to agriculturists to remove dead branches of trees and shrubs without levying any fees. The patels of the villages in the limits of which the forests lie are expected to look after them and bring to the notice of the taluk authorities all cases of wanton destruction No separate agency is employed for their management and up-keep.

3. As to the third point I beg to state that at present I cannot point out off-hand the places in which the scheme of Village Forests may be tried with success without knowing its conditions and limitations. It is of course necessary for the success of the scheme that its conditions and rules should be very simple and easily understood by the villagers.

4. It will be seen from the extract of the late Mr. Rickett's letter published in the Government order that he proposed to convert District Forests into Village Forests and hand them over to the village communities for their use. "A Village Forest thus formed" he says "will have to be assigned to village or group of villages which have hitherto been exercising their customary privileges in the District Forests prior to its division or conversion into Village Forest In most cases it may be necessary for purposes of management to include in one block the forest area of several contiguous villages." The Forest Regulation contemplates three classes of forests (1) State Forests, (2) District Forests and (3) Village Forests. If Mr. Rickette's proposal is carried out, there will be as at present only two classes of forests. The name "District Forest" will have been changed to "Village Forest" and the management too will pass into the hands of Villagers. With these exceptions there will be no change in the existing system. In my humble opinion the District Forests should be retained and held out as a bait to the adjoining villagers to form village forests. I would propose that all the gomal and unassessed waste lands should be formed into a village forest and handed over for management and use of the inhabitants of the village in the limits of which the lands are situated. Only such persons as pay kandayam to Government should be entitled to remove without any charge fuel, grass, etc., from them, the remaining inhabitants paying a small license fee. The villagers *should be bound to* plant annually a portion of the Village Forest with unreserved trees. They should be granted free licenses to remove dead branches, etc., from the District Forests only if they observe the conditions of planting, conserving, etc., on which the Village Forests were handed over to them. This scheme will serve the two fold purpose of stimulating the formation of Village Forests and the conservation of District Forests. At present the raiyats have no right over unassessed waste lands the right of grazing on which is sold annually by public auction. If these are to be included in the village forests it is but fair to expect that the villages should pay a *quid pro quo* for the loss of revenue to Government in the shape of an annual money payment and a small license fee for cutting trees when those planted by them grow up. The former they pay even now, and the latter will not be an additional imposition inasmuch as those that want to fell fuel trees in the State Forests have to pay for a license. In the case of the Village Forests it will be an ample concession to them if they are charged only a fraction of the license fee. The Forest Department can then restrict the issue of licenses to cut fuel trees. The extent of each village forest should depend upon the land

revenue collections of the village. Any excess land over and above the fixed area should go to form part of the District Forest which should be common to the adjacent villages. A small fee should be charged for every head of cattle allowed to graze on the land and for the removal of the forest produce. The license realizations should go to meet the expenses of the up-keep and management of the District Forests, which may conveniently be placed under the Forest or the Revenue Department. The District Forests will thus meet the demands of those who cannot be allowed to graze their cattle in excess of a fixed number in the village forests, or to remove forest produce beyond the regulation quantity. I have already said above that the quantity of forest produce which a man should be allowed to remove and the number of heads of cattle which he should be allowed to graze free in the village forests should depend upon the kandayam he pays in the village. For anything over and above this he will have to go to the District Forests and pay the usual fees.

5. The people have, I am afraid, acquired the privilege of grazing free their cattle in the gomal lands. This right will have been fully respected by allowing each man to graze a certain number of heads of cattle and no more. At present they are not entitled to remove forest produce from the gomals. They will be amply rewarded for the cost they will incur in planting and rearing trees if they are allowed to remove free of charge a certain quantity of the product. The Government may allow the remaining produce to be removed on payment of a seigniorage.

6. The Village Forests should be under the management of village panchayat, the members of which should be appointed on the same principles as those of the tank panchayets. These should have power to enforce each raiyat's quota of manual labour or its equivalent in money; failure to comply with this requisition should entail forfeiture of his right to free grazing, etc.

7. There is, however, one point which requires very careful consideration. It is, what portions of unassessed lands are not to be converted into Village Forests but should be reserved for the future expansion of cultivation. If certain lands are reserved and remain fallow a number of years there will be loss of revenue to Government and an unfair competitor to the village forests if the rights of grazing over them are sold by auction year after year. On the other hand, if the villagers are granted free grazing rights over these lands the main incentive to the formation of Village Forests will be taken away. The average raiyat will prefer to pay a small fee and graze his cattle to work in the Village Forest and wait for his share of the forest produce even though in the latter case he will of course be entitled to free grazing also. The only answer to this question that suggests itself to me, is that the raiyats who have been deprived of their forest area should be paid a fixed proportion of the price realized at the time of the public sale of the tracts to be oppropriated to cultivation. If this is done no unassessed area need be reserved for future cultivation. The other plan would be to parcel out the village forests after their formation amongst the raiyats in proportion to their holdings on condition that they plant annually a certain portion of the area allotted to them with a certain number of standards so that the whole area may be planted up in a certain number of years. But the objections to this scheme are:—

(1) that the land so formed into Village Forests will be practically given away without any equivalent;

(2) that if the Government do not give away the land absolutely it will not be planted up;

(3) that there is every likelihood of the area so allotted being brought under cultivation instead of paying the land revenue;

(4) that if land revenue is charged on such land it will be resigned;

(5) that the person to whom the forest area is granted would resign part or whole of his holding without giving up his forest tract;

(6) that it would be well nigh impossible to reallocate the forest area every time part of a holding is resigned or alienated; and.

(7) that the raiyats will deem it a rescission of their privilege of free grazing if they are charged upset prices for their forest areas.

8. I need scarcely add that this will be running counter to the current of co-operation which the Government are trying to foster. The formation of Village Forest Panchayets would certainly be in accordance with the spirit of the modern times. It is certainly very difficult to lay down the general principles as to the lands which should be constituted into Village Forests and to fix the manner in which the rights and privileges which should be given to the villagers. The difficulty is, however, one which is not impossible of solution and it is worth solving it.

---

(5)

Letter No. 139—R. 70, dated the 14th October 1912, from K. Srinivasa Row, Esq., Deputy Commissioner, Shimoga District, to the Officiating Secretary to the Government of H. H. the Maharaja of Mysore, General and Revenue Departments.

1. With reference to your letter No. R. 1880-4—Ft. 187-07, dated 1st August 1912, and G. O. No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, calling for my opinion on the formation of village forests, etc., I have the honor to state that the constitution of village forests and vesting their administrative control in a village panchayet to be selected for the purpose, is a very attractive proposal and is likely to awaken and encourage the spirit of co-operative self-help and of communal feelings amongst the raiyat population.

2. I quite agree with the Conservator of Forests in thinking that in technical matters, the panchayet should be placed under the guidance of Forest Officers. It would, however, be better to utilize the services of the Sub-Divisional Forest Officer in place of the Range Officer.

3. As regards the penultimate paragraph of G.O. No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, I may state in reply to queries (1) and (2) that the management and administrative control of district forests so far as this district is concerned are practically in the hands of the Conservator of Forests.

4. As for the 3rd question, practically all available tracts in the malnad portions of this district have been included in State or district forests and there is thus no scope for the formation of village forests there. In the maidan portions, on the other hand, there are no likely areas suited to the growth of timber or fuel trees in which the experiment can be tried with any reasonable prospects of success.

---

(6)

Letter No. 150, dated 14th October 1912, from B. J. Kumaraswami Naik, Esq., B. A., Deputy Commissioner, Bangalore District, to the Officiating Secretary to the Government of Mysore, General and Revenue Departments, Bangalore.

With reference to Government Order No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, calling for my opinion on certain points required in para 6 of the said order, *re* the formation of village forests, I have the honor to state that the subject was fully discussed by the Amildars and the Sub-Division Officers in the Taluk Board Meetings. The management of the district forests is carried on in this district in accordance with the rules prescribed in Government Notification No. 245-1300, dated 2nd October 1901, and no improvement therein seems necessary.

2. The present condition of the district forests in this district cannot be said to be quite satisfactory. Under the present system, the raiyats are allowed to remove fuel, etc., from the district forests, without any corresponding obligation on their part, to contribute either labour or money for the improvement and preservation of the stock in the forest. For reproduction in these forests to be carried on systematically, without employing any separate agency, it is necessary that the raiyat population should be made to contribute labour for the propagation of trees in places where they are found wanting. A healthy check may also be devised in view to prevent indiscriminate cutting or destruction of trees, by

Revenue (Forest), dated 29th August 1913.

dividing the district forest into convenient coupes, each coupe being thrown open for a limited number of years by rotation. This will give a sufficient interval for fresh growth in the coupe, before it is thrown open again. But this system can be successfully worked out without a separate paid agency, only if the Forest Department undertakes the work under the orders of the Deputy Commissioner.

3. The intended scheme of forming village forests is no doubt a good one: but is attended with many difficulties. Almost all the Amildars in this district are of opinion that the existing privileges allowed to raiyats in the district forests are ample, and have been giving satisfaction; and that there is no necessity for the formation of village forests. Further, it is feared that the majority of our raiyat population is not sufficiently educated, and advanced in methods of co-operation, to be safely entrusted with the management of village forests. As to the places where the scheme of village forest may be tried, it is desirable first to see how the rules sanctioned tentatively by Government, in their Order No. Ft. 4329-37—L. R. 358-06-6, dated 17th February 1912, regarding the scheme to improve the growth of grass in the village gomal lands, and permitting raiyats either individually or collectively to raise therein trees useful for fodder and leaf-manure, would work, and how many villagers come forward and avail themselves of the scheme

4. However, the experiment of forming village forests may be tried in parts of Magadi and Channapatna Taluks, and Closepet Sub-Taluk, where large blocks of Kharab lands and surplus gomal lands may be included in village forests.

When village panchayets are constituted, the management of village forests may form one of their duties. In the meanwhile, it may be entrusted to a panchayet, consisting of the patel, shanbhog of the village or villages concerned, and a few other members appointed by the Deputy Commissioner, out of respectable landholders of the village or villages to which the village forest is attached, the panchayet being guided and supervised by the Taluk Amildars.

5. The scheme of the formation of village forests, may not meet with success in case the existing grazing rights of the villages are in any way materially curtailed. So it is desirable that the whole area of each village forest should be divided into coupes, one coupe being in rotation handed over for free grazing, the grass in the rest being sold to meet the expenses of the management of village forest, such as planting quick-growing fuel and other useful trees in the coupe reserved therefor, etc. After all the coupes are planted up with trees, and when the forest has developed sufficiently, the raiyats may be made to pay grazing fees on all cattle over and above a pair of bullocks and a pair of cows per raiyat, seigniorage on green trees required and felled by them, and the produce of trees sold to them. The whole proceeds thus realized may be utilized towards expenses of management and conservancy.

---

(7)

Letter No. 153, dated the 8th October 1912, from P. R. W. Wetherall, Esq., Deputy Commissioner, Hassan District, to the Offg. Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, Bangalore.

With reference to Government Proceedings No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, in the matter of the formation of village forests with reference to the peculiar circumstances of each district, and requesting information on certain points, I have the honor to state as follows:—

2. In pursuance of the instructions of Government, the subject was explained and discussed at a conference attended by the Revenue Sub-Division Officers, Amildars, Deputy Amildar, and the District Forest Officer, as also by some of the Representative raiyats in the district. The subject was fully discussed on the practicability or otherwise of the scheme in consideration of the local circumstances of the raiyats, the consideration of the existing forest area to which the raiyats can easily resort to for timber and fuel for their *bona fide* agricultural and domestic purposes. The members next considered the advantages that the raiyats would be

able to secure in forming and maintaining the village forests provided they are competent and able to co-operate in the movement.

3. In the course of discussion on this point, it was agreed that the formation of village forests in the malnad portions of the district was not necessary, as the need for the same was not felt, owing to the existence of large extents of timber and fuel trees as well as coffee and cardamom estates and large hittals owned by the raiyats; that in the maidan parts of the district the population is denser, the area of cultivated lands larger and the forest area less than in the malnad. There are, no doubt, district forests here and there, some of which have been duly notified as reserved forest under Section 35 of the Mysore Forest Regulation, and under the control of the Forest Department, while others comprising assessed unoccupied and unassessed waste and gomal lands are virtually under the management of the Revenue Department. In some of these, as has been stated by the District Forest Officer (*vide* copy of his letter No. 40, dated 15—17th August 1911, enclosed) sandal dibbling is carried out in selected areas.

4. After much discussion it was unanimously agreed that the scheme of village forests may be tried experimentally in a few selected tracts of the maidan taluks of Arsikere, Channarayapatna, Hole-Narsipur and Hassan.

5. The classes of land which may be proposed to be included in the village forest may be the same as those which have hitherto been allotted for the district forests, or in other words, such of the lands as may be selected from the district forests and which are so situated as to form a compact block of land to be constituted as village forest. Most lands now forming district forests are in close proximity to villages and it is such lands which may be selected for the purpose. Since the village forests also serve the purposes of pasturage for cattle, the inclusion of gomal lands within the area of village forest will not be discouraging to the raiyats. When a village forest is to be formed for one village, the area may, at the initial stage, be calculated on the number of people and houses in the village, assuming that 2 acres would be sufficient for each house consisting of about 4 adult persons. The maximum area of village forest may be fixed in consideration of the local circumstances in each instance, such as growth of trees on the land allotted, existing number of trees, nature of the soil and source of water-supply, etc.

6. The matter of settling the conditions under which a village forest is to be entrusted to the management of the villagers is indeed a difficult one, inasmuch as our raiyats do not yet realize the advantages of co-operation. In fact co-operation in any movement is only possible when the people are competent to understand the principles of organization which is the result of education. In short, if one well-organized village forest panchayet can be brought into existence in every taluk, it will serve as an object lesson for many others to follow. Consequently at the outset the conditions should be such as to induce the raiyats to take an active part in the management of village forests. This can be achieved by framing obligations on the village forest panchayets similar to those framed in the Tank Panchayet Regulation. The object of bringing village forests into existence is to create vested interests, rights and privileges to the raiyats of the respective villages. Every family in such a village paying kandayam on dry, wet or garden lands, at not less than Rs. 5 may be required to grow not less than 3 plants in a year in properly dug out pits. It should be made incumbent on the head of each family that unless he attends to the planting and bringing up of the number of new trees decided by the panchayet to be grown each year, he will not be entitled to enjoy the privileges which the village forest is likely to confer on him. Of this area, only a certain selected block should be set apart for planting out young trees, another portion for the nursery, and the rest of the area for pasture.

7. Having stated the obligations on the part of the raiyats in forming village forests, it may be considered as to what privileges they would have in such forests. The removal of wood for fuel, and for agricultural implements, and the grazing of cattle or of cutting and removing grass as fodder and for hutting purposes may be allowed by the panchayetdars when the village forest admits of the same. Suitable rules would have to be framed for the satisfactory working of the scheme, and the panchayet would be the governing body.

Revenue (Forest), dated 22nd August 1913.

8. In order to meet the expenses connected with the working of such a scheme, a fund called the "The Village Forest Fund" might be started, the control of which might be vested in the panchayet, constituted on the same principles as contained in the Tank Panchayet Regulation. The Village Forest Fund might consist of the following items:—

(1) Amounts collected from raiyats who failed to carry out the work required of them by the panchayet in the formation and upkeep of the village forest.
(2) Rent or value of the share of forest produce, or the sale proceeds received from those who are non-agriculturists.
(3) Any grant which Government may be pleased to make.
(4) Any loan which the Government may be pleased to sanction with special concessions.
(5) Any small cess, say 3 pies on every rupee of kandayam or mohatarfa payable by the people of the village.

9. The fund thus formed might be deposited in the Government Savings Bank, or a Co-operative Society, should there be one in the village. The panchayet should keep proper accounts of income and expenditure, which may be authorized by the Government from time to time, and the accounts should be laid before a general meeting of the villagers by the panchayet soon after the close of each year.

10. The working of the Co-operative Society in a village has been able to show to the people ignorant of the methods of co-operation what advantages they are likely to gain by co-operation and combined action. As time advances and as people are educated they will naturally feel the necessity for co-operation to lessen the struggle for existence. Hence the trial of the village forest scheme in a few selected villages in every district, where primary education has made good progress, may be able to test its usefulness.

ENCLOSURE.

Letter No. 40, dated 15th August 1911, from the District Forest Officer, Hassan, to the Deputy Commissioner, Hassan District.

With reference to your endorsement No. 281, dated 4th March 1911, forwarding a copy of the Proceedings of the Village Forest Conference held on 6th December 1910, for report on clauses 1 and 2, para 6 of the Government Proceedings No. 951-60—Ft. 187-07-3, dated 13th August 1910, I have the honor to state in regard to clause 1, that the existing district forests so far as relating to this district may be divided into two broad classes, the first comprising the wooded areas which have been legally notified as reserved under Section 35 of the Mysore Forest Regulation of 1900. There are at present only two, *viz.*, I. The Belavathalli block, II. The Garudangiri block. Proposals for the reservation of the following fresh areas have been submitted—(*a*) Metikurki-Ramapur block (Arsikere Taluk), (*b*) Kanave kaval (Arkalgud Taluk), (*c*) Bhaktarvalli, two separate small blocks (Alur Sub-Taluk), (*d*) Kenchankumari (Manjarabad Taluk). Of these, (*a*) has been proposed to be made a reserved forest and the rest State Forest.

2. The first two blocks, *viz.*, Garudangiri and Belavathalli, having been demarcated are now under the direct management of the Forest Department. They are being protected as far as possible from fire by burning their boundary lines annually though no special fire staff is entertained. In portions of these blocks which do not include the original gomal lands of the surrounding villages, grazing is regulated, that is to say, no cattle are allowed to graze free and grazing here is allowed only during 6 months of the year. Goat grazing is not allowed anywhere in these blocks.

3. Sandal dibbling has been arranged to be carried on systematically every year in selected portions; artificial regeneration of indigenous and valuable species will also be undertaken in annual coupes where the growth is poor and scanty.

4. The existing stock in the blocks being extremely poor and open, and in former years having been subjected to unregulated and unrestricted use by the surrounding villagers, is incapable of being exploited for some years to come, and so it is in the interest of forest conservancy that the blocks should be given complete rest for at least 25 years.

5. To this end, of course, they should continue to be under the management of the technical department.

6. But the extraction of dry fuel and, occasionally, to a limited extent, of wood for agricultural implements may be allowed.

7. In portions of the area where cultural operations have been or will be carried out, grazing will not be allowed for the first five years.

8. The remaining blocks or area of the above category, *viz.*, (*a*) to (*d*), will be subjected to the same kind of treatment and management. In such of them as are well-wooded and capable of yielding fairly good timber as in Kenchankunari, sylvicultural operations both by way of improvement of the forest and meeting the market demand may be carried out in addition.

9. Now the second broad class comprises all other unassessed and assessed unoccupied lands and gomal lands. These are virtually under the management of the Revenue Department, though here and there sandal dibbling is carried out in selected areas by the Forest Department.

10. Besides this, no other improvement or cultural operation is carried out either by the Revenue or the Forest Department, nor is there any special staff to look after them. Of these, areas of sufficient extent wherever available, may be assigned to the adjoining villages as a village forest to be under the management of the village panchayet. In such village forest grazing and dry fuel and grass and leaves and fencing materials should naturally be allowed free. As regards the felling of green trees, it must be restricted only to unsound and badly grown trees which may also yield wood for agricultural implements. No straight-growing and promising healthy tree should be removed in poor, open areas, such being reserved up to 30 at least per acre.

11. In all open blanks and glades the villagers should be enjoined to plant valuable and useful species in return for the free gift of grazing and dry fuel, thorns, etc. For every tree or shrub a raiyat removes, he should plant four good plants of valuable species so that in the struggle for existence among them at least 2 of them may survive.

12. As a penalty, the defaulting raiyat shall forfeit the privilege of free grazing, etc.

13. If the villagers take extraordinary interest in the improvement of their little forest, and can find funds for carrying it out systematically, they may indent upon the help of the Forest Department.

14. Under the existing conditions a very large percentage of the villages in the maidan taluks, such as Arsikere, Channarayapatna, Hole-Narsipur, portions of Hassan, Arkalgud and Belur, has absolutely no forest, properly so called, attached to it.

15. In such villages unculturable portions of gomal or other lands, small plantations of useful and fast-growing species may be raised by the co-operation of the villagers themselves, and such plantations may also be extended from time to time as may suit the convenience of the villagers. Such plantations may literally be styled village forests. In good old days revenue plantations used to be raised in treeless tracts through the agency of the revenue officers who were evincing great interest in doing so, and in inducing the villagers to help them in the matter. As the result, we have this day several casuarina plantations which have been proving to be of an immense help and benefit to the surrounding as well as distant villages. In recent years, this wholesome method has been practically given up.

16. This may, with immense advantage, be revived and carried out on a larger scale in suitable village lands in treeless maidan tracts.

17. There are at present existing no suitable forest or wooded areas which can be put aside as village forests to be entrusted to the management of the village

Revenue (Forest), dated 22nd August 1913.

panchayets. Such will have to be created hereafter in the form of plantations which will be ultimately the common property of the villages concerned.

---

(8)

Letter No. 13, dated 7th July 1913, from K. Krishna Iyer, Esq., Officiating Deputy Commissioner, Kadur District, to the Secretary to the Government of Mysore, General and Revenue Departments.

Referring to Government Order No. R. 951-60--Ft. 187-07-3, dated 13th August 1910, calling for the opinion of the Deputy Commissioners on the subject of forming village forests. I have the honor to state as follows:—

2. The Kadur District consists of five taluks and a sub-taluk of which, Koppa and Mudgere Taluks and the Yedahalli Sub-Taluk are classed as malnad; Chikmagalur and Tarikere are semi-malnad; and Kadur is purely a maidan taluk. I am of opinion that the time has now come for taking up the scheme of the formation of village forests and that the conditions of the malnad tracts are better suited for trying the same. I shall discuss the local condition of this district in relation to the proposed scheme under the different questions raised in para 6 of the Government Order under advertance.

3. The district forests are now under the control of the Deputy Commissioner and their general management is left in the hands of the District Forest Officer as Assistant to the Deputy Commissioner in the Forest Department. As there is no separate establishment for the watch and ward of these forests, no proper supervision is exercised over them. So long as these forests are left without demarcation, and are not provided with adequate establishment, it is not possible to expect good results in the matter of their improvement. The only suggestion that I can make, however, in this connection is that the valuable thickly wooded portions of the district jungles which are not required for the formation of village forests and which are close to the State forests may be added on to such forests so as to prevent their further deterioration.

4. The present condition of the district forests in the district is not quite satisfactory. They are in a better condition in the malnad parts where the rainfall is heavy, population sparce and the soil suited for the forest growth. In the maidan parts, they are gradually deteriorating on account of the reckless felling and firing of the trees by the raiyats. Without a proper agency, it is not possible to devise means whereby reproduction can be carried out in these forests, because the areas have to be protected from fire and the grazing of cattle regulated, before any systematic planting is undertaken. If, however, no expenditure is to be incurred for the improvement of the district forests, it seems best to form all wooded tracts which are not required for the village forests into reserves and leave them under the management of the Forest Range Officers, with a set of suitable rules for their systematic conservation and exploitation.

5. Now, coming to the question of village forests, the malnad tracts as already stated are better suited for the formation of village forests. In fact, the germs of a village forest are already in existence in the malnad, where the raiyats are exercising various privileges over the "kans" adjoining their villages. The chief requirements of the malnad raiyats are (1) leaves, dry and green, for their wet lands, (2) fuel for their domestic use and (3) pasture for their cattle. As these raiyats cannot go in quest of their requirements over long distances like the people of the maidan, their needs have to be supplied close to their homes, and thus the existence of forest areas in close proximity to the villages is a necessity in the malnad and such forests do now exist. The formation of village forests in the malnad will fix the rights of the villagers over defined areas and this will induce them to conserve and improve the growth of trees in such areas.

6. As regards the maidan parts, the Amildar of Tarikere reports that there is no need at present to form village forests, as the district jungles in that taluk are in good condition and the raiyats get their supply freely from them. In the Kadur Taluk also, the raiyats are not eager about village forests as they get their supplies of fuel and timber from the Yemmedoddi Kaval. The Amildar of Chikmagalur, however, brings to notice that in the maidan parts of that taluk several villages have no forests at all, and if village forests are constituted near such villages, the raiyats will be greatly benefited. I am of opinion that the scheme of village forests may be tried in the malnad taluks of this district and also in the maidan portions of the Chikmagalur Taluk.

7. As regards the classes of land which might be included in these forests, I beg to state that waste lands, both assessed and unassessed, and also gomal lands which are so situated as to form one compact block, might be assigned for the purpose. As regards gomal lands thus included, the raiyats will continue to exercise their right of free grazing, but in respect of lands which are being hitherto sold for "Hulbanni" a grazing fee will have to be levied. Portions of the existing district jungles will also be included in such block if they are conveniently situated.

8. The village forests thus constituted will have to be demarcated and notified in the Gazette as required by Section 31 of the Forest Regulation before they are handed over to the management of the villagers. A set of rules (similar to those which are now in force with regard to district forests) will have to be framed under Section 32 of the said Regulation to guard against indiscriminate fellings and also to secure reproduction in such areas. Each raiyat may be permitted to plant as many trees as he wishes in such forest areas, the details of which should be entered in a special register to be opened by the village shanbhog. As a reward for his labor he may be allowed to take away annually the produce of such trees and also to cut and remove them after they are dead. The villagers in general will exercise in such forests the same privileges which they were hitherto enjoying in the district forests which may be closed after the formation of village forests. Every village forest should be thoroughly inspected and its productive capacity estimated and only so much of the annual yield is to be cut and removed by the villages during the year according to their requirements in case the yield is equal to the demand. If, however, the annual yield is insufficient to meet the requirements of the village, the individual concessions and privileges will be proportionately reduced. In short, the village forests should be managed according to working plans to be carefully thought out and prepared by competent officers.

9. The question of financing the scheme is an important one. Without due provision for the watch and ward of these forests and also for their conservancy, the scheme will be a thorough failure. As the raiyats cannot now-a-days be depended upon to contribute free labor towards the conservancy of village forests it seems desirable to levy a forest cess of one anna in the rupee in order to form a Village Forest Fund. The fees referred to in para I of the Government Order under reply should also be levied and credited towards the fund. In the maidan parts, the gollars and others rear a large number of goats and sheep, and realize good profits by their sale. The havoc done by goats to the tree-growth is immense, and I do not see any reason why the goat rearers should go untaxed while the agriculturists pay the "hulbanni" and grazing fee. I would therefore suggest as an alternative of the forest cess that a fee of one anna may be levied on each head of goats in villages where village forests are newly constituted and credited to the Village Forest Fund.

10. I now come to the last question, *viz.*, the constitution of the governing body. A panchayet has to be formed in all the villages where the village forests come into existence. The patel and shanbhog and two or three other leading raiyats selected by the villagers will constitute the panchayet under proper supervision and control. In the malnad parts where the villages are situated at long distances and the forests in inaccessible portions it will not be possible for the Amildar to inspect the village forests even once a year. I would, therefore, suggest that a special forester should be appointed for each malnad taluk to

Revenue (Forest), dated 22nd August 1913.

effectually supervise the village forests and that in the maidan portions the work of supervision might be entrusted to the Amildar for the present.

11. The opinion contained in the above paragraphs is based largely on the reports furnished by the District Forest Officer and the Amildars who have consulted the leading raiyats in their taluks. I think the scheme is workable on the lines indicated in the above paragraphs and that it can be gradually developed along with the Tank Panchayet Scheme newly introduced.

---

(9)

Letter No. C. 26, dated the 14th August 1913. from P. F. Boering, Esq. Offg. Deputy Commissioner, Kolar District, to the Secretary to the Government, of Mysore, General and Revenue Departments, Bangalore.

With reference to your No. R. 951-60—Ft. 187-07-3, dated 13th August 1910, calling for my opinion on the subject of forming village forests, I have the honor to state as follows:—

2. Under the existing arrangement, the district forests include all unassessed and assessed but unoccupied lands, as well as all lands assigned for free grazing. The management of these forests is in the Revenue Department in accordance with the rules contained in Government Notification No. 245-1300, dated 2nd October 1901, and no steps have been adopted for effecting improvements either by the Revenue or Forest Departments, for the chief reason that there is no recognized staff to attend solely to this work in the former department, and the latter department has sufficient work of its own to attend to in connection with State Forests and those to be newly opened in addition to the plantation, etc., under its control. Apart from the above, there is not sufficient co-operation among the villagers whose interests are directly involved in the improvement of such forests, and there are no decided rules for their guidance. Even if there were such rules, it is very doubtful if the villagers would attend to them as they are so careless of their own collective interests, as may be noticed everywhere in the State of their many tanks which they have allowed to get into an almost hopeless condition.

3. The present state of the District Forests is far from satisfactory, as no attempt has been made by anybody to replant and improve the growth of trees, even close to village sites.

4. The work of conserving the areas to be allotted to the village forests, I do not think, under present circumstances, could be with advantage, entrusted to the villagers, who are not yet sufficiently advanced to look after the same without supervision by Government agency. The raiyats will no doubt come forward when they become actually aware of the advantages to be derived by looking after their village forests themselves and the beneficial results that can be achieved by co-operation.

5. It is very necessary both in the interests of the State and the raiyat population, that the growth and the reproduction in the district forests should be improved, for which end early measures should be adopted, otherwise it is feared that the country will become denuded of trees.

6. It is not quite easy to see how this work is to be carried out without any separate staff. As remarked before, it is doubtful if the village communities will attend to it. I would therefore suggest that in the first instance, the Forest Department may be asked to do so until the raiyats have been sufficiently educated in the matter, when the forests may be handed over to their panchayets.

7. There are abundant chances for experimenting upon this scheme successfully in Sidlaghatta, Srinivaspur, Chintamani, Bagepalli, Mulbagal, Kolar and Malur Taluks, where there are large extents of unassessed and unoccupied lands which are reported to be fit for the purpose.

8. The proceeds of the minor forest produce including hulbanni of such areas may be sold annually, and credited under a separate head to form a fund to be called "The Village Forest Fund", the same being utilized for improvement to the forests, replanting, etc.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (General Finance), dated 18th August 1913.

READ—

Letter No. 8422—T. A. M. 1593, dated the 12th June 1913, from the Comptroller to Government, stating that charges on account of freight and shipping of articles purchased by the departments under Government, although not mentioned in the estimates of the cost of the articles sanctioned by Government, are being admitted by him in audit, as they have necessarily to be incurred and paid; and suggesting that as there are no definite rulings on the point, the officers submitting the estimates may be instructed to include therein the approximate charges on account of freight and shipping, etc.

No. FL. 883-931—G. F. 27-13-2, DATED BANGALORE, 18TH AUGUST 1913.

ORDER THEREON.—The suggestion of the Comptroller is approved. Heads of Departments are requested to include in the estimates of cost of articles to be purchased, submitted for the sanction of Government, the charges on account of freight and shipping, etc., if such charges can be stated approximately, and if that is not possible to state clearly in the estimates that the cost is exclusive of such charges. In the latter case, the Comptroller is authorised to admit subsidiary charges for freight, shipping, etc., without further sanction of Government, if there is budget provision therefor.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (General Finance), dated 23rd August 1913.

No. Fl. 1105-55—G. F. 30-13-1, dated Bangalore, 23rd August 1913.

Order.—Instances have come to the notice of Government that Postal money order acknowledgments signed by the payees are accepted by disbursing officers in full discharge of claims preferred against Government. Such acknowledgments, though exempt from stamp duty and quite valid as proof of payment, are defective in one essential respect, since they do not exhibit the items for which payments are acknowledged.

2. As under Section 30 of the Stamp Regulation every person receiving money exceeding Rs. 20 is liable to give a duly stamped receipt therefor whenever demanded, Government direct that in order to meet the requirements of audit all the disbursing officers in the State having money transactions with the public on behalf of Government should obtain apart from Postal money order acknowledgments, valid receipts or vouchers from the payees, prepared in accordance with the instructions contained in Articles 6 and 9 of the Civil Account Code, Vol. I.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Memo No. B. and R. 6, dated the 3rd July 1913, from the Comptroller, submitting the Appropriation Report on the accounts of the Government of His Highness the Maharaja for 1911-12.

No. FL. 1156-204—G. F. 2-13-3, DATED BANGALORE, 23RD AUGUST 1913.

ORDER THEREON.—*Due date.*—The report was due in the Secretariat by the 15th May 1913, but was published by the Comptroller as a supplement to the *Mysore Gazette* of 19th June 1913, or a month later.

2. *General Review.*—Government note that the anticipated deficit of 3,29,000 in the budget has been converted into a surplus of 18,89,000 due to increased revenue and less expenditure. The improvement in revenue was contributed by all the heads of revenue, except interest, and the decrease on the expenditure side was chiefly in the salaries and expenses of Civil Departments, miscellaneous civil charges and construction of railways.

3. *Objectionable items.*—The attention of Heads of Departments is particularly invited to paragraphs 16 and 17 of the report. Cases of delay in the submission of detailed bills and vouchers should be promptly and strictly dealt with by controlling officers and delay in countersigning officers' own offices should be avoided.

The irregular practice of drawing money from the Treasury in excess of actual requirements or when not actually required for immediate payment should be scrupulously avoided, and the rules on the subject should be strictly adhered to.

Prompt audit of public expenditure being of very great importance requisitions from the audit office should be attended to without the least delay.

4. *Administrative audit.*—The Comptroller fears that administrative audit of Government expenditure by departmental officers and countersigning officers are done in a mechanical manner and as a matter of course. Government trust that departmental officers will devote their best attention to this portion of audit and that countersigning officers will exercise their checks in such a way that it will be real, efficient and effective.

5. *Appropriation audit.*—The expenditure during the year exceeded the budget grants therefor by 1,99,000. Part of this excess was met by reappropriation or subsequent sanctions. Expenditure amounting to 1,95,000 not covered by either additional grants or reappropriations and requiring sanction is shown in the following statement.

Major and minor heads of account	Amount of excess expenditure	Amount sanctioned or reappropriated from other heads	Amount requiring sanction	Reason for excess
	Rs.	Rs.	Rs.	
1 Refunds and Drawbacks—				
Excise	101	...	101	Heavy refund of excise revenue to maundars on account of settlement of arrear claims.
Stamps	6	...	6	
8 Stamps—				
Discount on sale of stamp paper and labels	3	...	3	
10 Charges against Mining Revenue—				
7 Miscellaneous	1	...	1	The excess was in the loss by exchange on remittances from London due to fluctuations in the rate of exchange.
8 Refunds	1	...	1	Due to some repayments of deposits by mining lease and license holders, which under the classification of years back, were credited to revenue and for the refunds of which no provision was made in the budget.
12 Interest on other obligations—				
4 Refunds	4	...	4	On account of adjustments in 1911-12 of erroneous credits taken to interest instead of the principal of some loans in the accounts of the previous year.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Major and minor heads of account	Amount of excess expenditure	Amount sanctioned or reappropriated from other heads	Amount requiring sanction	Reason for excess
	Rs.	Rs.	Rs.	
15 General Administration—				
1 Dewan to His Highness the Maharaja...	4	...	4	Due to the salary of the Dewan for May 1911 having been drawn in 1911-12.
8 Comptroller's office	5	..	5	Due to the absence of the Comptroller on privilege leave and an officiating Officer being appointed in his place and also to the fact that on account of the retention of the permanent Financial Assistant Secretary in the Comptroller's Office the higher salary of this Officer was debited to this head and to increases under establishment due to progressive salaries and under travelling allowance and contingencies due to the formation of the Local Audit Department.
16A Law and Justice—Courts of Law—				
1 Chief Court	4	3	1	In consequence of the leave allowances of the Chief Judge who was on privilege leave in 1910-11, having been drawn in July 1911, instead of in the previous year.
5 Munsiffs' Courts	1	..	1	Due to the deduction on account of the Kolar Gold Fields Munsiff's Court charges transferred to the head "Charges against ruining Revenue" having fallen short of the budget by 1.
11 Share of Land Revenue charges ...	11	...	11	Is of a fluctuating character depending on the expenditure incurred under Land Revenue.
17 Police—				
1 Superintendence	22	...	22	Due to the adjustment of the State's share of the English furlough allowances for two years of Mr. Carr, a former Inspector-General of Police.
6 Railway Police	1	...	1	Due to men on higher salaries than the scale provided for in the budget having been told off for work in the Railway Police Sections.
8 Share of Land Revenue charges ...	2	...	2	
18 Education—				
3 Inspection	15	...	15	Excess under travelling allowance due to incorrect estimate of the requirements of the Inspectorate in distributing for the first time in 1911-12 the grant for travelling allowances classified under miscellaneous.
21 Scientific and other minor Departments—				
7 Agriculture, Experimental Cultivation	3	1	2	Due to the advance taken by Dr. Coleman prior to his departure on privilege leave and deputation and to excess expenditure on experimental farms.
24 Superannuation allowances and pensions—				
2 Compassionate allowances	3	....	3	On account of the pension sanctioned to Mrs. Weir for four years from October 1911 at £50 per quarter after the demise of Mr. J. Weir, the late Inspector-General of Education.
25 Stationery and Printing—				
1 Stationery Depot	2	...	2	Excess for cost of printing paper and stationery for public Departments and charges for packing and carriage of stationery.
28 Miscellaneous—				
7 Special and unforeseen charges ...	3	...	3	On account of the pay and allowances of an Officer on special duty in connection with the demarcation of boundary between Mysore and South Canara.
27 Army—				
7 Miscellaneous charges	1	...	1	Due to the items classified as "Other Charges" having exceeded budget anticipations.
Total ...	199	4	195	

Financial (General Finance), dated 23rd August 1913.

The final passing in audit of the excesses amounting to 1,95,000 is hereby ctioned.

J. S. CHAKRAVARTI,
Financial Secy. to Govt.

To—The Comptroller, Mysore Government.
The other Heads of Departments.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Legislation), dated 8th August 1913.

READ—

Letter No. 2845, dated the 28th May 1913, from the Chief Inspector of Explosives in Mysore, forwarding his report for the year 1912.

No. J. 458-66—LEGIS. 41-12-2, DATED 8TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. The percentage of inspection of licensed premises by District Officers in 1912 compares somewhat unfavourably with that in the previous year. Government think it necessary that District Magistrates should arrange that all licensed premises should be inspected once a year and should furnish explanations if there is deficiency in their inspection work.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Chief Inspector of Explosives in Mysore.
The District Magistrates of Districts.

Exd.—C. R.

"Forwarding reports on the working of the Mysore Factories Regulation, 1892, and Rules thereunder, in their several districts."

No. J. 408-15—LEGIS. 37-12-9, DATED BANGALORE, 6TH AUGUST 1913.

ORDER THEREON.—The number of factories in the State increased from 7 in the previous year to 11 during the year under report, 3 new factories in the Chitaldrug District and 1 in the Bangalore District having been brought under the operation of the Regulation during the year.

2. In the Woollen and Cotton Manufacturing Co., Ltd Bangalore, it is reported that no separate certificate is maintained for each child and that the date of discharge of children is not noted. The District Magistrate, Bangalore District, is requested to bring these omissions to the notice of the manager of the factory and to have them rectified.

3. Except in the case of the Mills of the Mysore Spinning and Manufacturing Co., Ltd., the sanitary conditions prevailing in all the factories in the State are reported to be satisfactory. It is to be regretted that the District Magistrate of Bangalore took no steps to remedy the defects noticed in paragraph 3 of Government Order, dated 21st December 1912, *viz.*, the inadequacy of water-supply, the unsatisfactory arrangements for its distribution and the deficiency of ventilation in the weaving room in the Mills of the Company. He is now requested to take such prompt action as may be necessary under Section 15 of the Regulation and submit a report to Government.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The District Magistrates of Districts.

From the District Magistrate, Kolar District, dated 21st January 1913.

I have the honor to submit herewith the following report for the calendar year 1912, on the working of the Factories Regulation, IV of 1892, and the Rules thereunder.

2. The Sugar Factory at Goribidnur as stated in the last year's report is the only factory in this district, coming under the purview of the Regulation. The South India Industrials, Limited, are proprietors of the factory and Mr. J. Cromwell continued to be their agent at Goribidnur and was in immediate charge of the working and internal management of the factory during the year.

3. *Working days and shifts.*—This factory was exempted by Government in Notification No. J. 1097—Legis. 9-12-2, dated 14th October 1912, from the operation of Section (5B) (1) of the Factories Regulation which prohibits the employment of Sunday labor in factories. The number of shifts continued to be the same, *i. e.*, four each of 6 hours duration.

4. *The fencing of machinery, etc.*—The factory is worked by a steam engine of 100 horse power and all the machines and mill gearing are fenced properly. The statement herein enclosed shows the daily average number of operatives of both the sexes namely 137 males and 16 females, against 148 males and 12 females in the previous year. The maximum period during which women are made to work in the day is 10 hours with an interval of 2 hours. They are not allowed to work at nights.

* Printed as annexures to this order.

Proceedings of the Government of His Highness the Maharaja of Mysore,

5. *Sanitary arrangements.*—The sanitary arrangements in the factory and its precincts are reported to be satisfactory and the general health of the employees to be good.

6. *Accidents and prosecutions.*—There were no prosecutions instituted during the year as the 3 accidents which occurred were all reported as due to the carelessness of the operatives themselves.

7. *Inspections.*—I inspected the factory on the 18th April 1912, during my inspection tour and found everything satisfactory. It was also twice inspected by the Local Magistrate during the year.

8. The statement prescribed by Government is submitted herewith.

Statement to accompany the annual report on the working of the Sugar Factory at Goribidnur, Kolar District, for the calendar year 1912.

Serial No.	Name and locality of the factory	Nature of industry	Nature of moving power	Amount of moving power	Average daily number of operatives employed						Total	Whether the factory is worked mainly (1) by shifts or (2) by midday stoppages or (3) otherwise	Whether a general holiday is ordinarily given (1) on Sundays, (2) varying week days or (3) whether factory is exempted under Section 5 B (2) (*c*) or (4) under Section 5 B (2) (*d*) or (5) otherwise worked	Number of accidents

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. 381—1, dated 8—11th March 1913, from K. Krishna Iyer, Esq., District Magistrate, Chitaldrug District.

I have the honor to submit herewith the following report for the calendar year 1912, on the working of the Factories Regulation, IV of 1892, and the Rules thereunder.

2. There are 6 factories in this district all situated in the Davangere Town, 3 of these having been recently brought under the Regulation (*vide* Government Notification No. J. 1071—Legis. 31-11-5, dated 9th October 1912).

3. Of the 6 factories, the Davangere Ginning Factory is said to have been under repairs and consequently not working for the greater part of the year.

4. All the factories are worked by Steam Engines with horse power varying from 16 B. H. P. to 146 I. H. P. the number of working hours in the factories vary from $9\frac{1}{2}$ to $11\frac{1}{2}$ hours with midday stoppages of $1\frac{1}{2}$ hours in each.

5. No children under 9 years of age were employed in any of the factories and the average number of adult male and female operatives employed each day is—

	Males.	Females.
The Rattanji Harmosji Factory	30	40
The Davangere Ginning Factory	16	23
Tadapatri Cotton Press Company, Limited ...	22	42
The Mahalakshmi Ginning Factory	16	30
The Shadaksharappa Ginning Factory	35	40
The Cotton Press Factory	30	50

6. The first three factories were inspected by the Amildar Magistrate in February and by the District Magistrate in January 1912.

7. The machines in all the factories are properly fenced. The water-supply and sanitary arrangements generally are satisfactory as also the general health of the operatives.

8. A slight accident was reported to have occurred to a female cooly in Rattanji Harmosji & Co., in the month of June 1912, resulting in some bruises on the hands and feet which were eventually healed up. Sundays are observed as holidays in all the factories.

9. There were no prosecutions during the year under report.

10. A statement showing the details of the working of the factories is attached hereto for reference.

Statement showing the details of working of the Factories in the Chitaldrug District during the year 1912

Judicial and Legislative (Legislation), dated 6th August 1913.

No. 363, dated 8th March 1913, from A. Subramanya Iyer, Esq., B.A., Deputy Commissioner, Kadur District.

I have the honor to report that during the past calendar year 1912, there were no factories in this district, fulfilling all or any of the conditions of the definition of the word 'factory" in Section 2 of the Mysore Factories Regulation, IV of 1872.

No. 501—S., dated 18th April 1913, from V. R. Thyagaraja Iyer, Esq, M.A., Offg. Deputy Commissioner, Tumkur District.

I have the honor to state that there are no factories in the district for a report being submitted as required by the Factories Regulation and the Rules framed thereunder.

No. 323—R. 172, dated 28th April 1913, from K. Srinivasa Row, Esq., District Magistrate, Shimoga District.

I have the honor to state that no factories as defined in the Mysore Factories Regulation and Rules framed thereunder existed in this district during the year 1912.

No. S. 582, dated 30th April 1913, from B. J. Kumarasami, Naik, Esq., B.A., Deputy Commissioner, Bangalore District.

I have the honor to state that the City Magistrate, Bangalore, was directed to inspect the marginally noted mills in company with the Health Officer, Bangalore City, and submit a report for the year 1912 as required in Government Order No. 853-69—J, dated 29th October 1903.

1. Mysore Spinning and Manufacturing Co., Limited, Bangalore City.
2. Bangalore Cotton, Woollen and Silk Mills Co., Limited, Bangalore City.
3. The City Brick and Tile Works, Bangalore City.

Copies of the reports of inspection together with those of the tabular Statement A giving all the details as to the working of the Factories Regulation received from the City Magistrate, is submitted herewith for the information of Government. Extracts from the City Magistrate's report have also been sent to Managers of the Mills to rectify the defects pointed out therein and submit report early for having done so.

2. In the year under report the "City Brick and Tile Works" was newly brought under the operations of the Factories Regulation.

Enclosures.

BANGALORE WOOLLEN AND COTTON MILLS.

Inspection Notes.

Register C.—The last inspection of children by the District Medical Officer was on 11th May 1912. Names of several children (about 60), I think not passed by the Doctor and therefere not entered in Register C are entered in Register D. The names of children admitted should be entered in Register C as soon as they are admitted.

The date of discharge of children means either the date on which they leave the mills, or the date on which they are treated as adults. The date of discharge of those who become adults is not being mentioned in Register C. One reason for not noting the date of discharge seems to be that if the same child leaves the mills for some time and comes again, a fresh medical certificate will have to be obtained, if the date of discharge is shown. This is not how I read Rule 15 of the Factory Rules. If a separate medical certificate is obtained for each child, as required by the rule, the child will take the medical certificate when it leaves the mills and will bring it back if it re-enters service in the mills. The date of discharge should be entered in the column provided for the purpose.

Register D.—This register is kept so as to have at each opening entries of one week as required by the prescribed form, but the entries appear to be made once a week and not every day. The age and sex are not entered in Form D in the columns provided for the purpose. The rate of wages per week and the amount earned are not entered; it is said that these entries cannot be made easily as the wages are paid monthly. The Register should be maintained according to rules. Register D shows that children work from 8 to 11 A.M. and then from 2 to 5 P.M. The actual hours of work are however said by the Manager to be from 6 A.M. to 12 noon and 1 to 6 P.M. the children working in the forenoon not working in the afternoon. But two boys (children) Nagaratnam and Sami who were examined by me say that they work both morning and afternoon. The Manager has promised to look into this matter and prevent a recurrence of such things.

Register E.—The hours of work for women are shown as 7 to 11-30 A.M. and 1 to 5-30 P.M.

Kannada translations of the rules and forms are kept hanging in neat frames as required by Rule 23 of the rules.

There were accidents on 3rd June and 27th June 1912.

In the latter case, the person injured was a child of 11 years old. Notice of the accidents should have been given to the City Magistrate and the Police Officer as required by the Rule 22.

I was very pleased to see a school maintained for the children working on the mills.

B. VENKOBA RAO,
City Magistrate.

Water-supply, ample and good.
Latrine, ample and satisfactory.
Ventilation and cubic space, satisfactory.

A. K. PANI,
Health Officer.

4-12-1912.

No. 188—one.

Copy forwarded to the District Magistrate, Bangalore, together with a detailed statement in Form A for information.

B. VENKOBA RAO,
City Magistrate

5-12-1912.

Notes of inspection of the Bangalore Woollen, Cotton and Silk Mills, Co., Limited, Bangalore

Register C.—It is not easy to compare this with Register D, to find out if any particular child working on the day of inspection has a medical certificate. Register C may be rewritten and brought up to date periodically. I think Col. 9 of Register C does not require the signature of the certifying surgeon, as he furnishes certificates in Form B. The names of children who have been newly admitted but have not yet been certified by the Surgeon should be entered in Register C.

Register D.—The columns that are not being filled up should be filled up; whether each child works in the morning or in the evening should be noted for each child.

The general note "from 6 to 12 A.M. and 1 to 6 P.M." is misleading.

Register E shows that women have been working for 10½ hours (*i.e.*) from 6 to 11-45 A.M. and 1 to 5-45 P.M.

Accident.—On the 16th December 12, at 2-30 P.M., one P. Perumal, a Paria aged 50, lost a finger by carelessness and was sent to the Victoria Hospital. The accident was duly reported.

B. VENKOBA RAO,
City Magistrate,
Bangalore.

18-2-1913.

The sanitary arrangements are satisfactory.

A. K. PANI,
Health Officer,
Bangalore City.

27-2-1913.

SUBMITTED.

Copy forwarded to the District Magistrate, Bangalore District, together with Form A.

B. VENKOBA RAO,
City Magistrate.

10-3-1913.

Judicial and Legislative (Legislation), dated 6th August 1913.

Notes of inspection of the Mysore Spinning and Manufacturing Co. Mills, Limited, Bangalore.

A file of certifying Surgeon's certificates has been kept from January 1913 under Rule 15. This is satisfactory. But Register C does not show the names of children employed recently and not yet certified by the Surgeon, there are 7 such boys. This is contrary to rules. It seems to be the practice to ask the certifying Surgeon to sign in column 9 of Register C. This signature is not required by the rules and it appears to have been secured for want of certificates in Form B.

Now that certificates in Form B are being maintained the entries in column 9 of the Register C should be made hereafter by the mill authorities themselves so that when it is necessary to rewrite the register on account of great changes in the personnel of the children employed, they can do so without the difficulty of having to obtain the Medical Officer's signature again. Of course the Medical Officer may initial the register anywhere if he likes it but what I say is that he is not bound to sign in the column. At present for want of the rewriting referred to, it is very difficult to compare Register C with the muster-roll of children kept in the mills. Even without rewriting, comparison of Register C with actual facts on day of inspection as in muster-roll should not be difficult, if discharges of boys are properly entered. It is said that children who go away, often come back for work. The remedy for this is to have a larger remarks column to note stoppages, leave, etc. It is said that a medical certificate will have to be obtained again if a child shown as discharged comes again. This is not how I read Rule 15. The old certificate will be still useful when the child returns to work, if the mill authorities only satisfy themselves about the identity of the child. Register D shows that children work from 6 A.M. to 12 noon and 12-30 P.M. to 6-30 P.M. My remark in the last inspection note that the rest under Section 7(4) of the Regulation should be given not at the end of 6 hours but before 6 hours, is not shown to have been given effect to. Arrangement should immediately be made to give rest to children before the expiry of 6 hours.

There was an accident on the 25th January 1913 by which Nanjamma, a Hindu female, aged 22, had her right hand injured by a fan blade. It is said that the accident was due to carelessness and that the injured person was sent to Victoria Hospital. Notice of the accident was given only to the District Magistrate but should also have been given to the City Magistrate under Rule 22.

I found one Dharmalingam, a boy working in the weaving section. He says he has been working for the last 2 or 3 years in the mills. Although he may be now above fourteen, it seems he may have been less than 14 when he entered the service of the mills. No certificate has been taken out for him on the ground that he is above fourteen. I think that in cases near the border line, the mills ought to insist on certificates.

The phrase above 'fourteen years' used in Sections 4 and 5 of the Factories Regulation shews, I think, that medical certificates ought to be taken in cases near the border line even if the persons should turn out to be slightly above fourteen. The mills should at once act upon this view of mine with regard to all the persons, near the border line.

B. VENKOBA RAO,
City Magistrate,
Bangalore.

10-2-1913.

Water-supply and ventilation of weaving room are still unsatisfactory as previously reported.

A. K. PANI,
Health Officer,
Bangalore City.

No. 336—En. 1, 27-2-1913.

Copy submitted to the District Magistrate, Bangalore, together with Form A.

B. VENKOBA RAO,
City Magistrate.

10-3-1913.

2-5-1913.

The City Brick and Tile Works is not notified under Section 14 of the Factories Regulation.

Having heard that it was a factory, I made an inspection on the 7th December 1912, and finding that steam power was used and that there was a large number of persons working, I gave a notice that the Factories Regulation and Rules should be at once followed.

To-day I made a formal inspection with the Health Officer. The Manager has no copy of the rules under the Factories Regulation. He has been asked to send a clerk at once to the City Magistrate's Court to take a complete copy. Copy of the rules in English and Kannada should be kept hanging in a conspicuous part of the Factory as per Rule 23.

One hundred and sixty-six children have been examined by the District Medical Officer, after my visit on 7th December 1912. 158 were passed and 8 were rejected as being underage. There are a few more boys to be examined. It is said that the District Medical Officer will examine them by about the beginning of next month. A file of certificates in Form B is to be kept under Rule 14.

Registers C, D and E are to be opened. Notice F is to be maintained as per form Rule 17 (2).

There appear to have been no accidents since 7th December 1912.

A detailed statement in Form A is herewith attached.

B. VENKOBA RAO,
City Magistrate.

18-1-1913.

Cubic space, ventilation, water-supply, and latrine accommodation are satisfactory.

A. K. PANI,
Health Officer,
Bangalore City.

1-2-1913.

Copy submitted to the District Magistrate, Bangalore, for information.

B. VENKOBA RAO,
City Magistrate.

The South India Industrials, Ltd.

City Brick and Tile Works,
Bangalore,
10th December 1913.

The District Magistrate, Bangalore City.

In accordance with Mysore Factories Regulation, IV of 1892, Section 14, we beg to report *re* the abovenamed factory which we occupy, as follows :—

Name of Factory	... ...	City Brick and Tile Works
Place where situate	... ...	Kengeri Road, Bangalore City
Address for correspondence	...	As above
Nature of work performed...	...	Manufacture of tiles and bricks
Nature and amount of moving power	...	Steam Power, 120 H.P.
Name of person under whom Business of Factory is carried on	...	South India Industrials, Ltd. By the Manager Mr. B. Ivers.

Yours faithfully,
B. IVERS,
Manager.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letter No. 644-2, dated 7th May 1913, from A. Subramanya Iyer, Esq., B.A., District Magistrate, Mysore District.

I have the honor to submit herewith the following report on the working of the Factories Regulation, IV of 1892, and the Rules framed thereunder for the year 1912.

The Factory at Hunsur named Matheson's Coffee Works and Saw Mills is the only Factory registered in the district under the Factories Regulation of 1892. It comprises three departments, *viz.*, (1) coffee curing, (2) bone crushing for manurial purposes and (3) saw mills. The machine is worked by steam power. It is employed for curing coffee seeds during the coffee season, *i.e.*, from January to April and as a special case in December. During the other months of the year raw bones are crushed into powder for use as manure.

Strength.—The daily average number of operatives employed on the works was:—

Males	...	...	...	36
Females	...	...	...	20
Children	...	...	...	16
			Total ...	72

Hours of business.

The working hours are for males 7 to 12 A.M. and 1 to 5 P.M.
" " Females 7 to 12 A. M. and 1-15 to 5 P. M.
" " Children 8 to 12 A. M. and 2 to 5 P. M.

Sunday is invariably observed as a holiday. Thursday is observed as a half holiday on account of Shandy (or Sante). Children under 9 years of age have not been employed at all.

Guard against danger.—Only about 25 men are regularly employed on the machines and the others for cooly work. Women and children are not allowed to approach the machine. The moving parts of the machinery are carefully protected.

Sanitation.—The Amildar Magistrate reports that drinking water is supplied freely to the men at work.

The latrine accommodation is good and is kept clean.

Accident.—There was a minor accident during the year. A cooly injured his hand slightly in the saw mills and he got all right in a few days.

Returns.—The prescribed returns are being submitted regularly to the District Magistrate.

Inspections.—The factory is reported to have been inspected once by the Taluk Magistrate and once by the Sub-Division First Class Magistrate, Mysore, during the year under report.

The working of the Factory on the whole may be said to be good.

This report was delayed with a view to its submission to Government along with reports of the District Medical Officer and the Mysore Sub-Division Officer. These reports since received are herewith submitted.

No. 2674-1, dated 2nd May 1913, from C. Rajaram Rao, Esq., District Medical Officer, Mysore District, to A. Subramanya Iyer, Esq., B. A., District Magistrate, Mysore.

With reference to your No. 7638, dated 24th April 1913, I have the honor to report that I inspected the Matheson's works at Hunsur on the 30th April 1913.

1. Number of persons at work—men 41, women 20, boys 12 and girls 13.
2. Daily average adults children above 9 years, males 33, females 14, male 14 Female 9. They are all fit for work and healthy.
3. Working hours for men 7 to 12 A.M. and 1 to 5 P.M.
   For women 7 to 12 A.M. and 1-15 to 5 P.M.
   For children 8 to 12 A.M. and 2 to 5 P.M.
4. Nature of work is chiefly cooly work. A few men work machines.
5. They work 5 days in a week (no work on Sundays and Thursday afternoon).
6. Notices showing the working hours are hung up.
7. There are a coffee mill, a saw mill and a bone crushing mill. The power used is steam.
8. Moving parts of the machine are properly protected.
9. Number of accident last year is nil excepting one minor injury.
10. Local Medical Officer inspects the factory occasionally.
11. Latrines are kept clean. Night soil, etc., are properly disposed of.

Judicial and Legislative (Legislation) dated 6th August 1913.

12. The drinking water is supplied to the work people.

The copy of the rules *re* Factories Inspection is returned herewith.

No. 5051, dated 2nd—5th May 1913, from K. Mylar Rao, Esq., B.A., B.L., Assistant Commissioner, Mysore Sub-Division, to A. Subramanya Iyer, Esq., B.A., Deputy Commissioner, Mysore District.

With reference to your docket No. 7109, dated 29th March 1913, calling for a repor under the Factories Regulation, I have the honor to submit herewith the same.

INSPECTION NOTES.

1. *Works carried on.*—The factory in Hunsur town known as "Matheson's coffee works, saw mills, and engineering and motor works" was inspected by me this morning (2nd May 1913). It carries on the following works:—

1. Coffee curing from December to end of April generally.
2. Bone crushing throughout the year.
3. Tonga building
4. Motor and mechanical engineering.
5. Furniture making and joinery work.

The works described in items 1 and 2 however are the main works carried on in the Factory. The moving power employed is steam, 30 N. H. P.

2. *Operatives.*—The number of persons at work on this day according to fixed hours of employment were:—

1 Adults	...	(*a*) Male	41
	...	(*b*) Female	24
2 Children	...	(*a*) Male	14
		(*b*) Female	16

The children are employed on light work, such as affixing labels to tins, carrying coffee seeds, beating them, etc. They were all mustered, none of them appeared to be under nine years of age. Besides the above, there were a hundred and forty women and girls garbling coffee seeds, and paid according to the quantity of work turned out. Some of these girls were under nine years of age. It was said that they had come with their mothers as there were none else to take care of them at home and were helping them in the piece-work they were engaged in.

3. *Hours of work.*—The hours of work are as given below:—

Males ...	7 A.M. to 12 noon and 1 P. M. to 5 P.M.
Females ...	7 A.M. to 12 noon and 1-15 P.M. to 5 P.M.
Children ...	8 A.M. to 12 noon and 2 P.M. to 5 P.M.

Thus the number of hours for which adult males are required to work is 9 with an interval of rest of one hour. The number of hours for adult females is 8½ with an interval of rest of 1½ hours and the number for children is 7 with an interval of rest of two hours after four hours of work. It is said, however, that the operatives generally come for work at 8 A.M. and leave at 5 P.M.

4. *Holiday.*—The factory is closed on Sundays. A half holiday is given on Thursdays on account of the *sante*. If on account of any emergency, a person works on a Sunday, it is said that he is given a holiday on the next day. Ordinarily, there is no overtime working.

5. *Registers.*—There is only one register maintained and that is the muster-roll. It shews the names of the men, women and children employed every day and the number of hours they actually worked. A week's account is thus shewn on one page and also the remuneration paid to the person at the end thereof. No separate registers are maintained in the prescribed Forms C, D and E. Though the muster-roll maintained may be taken as substantially equivalent to the weekly muster Registers D and E it is very necessary that a register should be separately maintained in Form C in respect of all children admitted to employment in the Factory. A form of this register may be sent to the Manager and he may be required to maintain a register in that form.

6. *File of certificates.*—It is said that no certificates have been obtained. The Sub-Assistant Surgeon, Hunsur, is paid Rs. 15 a month by the Factory for attending on coolies. He is said to be consulted and his opinion taken as regards the age of boys and girls.

7. *Notices.*—A notice is put up at the entrance to the Factory showing the hours of work. No copy of the rules and forms is put up as required under para 23 of the Rules under the Factory Regulation.

Proceedings of the Government of His Highness the Maharaja of Mysore,

8. *Accidents.*—There was one accident in 1912 in which a man got his hand injured on account of having meddled with a sawing machine. This was duly reported to the District Magistrate.

9. *Fencing.*—The parts of the machinery in the Factory which are dangerous are securely fenced.

10. *Sanitation.*—The premises of the factory are well kept. The rooms and the hall where the operatives work are all well ventilated. There is a pipe put up within the factory, from which water is taken by the men for drinking and washing purposes. Suitable and sufficient latrines are provided for males and females separately.

11. *General.*—The factory is well managed.

2-5-1913.

No. 389, dated 15th May 1913, from P. R. W. Wetherall, Esq., Deputy Commissioner, Hassan District.

I have the honor to state that there are no Factories in this district under the Mysore Factories Regulation, IV of 1892. Hence there is no annual report to be submitted on the working of the same.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Courts), dated 19th August 1913.

No. J. 588-97 – Cts. 313-12-3, dated Bangalore, 19th August 1913.

Order.—It has come to the notice of Government that sums received under Government Order No. 13996-14004—J. 1707, dated 12th June 1899, for expense of executing warrants issued in British India under the Breach of Contract Act are at present being credited to Government as they are received. As this practice is incorrect and inconvenient, District Magistrates are requested to instruct the subordinate Magistrates to have all such amounts credited in the Treasury as deposits and finally charged after the service is made.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The District Magistrates of Districts.
The Registrar, Chief Court.
The Comptroller, Mysore Government.

READ—

Letter No. 904, dated the 25th July 1913, from the Revenue Commissioner in Mysore, forwarding a copy of the Mysore Deputy Commissioner's letter No. 1022, dated the 16th June 1913, transmitting the accompanying report on the cattle show held at Chunchinkatte, Yedatore Taluk, in January 1913.

No. 1686-91—L. B. 34-13-7, DATED BANGALORE, 7TH AUGUST 1913.

ORDER THEREON.—Recorded, with the observation that the congregation of people and the collection of cattle at this show were less than in the previous year and that the decrease was partly due to the prevalence of plague and cholera in the neighbourhood and partly due to the holding of similar shows in the surrounding places.

2. The Deputy Commissioner is requested to submit definite proposals on the matters referred to in para 10 of the Amildar's report.

3. The long delay in the submission of the report should have been avoided.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Comptroller to Government.
The Superintendent, Muzrai Department.
The Deputy Comissioner, Mysore Distric
The Director of Agriculture in Mysore.
The Compiler, *Mysore Gazette*, for publicat.....

REPORT OF THE CHUNCHINKATTE JATRA AND THE CATTLE SHOW FOR THE YEAR 1912-13.

The jatra began on the 10th January and continued till about the end of the month.

The congregation of people this year was not so large as that of the previous year. This is partly due to the prevalence of plague in two or three villages in the neighbourhood and partly due to the prevalence of cholera in other taluks of the district from which large gatherings of people and cattle were used to come.

The number of people assembled for the jatra this year was estimated to be 15,000 as against 20,000 in the previous year.

The number of cattle collected in the exhibition ground (Hori Mala) was according to the contractor's receipts 13,197.

2. A Committee was formed consisting of three non-officials, *viz.*, Messrs. Bale Basavanna, Halayur Venkategowda and Mavathoor Kemparaj Urs and three officers of the district and taluk, *viz.*, the Sub-Division Officer, Amildar and the Inspector of Cattle Diseases, the Sub-Division Officer Mr. K. Mylar Rao, B.A., B.L., being the President of the Committee.

3. The number of cattle brought for the exhibition was nearly 100, of which 20 were selected by the Committee.

4. The classification age, etc., of the cattle for which prizes are awarded are shown below:—

Statement showing the prizes awarded for the cattles during the Chunchinkatte Jatra in the month of January 1913.

Serial No.	Prize No.	Particulars of cattle	Name of the cattle owners	Village	Amount
1	2	3	4	5	6
					Rs.

18	2	Hallikar Hasu	Nanji Gowda	Dammalingala	5
19	1	Do	Gayab Sabi	Kattemalalvadi, Hunsur Taluk	10
20	1	Nadu Hasu	Ningaraj Urs	Mavathoor	10
					165

The Sub-Division Officer Mr. K. Mylar Rao, the District Police Superintendent Mr. C. Devaraj Urs, the District Health Officer Mr. B. Krishna Rao and the District Veterinary Inspector Mr. R. N. Patankar were present and attended the cattle show.

5. Twenty prizes and certificates were awarded to the owners of these cattle.

The Deputy Commissioner Mr. K. Chandy was kind enough to take part in distributing the prizes and awarding certificates to the owners of the best cattle.

6. Arrangements made for picketing the cattle in the Hori Mala to the south of the temple of Sri Ramadevaru were such as to ensure order and convenience to the cattle owners and purchasers. This Hori Mala includes Government waste land and several holdings of the raiyats who for the sake of manure usually consent to the cattle being picketed in their fields. Several roads are laid out, stones being fixed on each side of the road. It was also arranged to remove manure every day so as to have the best possible sanitation to both the people and cattle. The site is a large plot of ground well suited from all points of view. The river is close by so that there is no difficulty for water-supply. Necessary arrangements were made for washing the cattle in the river below the temple so that people may take water higher up and uncontaminated.

7. The total realisation from all sources amounted to Rs. 4,491-7-11. The sources are fees on cattle, sale of manure, shop tax and golaka. The right of collecting tax on cattle and the ground rent on different kinds of shops, etc., were sold by auction for Rs. 4,550-0-0 and the whole amount of contract was recovered and credited to temple funds. The right of collecting manure was also sold for Rs. 360.

8. The total expenditure amounted to Rs. 165 plus 95-260, Rs. 165 being the amount of prizes awarded for the cattle and Rs. 95 for sanitation, *viz.*, constructing privies, payment to sweepers, etc. These were met from District Fund (*vide* order cheque No. 99-226—23-12-13 for Rs. 200). Out of temple funds Rs. 46-7-3 for temple road repairs, Rs. 37-2-9 for whitewashing the temple, etc., Rs. 128 for Rathotsavam were spent. The statement will give the items in detail.

Local Fund and Sanitary (Local Boards), dated 7th August 1913.

Expenditure.

	Rs.	a.	p.		
	165	0	0	being the prizes awarded for the cattle.	Muzrai Funds.
	95	0	0	for payment to sweepers, etc., were met from District Funds.	
	46	7	3	for temple road repair.	
	37	2	9	for whitewashing the temple.	
	128	0	0	for Rathotsavam as per scale.	
	10	0	0	for repairing drums.	
	48	12	0	for repairing the car.	
Total ...	530	6	0		

Note.—Out of Rs. 200 received by District Fund cheque only Rs. 165 were spent and the balance credited to District Funds.

9. The jatra was on the whole smoothly managed without any trouble either to the cattle or to the people. The price of cattle was slightly higher this year than in the previous year owing to insufficient collection to meet the large demand of purchasers. This insufficient collection was due to (1) several cattle shows newly held in the surrounding places, *viz.*, Ramanathpur, Hassan and other places, (2) purchases made before the jatra by outsiders in several villages of the district.

The people and cattle enjoyed good health during the jatra and there was no disease of any kind.

10. It is observed that large realisations are made in favour of the temple but no proper accommodation and convenience is given either to the cattle or to the public. No shelter is available to the cattle.

It would be convenient to plant topes and construct mantaps by the road side so that both men and cattle may be protected from exposure. The present allotment for sanitation is too small to give proper convenience to the large number of people who attend the jatra.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The accompanying report on the Cattle Show and the Industrial and Agricultural Exhibition held at Maddagiri on the occasion of Dandina Maramma's Jatra during March 1913, received from the Deputy Commissioner, Tumkur District, through the Revenue Commissioner in Mysore.

No. 1675-9—L. B. 34-13-5, DATED BANGALORE, 7TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with satisfaction that the idea of organising the Cattle Show and Exhibition emanated from the leading non-official gentlemen of the town and that the Show, the first of its kind held at Maddagiri, was a great success.

3. It is gratifying to observe that the lectures and the demonstrations relating to agricultural subjects and to the diseases of cattle and plants were much appreciated by the assembled raiyat population.

4. The thanks of Government are due to the Officers and non-official gentlemen whose assistance contributed to the above satisfactory results.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore, with reference to his letter No. 833, dated the 24th July 1913.

The Deputy Commissioner, Tumkur District, with the observation that the directions contained in para 4 of Government Order No. 7007-24—L. B. 189-09-3, dated the 22nd February 1911, should have been complied with.

The Comptroller to Government.

The Director of Agriculture in Mysore.

The Compiler, *Mysore Gazette*, for publication in the Gazette.

REPORT ON THE CATTLE SHOW AND THE INDUSTRIAL AND AGRICULTURAL EXHIBITION HELD AT MADDAGIRI, DURING MARCH 1913, ON THE OCCASION OF DANDINA MARAMMA'S JATRA.

I. At a meeting held in the Taluk Office, Maddagiri, on 27th November 1912, Mr. Ramaswamiyer, Pleader, was elected as the President of the Committee and a list of the gentlemen elected as the members of this Committee is appended to this report and most of these members form the members of the Taluk Agricultural Association.

II. About 4,000 cattle were exhibited and 10 kinds of industrial and 25 kinds of agricultural products with their several varieties were exhibited.

III. About 630 cattle as per particulars shown in the annexed statement were selected and out of these 14 pairs and 20 single cattle succeeded in winning prizes.

IV. There were assembled on this occasion breeding bulls, ploughing bulls, draught bullocks, dawk bullocks in pairs, single bullocks, milking cows with calves, single cows, best calves in pairs and also in singles, buffaloes, goats and rams. The cattle consisted of Hallikar, Bettadadana, Valagra, Amrut Mahal and Gujja Madu. Their sizes varied from 2 feet to 4½ feet.

V. Thirty-five prizes for agricultural exhibits and 7 prizes for the industrial exhibits, 12 first prizes, 19 second prizes, and 3 third prizes for the best cattle exhibited and 4 prizes for the ploughing competition were awarded.

VI. The tope in front of Dandina Maramma's temple was selected for holding the Agricultural and Industrial Exhibition and two sheds were put up, one for exhibiting the industrial and agricultural exhibits and the other for exhibiting the marginally noted agricultural implements which were kindly sent here by Dr. L. C. Coleman, M.A., PH.D., Director of Agriculture in Mysore. At a small distance from the said tope to the south, cattle show was held.

(1) Kolar mission plough.
(2) Venity plough.
(3) Winnower.
(4) Chaff cutter.
(5) Lever Harrow.

This year, the collection of cattle being about 4,000, the need for the supply of water was not felt as there was a good supply of water from the talaparige leading from the Cholenahalli tank bed and from its *Kodihalla.* The channel leading from the Talaparige referred to above runs in an eastern direction close to the sheds put up. In the Kodihalla of the said tank, there are two hondas dug by the public and at a little distance from these, there is a katte known as "Rangegowdankatte," and this contains a good supply of water. The construction of a permanent deep tank in the said Kodihalla near the place of cattle stand is under contemplation and may come into existence shortly.

VII. No fees were levied on cattle coming to the exhibition as the members of the Committee resolved that the levying of fees in the first year of the exhibition would not be advisable.

A sum of Rs. 213-3-0 was collected by private subscriptions and Rs. 150 was received from the President of the District Board.

VIII. A sum of Rs. 158 was awarded for the prize of cattle (including goats and sheep) and a sum of Rs. 71 was awarded as prize for the industrial and agricultural exhibits and a sum of Rs. 30-3-0 was incurred on account of sundry expenses passed by the Committee. The balance of Rs. 104 was credited to the treasury under District Funds on 5th April 1913

IX. The following gentlemen favoured the show with their kind presence:—

(1) Mr. V. R. Thyagaraja Iyer, M.A., Deputy Commissioner.

(2) Mr. A. Chatterton, Special Adviser for Industries and Commerce.

(3) Mr. C. S. Balasundaram Iyer, B.A., Secretary to the Mysore Economic Conference.

(4) Mr. L. C. Coleman, M.A., PH.D., Director of Agriculture.

(5) Mr. Ranganatha Rao Sahib, B.A., B.L., Secretary to the Committee for Industries and Commerce.

(6) Mr. P. S. Govinda Rao, District Forest Officer, Tumkur.

(7) Mr. T. Abdul Khader, B.A., Amildar of Sira.

(8) Mr. Davies.

The show commenced from the 22nd and terminated on the 26th March 1913, and efficient police arrangements were made.

Kannada lectures were delivered in the evenings to the assembled raiyat population on the following subjects:—

(1) Insect pests and plant diseases by Mr. Ranganatha Rao, Agricultural Inspector.

(2) Object of manuring and manures by Mr. Govinda Rao, District Forest Officer.

(3) Education, Agriculture and Co-operation by Mr. Narasimhaiengar, B.A., B.L., Munsiff.

(4) Castration and cattle diseases by Mr. Krishniengar, Veterinary Inspector.

(5) Practical Agriculture in English by Dr. L. C. Coleman, M.A., PH.D., Director of Agriculture, and the same was delivered in Kannada by Mr. N. Narasimha Iyengar, B.A., B.L., Munsiff.

Mr. Ranganatha Rao, Agricultural Inspector, practically demonstrated before the assembled raiyats.

(1) Ploughing by Kolar plough with bullocks of different sizes.

(2) Chaff cutting by a Chaff cutter.

(3) Winnowing by the Winnower.

A tube well was sunk into the ground and its action was shown to the public.

Mr. Krishnaiengar, Veterinary Inspector and Mr. B. A. Rajaratnam Pillay, Sub-Assistant Surgeon, Maddagiri, practically demonstrated the scientific mode of castrating bulls and goats. This was much appreciated by the public.

It may be said in conclusion that the success of the show at Maddagiri was due to the energy, foresight, and help given by the Sub-Division Officer, Mr. A. Krishnasamy Iyengar, B.A., and the co-operation of the local authorities.

It may not be out of place to mention here that the present Deputy Commissioner Mr. V. R. Thyagaraja Iyer, M.A., and his predecessor in office, Mr. C. S. Balasundaram Iyer, B.A., evinced great zeal and sympathy towards the movement and contributed decent amounts for special prizes. This maidan success augurs well for the future and it is not far to presume that this cattle show will outbeat in the long run any other similar shows in the Tumkur District.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The accompanying reports of the marginally noted officers on the cattle show held at Hemagiri in the Krishnarajpete Taluk, on the occasion of the jatra of Sri Venkataramanaswami in February 1913, received with Revenue Commissioner's letter No. 785, dated the 23rd July 1913.

The Deputy Commissioner, Mysore District
The Sub-Divisional Officer, French Rocks Sub-Division.
The Amildar, Krishnarajpete Taluk.

No. 1680-5—L. B. 34-13-6, DATED BANGALORE, 7TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. It is satisfactory to note that the number of cattle collected at the show was nearly 25,000, being one and a half times the number for the previous year and that all the best Mysore breeds were represented.

3. A novel feature this year was the inauguration of a pony show which is reported to have evoked much interest.

4. Government are pleased to record their appreciation of the good work done by the non-official and official gentlemen who helped to make the fair a thorough success.

5. Government hope that the needful action regarding the improvement of the road from Krishnarajpete to Hemagiri and the extension of the musafirkhana at the latter place will be taken sufficiently early to be of use to the people attending the next jatra and trust that it would be desirable to give wide publicity of the holding of such shows in time to attract the best cattle in the adjoining British Districts also for competing with the Mysore cattle.

6. The photographs of the prize winners are awaited.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Superintendent, Muzrai Department.
The Comptroller, Mysore Government.
The Deputy Commissioner, Mysore District.
The Director of Agriculture.
The Compiler, *Mysore Gazette*, for publication.

Letter No. 1040, dated 5th June 1913, from the President, District Board of Mysore, to the Revenue Commissioner in Mysore, Bangalore.

I have the honor to submit herewith for transmission to Government copies of the marginally noted interesting reports on the cattle show held at Hemagiri in February 1913. It will be seen from the above communications that the show was a complete success, that satisfactory sanitary arrangements had been made, that the total number of cattle collected was 25,000, that 243 cattle were exhibited at the show and that 17 cattle were selected for awarding prizes. The total receipts during the year aggregated to Rs. 2,275 as per margin as against Rs. 1,075 in the previous year, thus showing an increase of Rs. 1,200. A sum of Rs. 100 was as usual contributed from District Funds towards the cost of awarding prizes and it is reported that a sum of Rs. 54-11-0 was raised by public subscription. A sum of Rs. 127-4-0 was spent on account of sanitary arrangements and this was met from District Funds.

(1) Krishnarajpete Taluk Amildar's report to the Sub-Divisional Officer.
(2) Sub-Divisional Officer's letter No. 404, dated 5th May 1913.

		Rs.
Cattle fees	...	1,820
Manure	...	230
Shop tax	...	225
Total	...	2,275

As regards the improvement of the road from Krishnarajpete to Hemagiri and the extension of the Hemagiri musafirkhana proposed by Sub-Division Officer, the subjects will be placed before the Board and necessary action taken in due course.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Letter No. 404, dated 5th May 1913, from the Assistant Commissioner, French Rocks Sub-Division, to the Deputy Commissioner, Mysore District.

I have the honor to submit herewith the very full and interesting report made by the Amildar of Krishnarajpete on the cattle show held at Hemagiri during the Sri Venkataramanaswami jatra this year.

The cattle fair is yearly gaining in importance and the number of cattle brought was fully 50 per cent more than in the previous year. All the best Mysore breeds were represented and the task of selecting the best in such a large number of really excellent and high class cattle was, by no means, easy. Great credit is due to the non-official gentlemen who officiated as Judges for selecting prize winners to the satisfaction of all the interests represented at the show. This result was in great measure due to the fact that the Judges chosen were in a manner representatives of the most important cattle breeding centres and were persons with an inherited expert knowlege of the subject. The Superintendent of the Civil Veterinary Department was on the spot and gave the Judges the benefit of his scientific knowledge and valuable experience.

3. The poney show which was inaugurated this year evoked much interest and competition and has evidently a future before it. It is trusted that it will give an impetus to the improvement of the class of animals maintained by subordinate executive and village officers.

4. A novel and very interesting feature of this year's function was the organisation of popular lectures bearing on all aspects of rural life by specialists in the subjects chosen.

5. The list of subjects and of speakers given by the Amildar in his report shows what a wide range was covered in these lectures; and it is with pleasure that I am able to report that all the lectures and specially those bearing on co-operation, agricultural and industrial development and the employment of machinery, were largely attended with every appearance of interest and appreciation.

6. The condition of the road from Krishnarajpete this year calls special attention to the necessity of having a good metalled approach to this important place of pilgrimage. I would also add that an extension of the musafirkhana at Hemagiri would meet the great and growing demand for accommodation.

7. The photograph of prize winners will be submitted so soon as they are received.

Report from the Amildar of Krishnarajpete on the cattle show held at Hemagiri, to the Sub-Division Officer, French Rocks Sub-Division, French Rocks, dated 16th March 1913.

I beg to submit the following report on the cattle show held at Hemagiri in connection with the car festival of Sri Venkataramanaswamy temple on the 13th February 1913, and the three following days.

(2) The report is in accordance with Government Order No. 7007-24—L. F. 189-09-3, dated the 22nd February 1911.

Committee of Management.—The following respectable gentlemen from this and the adjoining taluks were selected and formed into a committee of management. Their duties were to go over the cattle show ground and issue tickets to the owners of cattle which has to be admitted into the show ground.

The show ground was situated close to a beautiful pavilion and was barricaded all round with arecanut poles and bamboos to prevent promiscuous collection of cattle. The selected cattle were led into this area and the Committee of Judges decided by votes as to the cattle which deserved recognition and the order of merit was thereupon decided.

Local Fund and Sanitary (Local Boards), dated 7th August 1913.

II.

But of the 25,000 heads of cattle collected, the Committee selected the following as deserving of examination by the Judges.

Number of cattle exhibited.—

1. Agricultural bullocks	116
2. Breeding bulls	64
3. Calves	55
4. Cows	8
Total ...	243

All the Judges then went round the special enclosure where the selected cattle were gathered and selected the prize winners as approved of by majority.

III.

Number of cattle selected.—The following table shows the name and place of exhibitor, the cattle selected and their breeds, height, etc:—

Taluk.	Village	Name of exhibitor	Breed	Size	Age	Prize awarded
1	2	3	4	5	6	7
		Agricultural bullocks.		Ft. inch

Total ...	.....	.....	.....	...	...	Rs. 143-3-0.

IV.

Classification of cattle according to breeds, size, age, etc.—**From the above statement it will be seen that the best agricultural bullocks were from the Hallikara breed as five prizes were carried away by this class of cattle, and the next best was of Badagalu class.**

Sannamallige, Doddamallige, Padavalu, Bettadapura and Gujjumavu were also represented and comprised some good pairs though these classes could not secure a prize.

In the next class of breeders, the two first prizes have been won by Gujjumavu, while the other two prizes went to the Hallikara class.

Among calves also, the majority were from Hallikara and the first prize was secured by that class.

A special prize was instituted for cows and it was a Hallikar cow that won the prize :—

V.

The appended statement shows the number of prizes awarded	Number of prizes awarded and details of prizes.

VI.

Place of cattle show.—The camping ground near Hemagiri temple, which is a plateau gradually sloping away towards the river Hemavati, is a picturesque ground and is ideally suited for cattle shows. The river water is the principle temptation and source of convenience as so many heads of cattle require an incalculable quantity of water for washing and drinking. The sacred shrine of Sri Venkatarmanaswami and the comparatively early season of the year for cattle shows as by this time only Chunchankatte jatra will have taken place, is gradually bringing the show to greater importance year by year.

These natural advantages coupled with the funds kindly placed at my disposal by the President for sanitary arrangements enabled the sanitation being maintained in a very efficient condition. One imported case of cholera, however, dispersed the numerous crowd in less than six hours, and the trade which would otherwise have been very flourishing, completely ceased. This scarce and the constant rapid evacuation of the jatra, was, however, a matter of congratulation as the influx of people from the distant taluks had brought cholera contacts, and the disease would have spread further and wider, had the jatra lasted longer.

VII.

Total receipts, viz., from fees, private subscriptions and contributions.—The fees levied on cattle were farmed out to a contractor and realised Rs. 1,820, while the manure was sold for Rs. 230 and the shop tax fetched Rs. 225 or a total of Rs. 2,275 as against Rs. 1,075 in the year previous. The amount thus realised is far in excess of that required for prizes and that of sanitary arrangements, and the excess is being credited to Muzrai Funds under Rule 3 of Government Notification No. 7007, dated 22nd February 1911.

The amount sanctioned from District Funds for awarding prizes was Rs. 100, while private subscriptions collected were Rs. 54-11-0.

VIII.

Total expense incurred and how met.—Statement I shows the value of prizes awarded and the names of prize winners. It is gratifying for me to be able to report that the local gentlemen, Taluk and District Board members, contributed their mite ungrudgingly to make up the amount required for special prizes, as without them the large collection of cattle would not have had an adequate recognition of their claim. The annexed table shows the expenditure incurred on account of sanitation :—

	Rs.
Lighting	28 0 0
Watering charges	7 0 0
Conservancy charges	67 0 0
Miscellaneous	25 4 0
Total ...	127 4 0

Local Fund and Sanitary (Local Boards), dated 7th August 1913.

Out of Rs. 130 sanctioned, Rs. 127-4-0 were expended and the vouchers, etc., have been submitted with a separate report.

IX Remarks.

Concluding remarks including a comparison of the results of the show with those of the preceding year.—Compared with the previous year, the show was a grander one and more than 50 per cent cattle had collected as compared with the previous year. The feeding arrangements made at the car festival tempts large numbers of even the leisured class to visit this holy spot and to see the fair and the cattle market is steadily gaining prominence and reputation as a first class cattle mart.

A useful departure from the usual rule was made this year in inviting pony owners to exhibit their animals at the show. Being the 1st year there were about a dozen ponies at the show and a special prize worth Rs. 11-8-0 was given to the best country bred pony. The Tank Inspector got this special prize in the form of a bit bridle and reins. It is hoped that this incentive will induce others to come with their ponies in the future years.

There is but one drawback inasmuch as the road from Krishnarajpete to Hemagiri is not suited to this large and heavy traffic and a metalled road for these five miles appears to be a derideratum.

The pandal that had been put up in the centre of the show was mainly intended for delivering lectures to the assembled raiyats, and its usefulness was increased since. It also served as a place of recreation during the spare hours when the raiyats had no business on hand or during the hot hours of the day.

The invited gentlemen Messrs. N. Narasimha Iyengar, Veterinary Inspector, C. Seetharamachar, Assistant Engineer attached to Department of Industries and Commerce, M. Shamiengar of the Melkote Industrial School, Puttaswamiah, Inspector of Co-operative Societies, took great deal of interest in lecturing to the people, while the Sub-Division Officer was at the helm of management and guided the show with his advice and was not behindhand in impressing on the raiyats the necessity of improvement in the various directions which conduce to their welfare such as (1) education, (2) sanitary knowledge, (3) improved methods of agriculture, (4) breeding better and hardier varieties of cattle, (5) conservation of manure and lastly co-operation among themselves.

The annexed table shows the details of lectures delivered and the dates:—

13th morning.—Mr. Shamiengar—Industrial Development.
Mr. Krishna Sastri—The Regeneration of raiyats.
Mr. Byrappa,—Agricultural improvement.

14th morning.—Mr. Srinivasa Raghavachar—The sanctity of cows and cow breeding.
Mr. Shamiengar—Improvement of industry.
Mr. Puttaswamiah—Co-operation and its advantages.

14th afternoon.—Mr. Seetharamachar—How to improve sugar cane industry and lift irrigation.
Mr. N. Narasimha Iyengar—Prevention of cattle disease.
Mr. H. Krishnasastri—The moral progress of raiyat classes in recent years.

General Remarks.—Before closing the report, I cannot help mentioning one word about the help rendered by the official and the non-official gentlemen, in order to make the show a success. A number of pandals and booths for the comfort and convenience of the visitors had been put up with the help of these official and non-official gentlemen, and the construction of the lecture pandal was no light task as no funds were available for the purpose. My thanks are therefore due to the taluk officials and the Taluk Board members who helped in the business.

P. S.

The submission of this report was delayed with a view to get the photographs of the show cattle that were awarded prizes. But the photographer who has taken an advance and showed me some negatives has not as yet turned up. I will submit copies of photographs as soon as they are received.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Local Boards), dated 9th August 1913.

READ.—

Letter No. 238, dated the 18th June 1913, from the President, District Board, Shimoga District, requesting to be informed whether a certificate from the Head of the Ayurvedic College, Mysore, is sufficient to support the appointment of Pandits to the charge of Native Vaidyasalas.

No. 1747-74—L. B. 347-12-2, DATED BANGALORE, 9TH AUGUST 1913.

ORDER THEREON.—Government observe that one of the prime objects of the establishment of the Ayurvedic College in Mysore is to ensure the supply of a class of physicians who can be safely permitted to practice indigenous systems of medicine.

2. Having regard to the character of the knowledge and training imparted in the Ayurvedic College of Mysore, Government are pleased to lay down that a certificate granted by the Head of the College be deemed to indicate professional qualification sufficient for the charge of a Vaidyasala.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The President, District Board, Shimoga.
The Presidents of other District Boards.
The President of the Sanitary Board, Kolar Gold Fields.
The Presidents of Municipal Boards.
The Presidents of Bangalore and Mysore Municipal Councils.
The Deputy Commissioners of Districts.
The Senior Surgeon in Mysore.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Read—

Letter No. 1288, dated the 1st August 1913, from the Revenue Commissioner in Mysore, forwarding the accompanying report of the Deputy Commissioner, Chitaldrug District, on the cattle show held at Harihar on the occasion of the Sangameswara Jatra in March 1913.

—

No. 2013-7—L. B. 34-13-10, DATED BANGALORE 19TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with pleasure that the number of cattle collected this year was far in excess of those in the previous years and that the breeds of cattle exhibited were also superior to those in the last year.

3. The interest evinced by the public in the weaving and ploughing competitions, demonstrations and lectures is an encouraging sign of the times.

4. The thanks of Government will be conveyed to the non-official gentlemen who helped to make the show a success.

5. The delay in the submission of the report should have been avoided.

K. R. SRINIVASIENGAR,
Secretary to Government,
General and Revenue Departments.

To—The Revenue Commissioner in Mysore.
The Comptroller to Government.
The Deputy Commissioner, Chitaldrug District.
The Muzrai Superintendent in Mysore.

No. 689, dated Chitaldrug, 28th June 1913, from the Officiating Deputy Commissioner and President of the District Board, Chitaldrug, to the Revenue Commissioner in Mysore, Bangalore.

I have the honour to submit the following report in connection with the cattle show held at Harihar on the occasion of Sangameswara Jatra in the month of March 1913.

2. In view of the manifold advantages which the raiyats derive from the holding of cattle shows, the President of the District Board Mr. K. Krishna Iyer submitted the needful recommendation to Government. The Government in their Order No. 5508-12—L. B. 179-12-3, dated 29th January 1913, while according sanction to the holding of the show, also approved of the utilization of the full amount of the budget provision of Rs. 200 under the head "D. 8—cattle shows and exhibitions" towards the expenditure to be incurred on the occasion of the show and also an additional sum of Rs. 100 for the same purpose to be met by reappropriation. The consent of the Board also for the holding of the show and the appropriation of Rs. 300 therefor was obtained at their meeting held on the 10th February 1913. A reference was also subsequently made to Government in this office letter No. 388, dated 13th March 1913, intimating the source from which the excess expenditure of Rs. 100 alluded to will be met with.

3. *Prospectus.*—The prospectus connected with the show which was approved of by Government was given wide publicity in and outside the Province (*vide* Appendix I).

4. *Committee of management.*—In order to manage the affairs connected with the show, a managing committee consisting of the leading and influential inhabitants of the Harihar Town, was formed with Mr. R. T. Mahadeva Rao, the retired Assistant Commissioner as its President. The names of members constituting the said committee are given as Appendix II. The members of the managing committee, the Deputy Amildar of Harihar and the non-official gentlemen of the place including the Secretary of the District Agricultural Association, are reported to

have worked hard to make the show a successful function. Mr. Krishna Iyer, the President, was present at Harihar camp for organizing the show and gave necessary suggestions from time to time.

5. *Number of cattle exhibited.*—It is gratifying to note that the number of cattle collected this year was immensely greater than in the year previous, there having been 51,257 cattle of all description collected against 38,818 of the year previous. It is reported that they were also superior to those of the year previous. They belong not only to the various districts of this Province but also to the adjoining British taluks of Harpanahalli and Ranebennur of Bellary and Dharwar Collectorates. The show was opened on the 29th of March 1913 and continued for the following two days.

6. *Number of cattle selected.*—As in the previous years an enclosure was made to admit cattle and the owners of animals were told to bring thereunto only such cattle as were intended to compete for prizes, on payment of fees prescribed by the managing committee. The number of cattle admitted to the show was 61 against 73 in the year previous, and the amount of fees realized from this source came to Rs. 12-15-0. Appendix III gives the description of cattle admitted and the rates of fees levied on them.

7. *Classification of cattle according to breeds, size, age, etc.*—The cattle collected on the occasion belonged to different breeds properly known as Korachar, Hatte, Dagina Javari, etc. They may be classified as follows :—

Draft bullocks	5,677
Plough bullocks	9,531
Single bullocks	6,230
Breeding bulls	6,456
Ram	9
Bull calf under two years	15,013
Cow calf do	8,235
Milch cows	59
Cow buffaloes	9
Ewe	1
Ponies	37
Total	51,257

8. *Number of prizes awarded.*—Prior to the distribution of prizes Mr. J. Subba Rao, the Secretary to the District Agricultural Association, made a short and impressive speech dwelling on the useful and beneficial effects of the show. He was followed by Mr. R. T. Mahadeva Rao, the retired Assistant Commissioner, who also gave a brief lecture urging the importance of paying special attention to the breeding of cattle which form the mainstay of agricultural prosperity. The President Mr. Krishna Iyer then awarded prizes to the successful winners, which consisted of gold and silver medals and cash payments. There were in all 5 gold and 6 silver medals available for being awarded. Of these, 2 gold and 4 silver medals were awarded to bullocks and breeding bulls adjudged as deserving of prize by the committee of judges. There were 37 ponies collected on the occasion against 12 in the year previous. Of these, only one pony secured a gold medal of the value of Rs. 10.

As in the year previous, the Secretary of the Economic Conference was moved to sanction a sum of Rs. 25 for awarding prizes to those who had grown Broach and Cambodia Cotton. Weaving and ploughing competitions had also been organized with a view to encourage those professions. Out of the 5 ploughs that entered for competition, 2 were awarded a cash prize of Rs. 2 each on the report of judges. The cash prizes awarded amounted to Rs. 81 in all against Rs. 58 in the year previous and included, besides the prizes awarded to animals of good breeding and the growers of Broach and Cambodia Cotton, the prizes given to those who exhibited skill in weaving and ploughing as well as to persons who displayed general efficiency in music, etc., on the occasion of the show. Particulars

Local Fund and Sanitary (Local Boards), dated 19th August 1913.

of prizes awarded and the names of those who secured them are given in detail in Appendix IV. It is reported that the sum realized by the sale of cattle on the occasion amounted to more than a lakh of rupees, the selling price of animals ranging from Rs. 50 to Rs. 800 a pair against 40 to 650 as reported last year, thereby indicating that cattle collected this year were of a better quality as alluded to in para 5 *supra*.

9. *Place of cattle show and its suitability as regards water-supply and sanitary requirements.*—The place selected for the holding of the show was the maidan in front of Sangameswara temple. A decent pendal had been put up which also contributed to the grandeur of the show. The river Thungabhadra flowing close-by afforded facilities for the supply of drinking-water. It being about the middle of summer the water in the river had receded to its farthest limit and the bed thereof afforded plenty of room for the accommodation of men and cattle. The situation of the locality outside the limits of the town was also another reason for its selection for holding the show from the sanitary point of view. The town of Harihar is situated on the border of the Mysore Province. It is also traversed by railway. There is therefore every facility for tradesmen, merchants and others from various districts in the Province as well as from the bordering districts of Dharwar, etc., to visit the place without much inconvenience and expense. There were about 30,000 visitors to the place on the occasion of the show. Shops of various description had been arranged to be opened for the convenience of the assembled people. There was also plenty of fodder available for persons desirous of buying the same. Dramas and merry-go-rounds had also been arranged for the recreation of the multitude. With the previous sanction of Government small fees were levied on shops, etc., and the sum realized was Rs. 174 against Rs. 104-2-0 in last year. Necessary Police, conservancy and lighting arrangements had been made for the convenience of the visitors assembled on the occasion.

10. *Lectures.*—Dr. Coleman was kind enough to be present on the occasion. Under his personal direction Messrs. Yegnanarayana Iyer and Ranganatha Rao delivered lectures in Kanarese to the assembled raiyats about Broach and. Cambodia Cotton cultivation, the transplanting of paddy and on Kambali hula and Kadige roga. The Inspector of Cattle Diseases also as usual delivered a lecture on the methods to be adopted for improving the breed of cattle and arresting the spread of the cattle diseases. One B. Murigappa, the Revenue gumasta of Harihar Sub-Taluk, delivered a long and interesting speech in Kanarese, both in prose and poetry about the advantages of the show and of the benefits derived from witnessing the show. The lectures are reported to have been well attended to and appreciated by the audience.

11. *Demonstrations.*—Dr. Coleman exhibited to the raiyats the different kinds of ploughs and other agricultural implements of modern inventions, and specimens of certain insects, etc. Jaggory boiling was also undertaken and the method of its manufacture in its purity was shown to people.

12. *Total receipts, viz., from fees, private subscriptions and contributions.*—The details of receipts and expenditure are given below:—

Receipts.

	Rs.	a.	p.
1. Government grant applied for	300	0	0
2. Private subscriptions	13	12	0
3. By sale of manure	205	0	0
4. Realizations from shops, etc.	174	0	0
5. Do of fees for selected cattle admitted to the show	12	15	0
6. Amount realized by sale of pendal materials	15	10	0
Total	721	5	0

Expenditure.

	Rs.	a.	p.
1. Cost incurred for constructing a pendal	56	0	11
2. Cash prizes given to owners of cattle and for general efficiency, etc.	56	0	0
3. Cost of photos of prize-won cattle	22	12	0
4. Cost of medals including the money order commission	122	4	0
5. Printing charges of certificate forms including money order commission	4	5	0
6. Contingencies and miscellaneous	21	9	0
Total	282	14	11
Deduct the cost of two gold medals (worth Rs. 15 and 10 respectively) and two big silver medals (worth Rs. 20) reserved for next year	45	0	0
	237	14	11

N. B.—The sum of Rs. 25 sanctioned by the Economic Conference Committee and awarded to those who had grown Broach and Cambodia Cotton has not been taken into account as it does not belong to District Funds, but in respect of which separate accounts are being maintained.

It will be seen, from a perusal of the above statements of expenditure and receipts, that the expenditure incurred on the occasion of the show was less than $\frac{1}{3}$ of the income and there has been a net savings of Rs. 483-6-1 which is more than double the amount saved in the year preceding.

13. *Photos.*—Seven photos are appended hereunto. One of which relates to the general view of the showground and another to the side of the pendal, etc. The remaining five pertain to the cattle that won the prizes on the occasion of the show.

14. *Concluding remarks.*—The large concourse of people gathering every year to witness the show and the gradual increase in the number of cattle collected, bear ample testimony to the usefulness and popularity of the show. The educative value which the show confers on the raiyat population by enabling them to attend to lectures and demonstrations of practical nature, is also a matter of utmost importance which cannot be lost sight of. The healthier spirit of emulation which the show infuses in the minds of the agriculturists witnessing the show in the matter of rearing of animals of good quality, and facility afforded to the agriculturists to buy the best animals without much trouble and cost, are also strong grounds for recommending the holding of the show.

Local Fund and Sanitary (Local Boards), dated 19th August 1913.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 828, dated the 24th July 1913, from the Revenue Commissioner in Mysore, submitting the following reports on the Cattle Shows held at Ramanathpur in the Arkalgud Taluk, and at Hassan in December 1912 and January 1913, respectively.

No. 2248-51—L. B. 34-13-11, DATED BANGALORE, 26TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with satisfaction that the shows proved to be popular and that a greater number of cattle were exhibited in them than in the previous years.

3. The number of cattle exhibited at Hassan and Ramanathpur were 6,234 and 4,600 against 5,137 and 1,760, respectively, in the previous years. While the total income from the shows (exclusive of the grant from the District Board) was Rs. 797 in the case of Ramanathpur, that of Hassan was Rs. 602-8-0, resulting in net savings to District Funds of Rs. 622 and Rs. 581-8-0 respectively.

4. The holding of the first District Co-operative Conference in connection with the show at Hassan and the farming out of the right of collecting fees for the first time at Ramanathpur were the special features of the shows in question.

5. The zeal evinced by the non-official members in contributing to the success of the shows is commendable and Government highly appreciate the good services rendered by them.

6. The proposal of the Hassan Show Committee in the matter of giving full powers to it in disposing of the realizations from the shows should form the subject of a separate communication from the President.

Government note that though the reports were approved by the District Board as early as February 1913, there was a delay of over three months in its submission by the President.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The President, District Board, Hassan, returning photos.
The Comptroller to Government.
The Compiler, *Mysore Gazette*, for publication.

Report of the Cattle Show held at Ramanathpur, in connection with Subramanya Jatra, on the 16th and 17th December 1912.

The show was the second held at the place, the first one having been held in November 1911.

The management was vested in a Committee comprising the following members, with P. R. W. Wetherall, Esq., Deputy Commissioner, as President and Mr. G. S. Ramaswami Iyengar, Amildar, as Vice-President.

1. Messrs. Narasimha Sastri of Mattigode, 2. B. Venkatachar, Assistant Veterinary Inspector, 3. Mallanna of Kerlapur, 4. Krishnegowda of Kalenahalli, 5. Channabasavashetty of Koteval, 6. Sannegowda of Hangal, 7. Mallaraj Urs of Gangur, 8. Sivananjegowda of Hethgodanahalli, 9. Ramasami Shetty of Arkalgud, 10. Mallarajiah of Gangur, 11. Dyavegowda of Hosahalli, 12. Basavegowda of Bannur, 13. Venkatasubbiah of Hebbale, 14. Puttasamegowda of Aladahalli and 15. Mallanna of Doramballi.

2. The number of cattle exhibited this year was 4,600 as against 1,760 in the previous year.

3. The number of cattle selected for prizes was 18 as against the same figure of last year.

4. The cattle exhibited were all Hallikar breed and of all ages and sizes. The approximate number of each class was as follows :—

1. Ploughing bullocks	...	2,500
2. Dawk bullocks	...	1,000
3. Breeding bulls	...	45
4. Calves	...	1,000
5. Cows	...	40
6. Buffaloes	...	15
Total	...	4,600

5. Seventeen prizes and one special prize offered by Mr. D. Channabasappa Shetti of Somwarpet on the exhibition ground were awarded against 16 prizes and 2 special prizes in the previous year.

6. The show was held on either side of the road leading from Ramanathpur to Basavapatna beyond the channel. The place is very well suited for a cattle show as there are a number of trees affording shelter and a channel running towards the west and south of the show ground forming a boundary to it. It is also an elevated ground far away from the village and having all the sanitary requirements.

7. Last year, tax on shops, etc., and fees on cattle admitted into the show ground, were all collected by departmental agency, but this year it was considered advisable to sell the right of collecting such fees and tax by public auction. The result was as follows :—

	1911	1912	
	Rs. a. p.	Rs. a. p.	
Fees on cattle	110 0 0	702 0 0	
Tax on shops	220 14 0		
Private subscriptions ...	48 8 0	.....	
For special prize	10 0 0	5 0 0	(Not credited to the treasury as it was offered at the spot and paid away as prize.)
Contributions from District Funds	120 0 0	175 0 0	
Sale of manure	50 0 0	90 0 0	
Total ...	559 6 0	972 0 0	

The total expenditure this year excluding the special prize was Rs. 170 as against Rs. 177-13-0 incurred last year as detailed below :—

	1911	1912
	Rs. a. p.	Rs. a. p.
Prizes for cattle	100 0 0	100 0 0
Special prizes	10 0 0	5 0 0
Clearing the show ground and other sundry works ...	18 8 0	20 0 0
For photos of cattle	10 0 0	20 0 0
Sports	30 0 0	30 0 0
For receipt books	9 5 0	.....
Total ...	177 13 0	175 0 0

The expenditure was all met from out of the Rs. 175 sanctioned from District Funds.

Local Fund and Sanitary (Local Boards), dated 26th August 1913.

Out of the receipts of Rs. 972 Rs. 702 was credited into the treasury on 22nd November 1912 and Rs. 90 on 21st November 1912. The balance of Rs. 5, out of the grant by District Funds, will be credited into the treasury after the accounts are closed. This amount was provided for getting the receipt books printed. But as the collection of fees was given on contract, there was no necessity to incur any expenditure on this account.

9. Though this was the second show at Ramnathpur, yet it was considered a success. Besides the number of cattle that entered the show ground, several others were brought to the place for sale.

The Local Fund Dispensary at Konanur was as usual temporarily transferred to Ramanathpur during the jatra and the sanitation was well attended to. There were no epidemics either among men or cattle on the occasion.

The President opened the show on the 16th and distributed prizes among the winners in the show and the sports held in connection with it on the 17th December 1912 and explained to the raiyats the object of the show and the benefits accruing therefrom. The Assistant Veterinary Inspector delivered a lecture in Kanarese regarding cattle breeding and the management and improvement of cattle. The sales were brisk, and rather heavy prices prevailed. It was estimated that cattle worth about Rs. 50,000 were sold in the show ground and outside. The number of cattle that collected was more than double of last year and the quality was also considered better. Had it not been for the foot and mouth disease that was prevalent in some parts at the time the collection would have been more.

The net savings to the District Funds amounted to Rs. 622.

The show was better than that of last year in every respect. This being only the second year, it is anticipated that it would grow in importance every year.

The members of the Committee and the judges took good deal of interest in the organization and working. My thanks are due to the President and the members.

REPORT ON THE CATTLE SHOW HELD AT HASSAN ON THE 3RD AND 4TH OF JANUARY 1913.

1. *I Committee of management.*—In pursuance of a resolution of the District Board of Hassan passed at their meeting on the 27th September 1912, fixing the dates of the 4th Cattle Show at Hassan for the 3rd and 4th January 1913, a preliminary general meeting was held in the Deputy Commissioner's Office on the 18th November 1912, to concert needful measures. A General Committee was then appointed consisting of 23 gentlemen as detailed in Appendix I. An Executive Committee was also appointed consisting of the marginally noted gentlemen as members with P. R. W. Wetherall, Esq., Deputy Commissioner, as President, and Syed Amir Hassan, Esq., Retired Sub-Divisional Officer and Member of the Legislative Council, as Vice-President and Messrs. S. Venkatesaiya, B.A., B.L., Advocate, S. N. Appanna Iyengar, B.A., B.L., General Assistant Commissioner, and V. S. Rajagopala Char, Amildar of Hassan Taluk, as Joint Honorary Secretaries. It may be observed that the non-official gentlemen formed a good number of the Executive Committee and one of the Honorary Secretaries was also a non-official gentleman.

Mr. A. Srinivasaragavachar (Munsiff).
" G. Asirvatham (District Medical and Sanitary Officer).
" Mohammad Raja (Retired Assistant Commissioner).
" A. Puttasamaiya (In charge of Executive Engineer).
" M. Srinivasa Murti, (Treasury Assistant Commissioner).

2. *II. Number of cattle exhibited.*—The number of cattle exhibited was 6,234. This is an advance over that of the previous year, and is highly encouraging.

3. *III. Number of cattle selected.*—Fifty-two head of cattle were selected by the judges appointed by the Committee. The names of the gentlemen who acted as judges are detailed in Appendix II. The thanks of the Committee are due to these gentlemen for the care with which they did their work.

4. *IV. Classification of cattle.*—The cattle were classified as shown in Appendix III. It has to be marked that the Hallikar breed of cattle was mostly exhibited. Private Amrut Mahal and Government Amrut Mahal cattle were also exhibited in good numbers. There was a good sale of all these cattle and the estimated value of the sale of cattle during and after the show amounts to nearly a lakh of rupees. Mr. Nanjundaraj Urs, Superintendent, Amrut Mahal Department, very kindly arranged for the exhibition of some Government Amrut Mahal cattle through his Daroga, Mr. Mahomad Abbas. Some of these cattle were also sold during the show, and they fetched very good prices. These sales were very greatly appreciated by the people. Mr. Nanjundaraj Urs himself was present during the show and afforded immense help to the Committee. The Committee deem it their duty to place on record their sense of indebtedness to this gentleman for his very kind co-operation with them.

5. *V. Number of prizes awarded.*—The number and amount of prizes awarded are given in Appendix IV. It will be seen that a sum of Rs. 229 was awarded as first and second prizes as per prospectus of the District Board a copy of which is filed as Appendix V, while a sum of Rs. 58 was awarded as special prizes offered by the several gentlemen as detailed in the margin. The Committee feel highly thankful to these gentlemen for their kind contributions which served as a great encouragement and stimulus to the show. It has to be observed that no single bullocks or ewes were awarded any prizes as there were no suitable exhibits and that there was thus a savings of Rs. 11 out of the sum of Rs. 240 provided for prizes in the prospectus referred to above.

	Rs.
Mr. H. Nanjundaraj Urs ...	20
„ A. K. Srinivasaraghavachar.	15
„ S. Venkatesaiya, Advocate	10
„ M. Srinivasa Murti ...	10
„ S. N. Appanna Iyengar	3
Total ...	58

6. *VI. Place of cattle shows and its suitability as regards water-supply and sanitary requirements.*—The show was held on the maidan adjoining the District Police Office building in close proximity to the newly constructed first class musafirkhana. It is an excellent site with convenience for water for men and cattle. There is a draw-well on the ground itself and a temporary reservoir was, as usual, constructed by damming the sluice channel of the Channapatna tank. Satisfactory sanitary arrangements had been made by the Hassan Municipality. Temporary latrines had been put up in addition to the masonry one already existing in a corner of the show ground and these latrines were being daily conserved.

7. *VII. Total receipts,* viz., *from fees, private subscriptions and contributions.*—The items of receipt are given in Appendix VI. The total income was Rs. 602-8-0 exclusive of the District Board grant of Rs. 500. Fees on cattle amounted to Rs. 389-10-0 as against Rs. 321-1-0 realized during the previous year. This total includes the sum of Rs. 58 awarded as special prizes. No subscriptions were raised for the expenses of the show as it was not found necessary to do so.

8. *VIII. Total expense incurred and how met.*—The statement of expenditure is given in Appendix VII. The total expenses amounted to Rs. 520-15-2. The initial and all expenses were met from the District Fund grant of Rs. 500 and also the sum of Rs. 58 awarded as special prizes. As these sums were received on the spot they could not be credited to the District Funds. It will be seen that the total receipts are Rs. 1,102-8-0 as against an expenditure of Rs. 520-15-2, leaving a surplus of Rs. 581-8-10 at the credit of the Show Committee. The realizations of the Committee were credited to District Funds.

9. *IX. Concluding remarks including a comparison of the results of the show with those of the preceding year.*—A comparative statement of the results of the show is embodied in Appendix VIII. It will be noticed that the number of cattle exhibited during the show was 6,234 as against 5,137 during that of the previous year. The net income was Rs. 581-8-10 as shown in para 8 *supra.* Trade in cattle was more extensive than that of the previous years, and cattle fetched higher prices. A fine pair of Amrut Mahal bullocks exhibited by Mr. S. Soundararajiengar, Deputy Amildar of Alur, was awarded a special class first prize of Rs. 15. This pair was subsequently sold for a sum of Rs. 500. The importance of the show is in every way increasing year after year. Numerous cattle buyers are attracted to the show

Local Fund and Sanitay (Local Boards), dated 26th August 1913.

from distant places such as Mysore, Mangalore and Haveri in the Bombay Presidency, and the show itself has been a very great incentive to cattle breeders to improve their breed of cattle. A fresh and noticeable departure was made this year by offering a special prize to the best calf born to the breeding bull maintained at the Hassan Veterinary Dispensary at the cost of District Funds. This prize was carried off by Mr. Balakrishna Sastri of Bitagodanahalli. It is hoped that this prize will serve as an additional encouragement to the raiyats to improve their breed of cattle by using good breeding bulls and by bestowing all possible care in this most important matter.

10. There were general sports held on the show grounds in which the assembled villagers took lively interest and there were some items on the programme specially meant for them. Sports in connection with the cattle show have been a very useful adjunct in as much as they afford the people healthy amusement and recreation. The expenses of the sports were all met by private subscriptions.

11. The Agricultural Department with their usual courtesy deputed Mr. V. N. Ranganatha Rao, Agricultural Inspector, to demonstrate various agricultural implements, such as improved ploughs, a chaff-cutter and winnower and the assembled raiyats appreciated the instructive lectures delivered by this gentleman, and followed his demonstrations with interest. The thanks of the Committee are due to Mr. H. V. Krishnaiya, B.A., F.C.S., the officer in charge of this department for having kindly arranged for these demonstrations.

12. There is yet another feature which adds peculiar interest to this year's show, and that is, the first Hassan District Co-operative Conference held on the show grounds in a spacious pendal erected for the purpose. The conference was opened by P. R. W. Wetherall, Esq., Deputy Commissioner and President of the Cattle Show Committee, on the 4th January 1913. The instructive address of the several delegates and other speakers, especially with reference to the benefits of co-operation for agricultural purposes, were very highly appreciated by the numerous raiyats who attended the deliberations of the conference, and the special thanks of the Committee are due to Mr. M. A. Narayana Iyengar, B.A., B.L., Registrar of Co-operative Societies in Mysore, who conceived this idea of holding this first conference here, and to whose personal exertions and encouragement its success was mainly due. There can be no gain saying that such conferences are very beneficial on the occasions of such shows, and the great advantage and usefulness of this conference is made manifest by the request of the people that it should be made an annual function to be held at the time of the cattle show.

13. The prizes to the successful exhibitors and competitors were distributed by Mrs. R. A. Anderson at the request of the Committee. The Committee take this opportunity of thanking Mrs. Anderson for this kindness.

14. The Committee begs to record its deep sense of gratitude for the kindly interest evinced in the show by Mr. P. R. W. Wetherall, the Deputy Commissioner and Mr. Syed Amir Hassan, Retired Senior Assistant Commissioner, to whose guidance and advice the success of the show was largely due.

15. The Committee desire to draw prominent attention to the order of Government relating to the finances of the shows and their management. It appears undesirable that District Boards should convert these shows into a new source of revenue. The public do not subscribe for the expenses of the show as they feel that in any case the District Board will meet the expenses, and further because they feel that they have no voice in spending their own money. It seems to us that the remedy lies in moving the Government to so amend the rules that the Committee shall have full power of disposing of their funds at their own discretion provided that the repayment of the advances made by the District Board, is a first charge on the income of the Committee.

16. In conclusion the Committee fervently hope that under the blessings of Providence, the next year's show will be still better than this one, and that as years roll on, the cattle show of Hassan, will grow in magnitude importance and usefulness to the raiyats and cattle breeders of this and the surrounding districts of the Mysore State.

APPENDIX I.

List showing the names of General Committee Members of the Hassan Cattle Show held on 3rd and 4th January 1913.

1. Mr. Muddappa.
2. „ H. R. Srinivasa Rao.
3. „ Mahomad Raza.
4. „ M. Jeevan Rao.
5. „ B. Ramanna.
6. „ M. Chakrapani Rao.

The breeding bull of Amrathegowda of Dammaningala, Channarayapatna Taluk	15
Total ...	287

APPENDIX V.

HASSAN DISTRICT.

Notice dated 4th October 1912.

1. The public are hereby informed that it is proposed to hold a cattle show in the compound adjoining the District Police Office at Hassan. The show will commence on Friday the 3rd January 1913 and close on the evening of Saturday the 4th January 1913.

2. The cattle show is intended to give to the raiyats an idea of the several species of cattle bred in and beyond the Hassan District, and thus to promote general improvement in the breed of cattle.

3. The several classes of cattle which will be admitted to the show are given in the appendix, and they will be kept separately according to whether they are for exhibition only, or for both exhibition and sale.

4. Arrangements will be made to promote competition and to induce cattle owners to exhibit the best cattle available by awarding prizes. Those who desire to have special facilities for sale of cattle are requested to address the Honorary Secretary, Cattle Show, Hassan, before the opening of the show.

5. As per Government Proceedings No. 7007-24—L. B. 189-09-3, dated 22nd February 1911, minimum rate of fees at a uniform rate of one anna per head of cattle will be levied on all cattle admitted to the cattle show enclosure.

6. Required quantity of fodder will be made available for sale near the show enclosure.

7. Every animal admitted to the show enclosure should be accompanied by a sufficient number of men to keep it under proper control.

8. Only cattle considered suitable will be allowed to compete in the cattle show for prizes.

9. No animal which has been awarded one prize will be allowed to compete for any other prize, except for a special prize.

10. Working cattle may, at the option of the Judges, be subjected to a practical test as to their power of draught, etc.

11. Admittance of cattle into the show enclosure will be closed at noon on the 2nd January 1913.

12. All persons who become exhibitors of cattle will be held to have signified their consent and acceptance to the above conditions and to such other conditions which the Committee may hereafter prescribe.

Appendix.

I. Breeding bulls, 1st prize Rs. 15, 2nd prize Rs. 7.

II. Bullocks (pairs)—

(*a*) Ploughing bullocks, 1st prize Rs. 12, 2nd prize Rs. 6.
(*b*) Draught bullocks, 1st prize Rs. 12, 2nd prize Rs. 6.
(*c*) Dawk bullocks, 1st prize Rs. 15, 2nd prize Rs. 7.

III. Single bullocks, 1st prize Rs. 6, 2nd prize Rs. 3.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Municipal), dated 19th August 1913.

READ—

Letter No. 179, dated the 17th May 1913, from the President, Mysore City Municipal Council, received through the Deputy Commissioner, Mysore District, stating, with reference to Government Order No. 8187-8—Mi. 295-12-10, dated the 12th April 1913, that the direction that he should correspond with the Government through the Deputy Commissioner of the District, renders the Municipal administration in a way subordinate to that officer and involves delay as it necessarily takes some time for the papers to pass through him, and requesting sanction to the Municipal Council's request to permit the President to correspond with the Government direct instead of through the Deputy Commissioner of the District.

No. 2024-5—Mi. 295-12-20, DATED BANGALORE, 19TH AUGUST 1913.

ORDER THEREON.—Government consider it expedient that a Deputy Commissioner should be kept informed of what transpires in such an important Municipality within his district as that of the Mysore City, in order that the control over Municipal Administration vested in him by law may be efficiently exercised.

2. In cases of exceptional urgency, however, the President may directly address Government, sending at the same time a copy of the communication concerned to the Deputy Commissioner together with a brief note showing the urgency.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The President, Mysore City Municipal Council, through the Deputy Commissioner, Mysore District.
The Deputy Commissioner, Mysore District.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The Budget Estimates of the Mysore City Improvement Trust Board for the year 1913-14, received with correspondence ending with the Chairman's letter No. 3, dated the 9th July 1913.

No. 1731-8—Mi. 412-12-4, DATED BANGALORE, 8TH AUGUST 1913.

ORDER THEREON.—The Board estimate their income and expenditure as shown below:—

		Rs.
Opening balance	...	2,000
Receipts	...	2,98,000
Total	...	3,00,000
Expenditure	...	2,98,660
Closing balance	..	1,340

2. Government in their Order No. 7035-8—Mi. 295-12-1, dated 4th March 1913, appointed Mr. T. G. Lakshmana Rao, Executive Engineer, 4th Class, temporary, as whole-time President of the Municipal Council of the Mysore City and Chairman of the Trust Board, and in Notification No. 9345—Mi. 130-12-12 of 24th May 1913, directed him to perform the functions of a Deputy Commissioner under the Land Acquisition Regulation for purposes of the provisions of Section 23 of the City of Mysore Improvement Regulation. Therefore, no provision has been made for the following charges included in the budget of the year 1912-13.

	Rs.
(1) Allowance to the *Ex-officio* Chairman	2,400
(2) Contribution to the Mysore City Municipal Council for the services of Senior Vice-President as Land Acquisition Officer for the Board	2,040
(3) Salary of Executive Engineer of the Board	5,920
Total ...	10,360

Per contra, a provision of Rs. 6,000 has been proposed for the pay of the whole-time Chairman with the explanation that the Municipal Council may bear the local allowance of Rs. 100 a month drawn by this officer in accordance with the order of the 4th March 1913. Pending the decision of Government regarding the contribution payable by the Mysore City Municipal Council towards the salary of the whole-time Chairman and President, provision for the entire salary of this officer at Rs. 500 plus Rs. 100 will be made in the present budget.

3. A lump sum provision of Rs, 3,810 has been proposed for the revision of the Trust Board Establishment; but pending orders on reorganisation of the establishment, the provision is deleted.

4. In the absence of a separate Executive Engineer for the Board, the sanctioned schedule of establishment has been redistributed with necessary alterations of designations under the sections controlled by the Chairman and the Sub-Assistant Engineer. This is retained.

5. The provision of Rs. 760 proposed for the pay of the Head Accountant includes a sum of Rs. 16 on account of the increment to be earned by the official from the 1st March 1914. This is reduced to Rs. 744 only as under the budget rules, increments falling due after the 1st day of the year, *i.e.*, 1st July 1913, should not be included in the budget estimates (*vide* Article 155 of the Civil Account Code, Vol. I).

6. After effecting the additions and reductions noted above, a sum of Rs. 3,966 will be still available for expenditure on Public Works. This amount may be utilized for the "Modification of the existing sewers in the Fort" for which only a small provision of Rs. 3,210 has been proposed in the present budget.

7. The budget estimates as above revised and sanctioned stand as shown below:—

		Rs.
Opening balance	...	2,000
Receipts	...	2,98,000
Total	...	3,00,000
Expenditure	...	3,00,000
Closing balance	...	Nil

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Medical), dated 1st August 1913.

READ—

Government Order No. 631-80—Med. 2-08-95, dated the 22nd July 1911, prescribing revised rules regulating the grant to Government servants and to indigent persons unconnected with the public service in the Mysore State, of concessions designed to enable them when bitten by a rabid animal, to proceed to the Pasteur Institute at Coonoor for treatment.

2. Government Order No. G. 6827—G. M. 291-12-4, dated the 2nd May 1913, permitting the repayment in ten monthly instalments of the sum of Rs. 70 being the advance of one month's pay granted to P. R. Venkataramaiya, Clerk, General and Revenue Secretariat, to enable him to undergo anti-rabic treatment in the Pasteur Institute, Coonoor.

3. Letter No. 7726—T. A. M. 1427, dated the 13th May 1913, from the Comptroller, soliciting orders as to whether payments under Rule 1 (ii) of the Rules issued with Government Order dated the 22nd July 1911 read above, are also to be recovered in instalments under Rule 10 of the said rules, and stating that advances of pay to officers under Rule 1 (ii) are being treated as final charges.

No. 1371-421—MED. 5-12-12, DATED BANGALORE, 1ST AUGUST 1913.

ORDER THEREON.—The Government of His Highness the Maharaja are pleased to direct that advances of pay granted under Rule 1 (ii) of the Rules issued with Government Order No. 631-80—Med. 2-08-95, dated the 22nd July 1911, to Government servants drawing not more than Rs. 100 a month, be also recovered in the manner provided in Rule 10 of the said rules.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Comptroller to the Government of His Highness the Maharaja of Mysore.
The Senior Surgeon with the Government of Mysore.
The other Heads of Departments.
The Deputy Commissioners of Districts.
The Presidents of the District and Municipal Boards, including those of the Bangalore and Mysore City Municipal Councils and the Kolar Gold Fields Sanitary Board.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Correspondence ending with letter No. 14182—781, dated the 9th June 1913, from the Inspector-General of Education in Mysore, submitting the budget estimates of the Industrial and other Special Schools maintained from the Local Funds General for 1913-14, together with an explanatory memo.

No. 2190-1—EDN. 328-12-4, DATED BANGALORE, 22ND AUGUST 1913.

ORDER THEREON.—The Inspector-General estimates the receipts and expenditure of the Industrial and other Special Schools, etc., for 1913-14 as shown below:—

		Rs.
Receipts—		
I.	Chamarajendra Technical Institute, Mysore (newly formed by the combination of the Industrial and Engineering Schools)	10,110
II.	Other Industrial Schools	4,000
	Total ...	14,110
Expenditure—		
I.	Chamarajendra Technical Institute, Mysore	67,660
II.	Commercial School, Bangalore (newly sanctioned)	14,000
III.	Mechanical Engineering School, Bangalore (newly sanctioned)	30,225
IV.	Other Industrial Schools	14,676
V.	Scholarships held in Technical Schools outside the State	8,580
VI.	Grants-in-aid	5,718
VII.	Sericulture	1,152
VIII.	Travelling allowance	600
	Total ...	1,42,581

2. The Inspector-General has omitted the budget of the Channapatna Industrial School from the above estimates as this school has been temporarily placed under the control of the Department of Industries and Commerce. Government, however, consider that the Channapatna Industrial School should continue to be treated as other Industrial Schools for purposes of budget and accounts and the grants subsequently transferred to the Department of Industries and Commerce. The receipts and expenditure of this school, *viz.*, Rs. 1,000 and Rs. 4,013, respectively, will be added to the Inspector-General's estimates under the head "Other Industrial Schools." The total receipts from Industrial and other Special Schools for 1913-14 will, accordingly, be Rs. 15,110 and the total expenditure Rs. 1,46,594. These estimates are sanctioned.

3. The full cost on account of the Industrial Schools, etc., was hitherto being met from the Local Funds General. In Government Order No. 8834-40—Edn. 462-09-24, dated the 1st May 1913, passing orders on the improvement of Industrial Education in the State it has been directed that the increased expenditure on account of the Chamarajendra Technical Institute formed by the combination of the Industrial and Engineering Schools, Mysore, and the cost of the Mechanical Engineering and Commercial Schools at Bangalore should be borne by the State Funds. Government hereby direct that the cost of Industrial and all Special Schools including scholarships and other items referred to be debited to the State Funds, the present net cost to the Local Funds General on this account, *viz.*, Rs. 60,000 being treated as contribution to the State Funds.

4. During the current year 1913-14, however, as the State Civil Budget has already been sanctioned, the cost of the Industrial Schools, etc., to the extent of Rs. 75,000 will be met from the Local Funds General and the balance of Rs. 71,594 from the State Funds. The receipts amounting to Rs. 15,110 will be credited to the Local Funds General. In future years, Rs. 60,000 will be debited to the Local Funds

Local Fund and Sanitary (Education), dated 22nd August 1913.

General and treated as contribution from Local Funds General in the Civil Budget Estimates under Industrial Schools under Education. During the current year, the Comptroller is requested to adjust in his accounts, the expenditure from Local Funds General under State Funds agreeably to Government Order requiring the net amount from Local Funds General being treated as contribution.

Proceedings of the Government of His Highness the Maharaja of Mysore, General (Miscellaneous), dated 9th August 1913.

READ—

1. Letter No. 6866, dated 16th April 1913, from the Comptroller, seeking the instructions of Government as to the powers of the Director of Industries and Commerce in utilising the grant of Rs. 2,000 provided for temporary establishment.

2. Letters No. 1244, dated 28th April 1913, and No. 1323, dated 8th May 1913, from the Director of Industries and Commerce, bringing to notice the inconvenience caused by the absence of orders regarding his powers in respect of sanctioning contingent expenditure and making appointments and urging that his department should be exempted from the operation of Article 232 of the Mysore Treasury Manual.

No. G. 1198-200—G. M. 310-12-39, DATED BANGALORE, 9TH AUGUST 1913.

ORDER THEREON.—Government are pleased to grant the following special powers to the Director of Industries and Commerce in regard to the contingent expenditure:—

(i) He may purchase materials and articles necessary for industrial experiments within the limits of budget provision. But the special sanction of Government should be obtained for the purchase of implements and appliances for generating power exceeding Rs. 10 in value, which are of a comparatively permanent nature and are not required for use only in any particular experiment or investigation.

(ii) He may purchase within budget provision, any apparatus or appliances not exceeding Rs. 50 in value for experimental or research purposes, the necessity for which could not be foreseen when sending up his periodical lists to Government for sanction.

(iii) He may purchase books relating to Industries and Commerce, provided the charges do not exceed the budget limit sanctioned therefor and provided such books do not exist in the Library of the Economic Conference.

2. In regard to appointments, the Director of Industries and Commerce will be allowed to make all appointments which have been duly sanctioned by Government and the salary of which does not exceed Rs. 100 per mensem, if the persons appointed are duly qualified and subjects of His Highness the Maharaja. Whenever he finds it necessary to appoint persons who are not subjects of His Highness the Maharaja, the previous sanction of Government should be obtained. Government do not consider it necessary to invest the Director with the power to create temporary appointments as there should be no difficulty in obtaining the sanction of Government promptly when such appointments are necessary.

3. Government are aware that in the Department of Industries and Commerce, appointments of experts and special purchases have to be resorted to at short notice, but if a clear statement of the necessity of the measure and the source from which the cost is to be met, accompanies each proposal, Government are prepared to pass very early orders. On such occasions the urgency of the matter may also be informally brought to the notice of Government.

Letter No. 12, dated the 2nd July 1913, from the Secretary, Economic Conference, stating that the Conference at the Session held in June 1913 has recommended the nomination of 25, 30 and 24 gentlemen as members of the District Committees of Bangalore, Mysore and Shimoga, respectively, on the representation of the Presidents of the said Committees, that such increase was absolutely necessary to represent all interests in the respective districts, and requesting that Government may be moved to sanction the above nomination and to modify the existing rules so as to permit the nomination of more than 20 members to District Committees whenever necessity for the same arises.

NO. G. 1294-342—G. M. 69-13-3, DATED BANGALORE, 12TH AUGUST 1913.

ORDER THEREON.—Government are pleased to approve of the nomination of the additional members made by the Conference and to amend Rule 7 of the Revised Rules for the constitution of the Economic Conference, published under Government Order No. G. 4058-109—G. M. 55-12-109, dated 25th January 1913, so as to admit of a larger number of members than at present, but not more than 30 members being selected for each of the District Committees.

The Rule, as amended, will read as follows:—

"A Committee for each district composed of officials, members of the Representative Assembly and non-officials, not exceeding 30 in number, may also be appointed by the President in consultation with the Chairmen of the Central Committees, and the Deputy Commissioner of the District will be the President of the Committee * * * "

Proceedings of the Government of His Highness the Maharaja of Mysore, General (Miscellaneous), dated 18th August 1913.

No. G. 1475-514—G. M. 139-13-1, DATED BANGALORE, 18TH AUGUST 1913.

ORDER.—Government observe that lists of officials borne on the establishments of the several departments are not prepared and published in a few cases, while, in not a few instances, their publication occurs at irregular intervals. Government, therefore, desire that the Heads of Departments should arrange for the timely preparation and publication of the gradation lists of officials borne on the various establishments under their control, corrected up to the 1st July of every year. In the departments in which half-yearly lists are now published, the practice may be continued.

2. The lists should include all officials whose names do not appear in the Quarterly Civil List and should contain information regarding the sanctioned scale under all classes and grades, the number actually employed, the vacancies existing, and the names of the incumbents together with particulars as to their respective qualifications, date of birth and date of entry into Government service. The names of inferior servants need not be entered if their number is large.

3. Six printed copies of each of such lists should be submitted to Government in the department concerned and six copies to the Financial Secretary on or before the 1st September of every year.

4. The first issues in the departments which do not now prepare such lists may be printed with corrections up to the 30th June 1913 and copies thereof should be submitted to Government before the 30th November 1913.

4. ,, No. 21, dated 12th July 1913, from the Deputy Commissioner, Hassan District.
5. ,, No. 527, dated 14th July 1913, from the Deputy Commissioner, Mysore District.
6. ,, No. 25, dated 30th July 1913, from the Deputy Commissioner, Shimoga District.

4. Letter No. 9, dated 14th July 1913, from the Deputy Commissioner, Kolar District, suggesting the appointment of a full-time officer of the status of an Assistant Commissioner as Secretary to the District Committee.

5. Letter No. 50, dated 2nd August 1913, from the Deputy Commissioner, Tumkur District, stating that it is desirable to appoint a whole-time officer of the status of an Amildar as Secretary to the District Committee and proposing the names of an official and non-official Secretary provisionally.

No. G. 1958-67—G. M. 55-12-237, DATED BANGALORE, 29TH AUGUST 1913.

ORDER THEREON.—The Government have given their consideration to the subject and are of opinion that it is not necessary to appoint whole-time officers as Secretaries to the District Committees. The nomination of the undermentioned officers and non-official gentlemen as Joint Secretaries to the several District Committees, for the year 1913-14, is approved :—

District	Official Secretary	Non-official Secretary
Bangalore ...	Mr. C. S. Kuppusamiengar, Assistant Commissioner.	Mr. D. Venkataramiah, Advocate.
Tumkur ...	,, B. T. Kesava Iyengar, Assistant Commissioner.	,, Y. Rama Rao, Pleader.

Hassan ...	,, S. N. Appanna Iyengar, Acting Assistant Commissioner.	,, S. Venkatesiah, Advocate.
Kadur ...	,, M. Krishnaswami Iyengar, Acting Assistant Commissioner.	,, Abdul Rahim, Advocate.
Shimoga ...	,, G. B. Hoblikar, Assistant Commissioner.	,, Shankara Narayana Rao, Advocate.

2. The Deputy Commissioner of the Kolar District is requested to nominate two Secretaries similarly for the Committee of that district and report such nomination to Government for approval.

General (Miscellaneous), dated 29th August 1913.

3. The grant of a carriage allowance of Rs. 40 per mensem to each of the Secretaries at Bangalore and Mysore and of Rs. 30 to each of the Secretaries in the other districts is sanctioned. The non-official Secretaries will, in addition, be allowed to draw travelling allowances at rates admissible to Assistant Commissioners for journeys on duty outside headquarters for specific District Committee work in accordance with a resolution passed by the District Committee. The above-mentioned allowances are sanctioned for a period of one year for the present. The Secretary, Economic Conference, is requested to point out the source in the Conference budget for the current year from which the above expenditure may be met.

4. The work to be done by each Secretary of the District Committee should be defined by a set of rules, and the Secretary to the Economic Conference is requested to prepare in consultation with the President of each District Committee, a programme of work to be done by each Secretary for the year and submit the same for the approval of Government.

C. S. BALASUNDARAM IYER,
Secy. to Govt., Depts. of Edn., Agri., Indus. & Commerce.

To—The Secretary, Mysore Economic Conference.

OFFICIAL MEMORANDUM.

No. G. 2015-9—G. M. 149-13-1, DATED BANGALORE, 30TH AUGUST 1913.

During their recent visit to Davangere and Harihar in the Chitaldrug District, the Dewan and the Second Councillor had an opportunity of meeting the Deputy Commissioner and other local officers, members of the Municipal Council and other leading local residents, and of discussing with them questions of interest affecting local administration, industries and trade.

2. The more important subjects discussed are entered in the list appended hereto.

3. It is the desire of Government that continued attention should be paid to each of these subjects until they are brought to a final stage. With a view to enable them to watch the progress made in the disposal of these questions, Government are pleased to direct that the officers and departments responsible should be specified against each subject and that a report be sent by the Deputy Commissioner, every quarter, of the progress made in regard to each subject until it is finally disposed of.

4. It will be the duty of the officers specified in column 7 of the statement to place themselves in communication with the authorities specified in column 5 of the same and to see that all necessary action is taken from time to time until final orders are passed. As a rule, no subject included in the statement should remain undisposed of for a longer period than six months and where, from the nature of the enquiries to be made or other causes, this is not possible, special orders of Government should be obtained for extending the period of disposal.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Chitaldrug District.
The Director of Industries.
The Chief Engineer of Mysore.
The Engineer-in-Chief, Mysore State Railway Construction Department and Secretary, Railway Department.
The Secretary, Mysore Economic Conference.
The Secretary, Education and Agriculture.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Petition registered No. 915, dated 15th December 1911, from T. Srinivasachar of Kolar, appealing against the Deputy Commissioner's order to the effect that Srinivasachar should resign his Government post and take up within two months his hakdari archakship of Sri Venugopalaswami temple of Woolvadi, Chintamani Taluk, on pain of his being deprived of the hak in case of default.

Letter No. 6694—325, dated 12th April 1912, from the Deputy Commissioner, Kolar District:—

Adverting to your Official Memorandum No. 1602—Muz. 336-11-2, dated the 16th January 1912, calling for a report, with records on the appeal petition of T. Srinivasachar, a hissedar of the archakship of the Sri Venugopalaswami temple at Woolvadi in the Chintamani Taluk, praying that rajinama presented by the appellant may be given effect to, and the order of the Deputy Commissioner to enter upon his duties within two months, on pain of being deprived of his hereditary hak, may be kept in abeyance till the disposal of his appeal petition by Government, I have the honour to state as follows:—

2. The appellant, who owns ⅓rd share of the archakship of the temple referred to, is the Sanskrit Pandit of the Government High School at Kolar, and as admitted by him in his petition to the Sub-Division Officer, Malur, on 24th March 1906, he never attended to the archak's duties personally during the past 40 years. Till about 1899, Narasimhachar, 1st respondent, was performing puja during the appellant's turn of worship (*i.e.*, 4 months and 24 days every three years) enjoying the latter's share of the inam lands and paying its quit-rent. In 1899, a kharar was executed between the appellant and the 1st respondent Narasimhachar, the latter undertaking to perform puja during the former's term for the Government cash grant and the voluntary contributions of the devotees and put the appellant in possession of his share of inam lands. This arrangement worked smoothly for a short time, when in 1905, the respondent Narasimhachar sent a registered notice to the appellant to appear for his duties, as he could not attend to the worship of the temple during his turn, on account of sickness, and also petitioned the Taluk Office to the same effect. Upon this petition, the Amildar of Chintamani Taluk served a notice on the appellant to appear before him on 24th April 1905. He accordingly appeared before the Amildar and presented a petition to him alleging various irregularities in the worship of the temple and charging the respondent of having alienated the inam lands and misappropriated temple property.

3. When the matter came on for regular enquiry before Mr. Thyagaraja Iyer, the then Assistant Commissioner in charge of Chintamani Taluk, a rajinama was filed by both the parties on 22nd January 1906, purporting that the respondents should perform puja during the turn of the appellant, enjoy his share of the inam lands, pay its quit-rent, give the appellant Rs. 8 per annum and restore to him his office and his share of the inam lands, after he returns from his post of Sanskrit Pandit of the High School at Kolar. Mr. Thyagaraja Iyer refused to accept the rajinama in his Order No. 1053, dated 22nd March 1906, on the ground that if the appellant's allegations about the irregularities in the worship were true, his withdrawal of the same on the payment of Rs. 8 per annum to him could not be allowed, and that if they were false, he could not be allowed to levy a permanent allowance for doing nothing and for bringing forward a false charge and that he is only entitled to appoint an officiator as archak in his turn.

4. On this adverse order, the appellant Srinivasachar preferred an appeal to the Deputy Commissioner on the 10th May 1906 contending that the terms set forth in the rajinama should be recognised and the respondents compelled to perform puja as his gumasta.

5. After hearing the parties, and perusing the entire records, my predecessor Mr. C. Srikantesvara Aiyar passed final orders on the 23rd August 1911, directing the appellant Srinivasachar to attend to his duties of the archakship of the temple resigning his appointment in the High School at Kolar, if need be, within two months from that date, on pain of forfeiting his hereditary right.

6. As regards the allegations against the respondents, referred to in the appeal petition to the Deputy Commissioner, the Sub-Divisional Officers Messrs. Mir Humza Hussain and Jayaram Iyer who personally enquired into the matter and examined most of the witnesses cited by the appellant, are of the opinion that the allegations made by Srinivasachar are false and the complaint lodged by him seems to be with a view to bring discredit to the respondents, as they refused of late to serve as his gumastas. Further, the jewels and other properties of the temple were examined by the successive Amildars of the taluk and by Messrs. Thyagaraja Iyer and Jayaram Iyer, the Assistant Commissioners in charge of the Division and reported to have been found almost in tact.

Muzrai, dated 1st August 1913.

7. In my humble opinion, the rajinama presented by Srinivasachar in the year 1906 might have been accepted. According to that Narasimhachar was to enjoy the inam lands and Srinivasachar to receive Rs. 8 a year, a private arrangement between themselves, which would have hurt no one and things would have gone on, as they had done for the last 40 years.

8. It is true that Srinivasachar subsequently made some allegations against the other archaks, exaggerations no doubt, but with a semblance of truth in them, and as it has been shown that these men are competent and honourable, there is no reason why they should not do the work for Srinivasachar.

9. It is possible, however, that Narasimhachar will not consent to the arrangement now.

10. The entire vernacular records of the case together with the appeal petition, are herewith submitted for reference and obliging return when no longer required.

No. 325—Muz. 336-11-5, dated Bangalore, 1st August 1913.

Order thereon.—The appellant was present in person and was also represented by Advocate Mr. B. Ramanna. The respondents Narasimmachar and others were absent.

2. As the respondent Narasimhachar declines to serve as gumasta under appellant, he cannot be forced to do so. As the appellant has not been doing puja directly for 40 years or so, it is unnecessarily hard to compel him to resign his appointment in the High School to do so now. The appellant is said to be 52 years old at present and may retire in the course of three or four years from his Government appointment. The arrangement of having a gumasta may be continued for four years more. The appeal may be dismissed and his right forfeited if he does not take charge of the work soon after his retirement.

READ—

Government Proceedings No. 192-3—Muz. F. 15-08-6, dated 16th July 1910, sanctioning the Deputy Commissioner's proposals for the assumption of the management of Sri Venkataramana Swami temple at Melige in the Tirthahalli Taluk, with its endowments and the fixing of a scale of expenditure therein.

Petitions received from Bhistabhatta of Tirthahalli, complaining that he has been dispossessed of the Survey Nos. 12 and 19 of the Kallakere village in the khata of the said temple which he has been enjoying as Mulgeni Hakdar, and praying that the lands may be restored to him.

Letter No. 174, dated 27th November 1912, from the Deputy Commissioner, Shimoga District :—

Adverting to your letter No. 530—M. F. 282-10-5, dated 8th September 1911, calling for a report on the petitions of Bhistabhatta complaining that he has been dispossessed of Survey Nos. 12 and 19 of Kallakere village in the khata of Sri Venkataramanadevaru temple at Melige, which he was enjoying as a Mulgenidar, I have the honor to state that the lands in question measuring together 9 acres and 38 guntas and assessed at Rs. 135-0-0, as detailed in the margin, are now under the management of Government under the authority of Government Proceedings No. 192-3—Muz. 15-08-6, dated 16th July 1910. The rent derived at present from these lands is 47 maunds of supari valued at Rs. 329.

Serial No.	Extent A. G.	Assessment Rs. a. p.
12	3 26	45 0 0
19	6 18	90 0 0
	9 38	135 0 0

2. From the references filed by the petitioner, it is seen that these lands were cultivated in 1837-38 by one Nagayya and subsequently came into the possession of his brother Annayya. On the death of the latter, the lands were conveyed by his widow Nagamma and nephew Venkatayya on 23rd August 1878 to Murigendrappa of Hodigere on Mulgeni tenure and the Mulgeni right was finally sold to the petitioner by Adivappa, son of Murigendrappa on 19th September 1904, for a consideration of Rs. 2,000. As specified in the sale deed, the annual rent paid by Bhistabhatta, after paying the Government dues every year was Rs. 18-14-6 in cash with 1¾ maunds of oil.

3. It will be seen that the alienation of the inam lands in this case having occurred subsequent to 14th December 1867 (date of the promulgation of the Inam Rules), the petitioner is not entitled to the possession of the lands by virtue of the Mulgeni right purchased by him from Adivappa.

4. The point for consideration is, therefore, whether the petitioner is entitled to any concession on account of the money already invested by him on the lands. In his statements before the Taluk Amildar on 31st August 1912 and 21st October 1912, he represented that he had incurred a considerable outlay for the improvement of the garden lands and that ever since he was dispossessed of them, the lessees have not devoted any attention for the proper maintenance and improvement thereof, as their interest has been only to derive as much profit as they can from the lands under the existing circumstances. The present Amildar reports in his Itilla No. 327, dated 21st October 1912, that the contention of the petitioner is true and that the lands have consequently deteriorated in value.

5. The petitioner prays that in consideration of the money already invested by him on the lands in question, they may be restored to him subject to the payment of an annual rent of Rs. 275 inclusive of the annual Government dues thereon. The enquiry conducted by the Amildar clearly shows that a large outlay has still to be incurred on the lands and that excepting Manjabhatta, the vahivatdar of the temple, who offers to take up the lands on a lease of not less than 100 years in duration, the petitioner is the only person who can be trusted to devote proper attention to the improvement of the lands. The leasing out of the garden lands for short periods results, as already stated in the gradual deterioration thereof, as the lessees can have no binding interest to improve the lands.

6. For the foregoing reasons two successive Amildars of the taluks recommend that the lands may be restored to the petitioner, although the step results in a net loss of Rs. 50 in the income derived by the temple considering that the petitioner has still to incur a large outlay to bring the garden lands to a proper condition, I would recommend that the lands may be restored to his possession on the expiry of the existing leases on his executing a muchalika binding himself not to alienate the lands or transfer them without the sanction of Government and that the rent offered by him may be accepted subject to revision after a period of ten years.

Muzrai, dated 1st August 1913.

7. The petitions under report are herewith returned together with the file of vernacular papers connected with the case.

No. 321—Muz. 282-10-9, dated Bangalore, 1st August 1913.

Order thereon.—The petitioner Bishtabhatta was heard in person on 7th July 1913.

2. As it is reported that the petitioner Bishtabhatta has spent considerable sums of money in order to improve the lands in question, Government are pleased to direct that the lands be leased out to the petitioner for a period of twenty years on an annual rent of Rs. 275 inclusive of the Government dues payable thereon. The land Survey No. 19 is stated to have been given on a yearly lease and Survey No. 12 for five years to another person. The former should be handed over to the petitioner immediately and Survey No. 12 on the expiry of the present lease unless the lessee is willing to surrender the same at once as the result of any understanding between him and Bishtabhatta.

3. The lease may be renewed to the petitioner for another period afterwards, but gardens and other lands belonging to temples should not on principle be given out for long periods or on Mulgeni.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 5th August 1913.

READ—

Petition registered No. 5138, dated the 22nd June 1908, from Narasingappa of Bommenhalli in the Tiptur Taluk, appealing against the Deputy Commissioner's order, directing the recovery from him of certain jewels (or their value) belonging to Sri Ranganathaswami temple at the place.

Correspondence ending with letter No. 239, dated the 16th November 1912, from the Deputy Commissioner, Tumkur District, on the subject.

No. 352—MUZ. F. 173-07, DATED BANGALORE, 5TH AUGUST 1913.

ORDER THEREON.—The temple of Sri Ranganathaswami at Bommenhalli in the Tiptur Taluk is a Muzrai institution and the puja thereof is being conducted in rotation by two cousins-Narasingappa (appellant) and Lakshmiah. It was the practice to leave the offerings made to the temple with the archaks. Petitions were received at the Taluk Office from the residents of Banasandra village and patél Ramegowda complaining of the misappropriation of the temple jewels by the said archaks; and in evidence thereof, certain old lists were produced by patel Ramegowda whose father was formerly managing the temple affairs. In the course of the enquiry, the appellant contended that the lists were fabricated and that the temple properties were forcibly taken away from him and made over to Hosahalli Chikka Rangiah in 1902, when the puja of the temple was made over to him by the villagers. No evidence was, however, adduced by Narasingiah in proof of his allegation. The Deputy Commissioner found that the Pujaris Narasingiah and Lakshmiah or their fathers and predecessors in office had misappropriated the jewels of the temple valued at Rs. 450 and has ordered that the present archaks should be held responsible for this amount. Against this order, Narsingappa has appealed to Government.

2. The case was heard before Government. Mr. N. V. Narasimmiengar was permitted to appear for the appellant.

3. It is contended that no clear proof of misappropriation has been made out. In a matter of the kind it is useless to expect judicial proof nor is the proceeding held a judicial one. From the statement of Servegar Hache Gowda and the Amildar's report, it is clear that the appellant's father Narasingiah was in possession of jewels worth Rs. 100. The Deputy Commissioner has not clearly stated what amount has to be made good by the appellant. The amount is now fixed at Rs. 100, and the amount may be levied from appellant, six months' time being given.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Tumkur District, returning the records.

Exd.—C. R.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. *of* .

Appellant	*vs.*	Respondent
Rangappa, son of Gopaliah		Venkatapathiah.

Subject.

Archakship of Sri Venkataramanaswami temple at Konakunthu in the Chintamani Taluk.

Facts of the case.

The dispute is about the right to perform the puja in the Sri Venkataramanaswami temple at Konakunthu in the Chintamani Taluk. The original hakdars for the archakship were (i) Ramappa and (ii) Channappa, son of Narnappa, who were performing the worship in rotation in 1869, being unable to continue the puja on account of illness. Ramappa nominated as his successors in office his sons-in-law Gopaliah (appellant's father) and Venkatapathiah (respondent). This arrangement was sanctioned by the Deputy Commissioner in his Order No. 88, dated 9th August 1869, and in pursuance of this order, both of them were doing puja in rotation till 1874, when a theft of some idols of the temple took place. The archaks responsible were ordered to be removed and on the recommendation of the Amildar, the Deputy Commissioner approved, in his Order No. 407, dated 1st November 1874, the appointment of the appellant's father Gopaliah as archak, on probation, subject to his giving proper security, as he would be in possession of the valuables of the temple.

In the year 1895, the respondent complained to the Amildar and the Deputy Commissioner that his hissedar Gopaliah (appellant's father) had encroached upon his rights during his absence at Harobande in the Chikballapur Taluk, and praying that he might be put in possession of the archakship and enjoyment of the inam lands. The matter was not disposed of until 24th July 1905, when the Amildar (Mr. B. Chennigappa) passed orders on an *ex-parte* enquiry and decided that Gopaliah had the exclusive right to the office. Thereupon, the respondent Venkatapathiah appealed to the Deputy Commissioner and the Deputy Commissioner Mr. C. Srikantesvara Aiyar held in reversal of the Amildar's decision that appellant and respondent should discharge the duties of the office by rotation. Against this order, Gopaliah's son Rangappa has appealed to Government.

(2) The case was heard before Government. The appellant was represented by his Advocate Mr. N. V. Narasimmiengar, while the respondent was present in person and was represented by his Advocate Mr. Varadarajiengar.

Decision.

The main contention of the appellant is that Gopaliah was in sole charge of the archakship since 1874, when he was appointed to the office by the Deputy Commissioner and that the respondent never discharged the duties of the office since then and that, therefore, he had forfeited any right he might have had. The Deputy Commissioner has given very strong reasons for the conclusion arrived at by him that the original order of dismissal of the archak by the Deputy Commissioner in 1874 concerned only Channappa who was the officiating archak at the time the idols were stolen, that his place was taken by Gopaliah without in any way altering the position of the respondent Venkatapathiah and that since 1874 Gopaliah and the respondent continued to act as the joint archaks of the temple. The Government agree with the Deputy Commissioner in thinking that the two joint petitions of the appellant's father and the respondent, dated 23rd January 1888 conclusively establish that at least until then, both Gopaliah and Venkatapathiah were officiating as archaks of the temple, attending to the

Muzrai, dated 9th August 1913.

Diparadhane and Ratotsava and administering the temple affairs. Government, therefore, see no reason to interfere with the Deputy Commissioner's order. The appeal is accordingly dismissed.

MEMO No. 444—MUZ. 6-11-8, DATED BANGALORE, 9TH AUGUST 1913.

Copy of the above is forwarded to the Deputy Commissioner, Kolar District, returning the records received with his letter No. 5780—268, dated 15th February 1912.

By Order,
K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

READ AGAIN—

Government Proceedings No. 2917-8—M. F. 265-09-6, dated the 29th May 1912, sanctioning the establishment of a clerk on Rs 25 per mensem for attending to the Muzrai work in the Hassan Deputy Commissioner's Office the cost thereof being met by an appropriation of the sums mentioned against the marginally noted Muzrai institutions in the Hassan District, and requesting the Deputy Commissioner to submit proposals for the revision of the scales of expenditure in these institutions so as to provide for the cost referred to above.

	Rs.
(1) Ramnathpur Chattram	40
(2) Bisle Sri Ramadevaru Chattram ...	40
(3) Sri Channakesavaswami temple at Belur	40
(4) Jain Matt at Sravanabelagola ..	100
(5) Barahazar Santarpane	80
Total	300

2. Correspondence ending with letter No. 27, dated 25th July 1913, from the Deputy Commissioner, Hassan District, submitting proposals for the revision of the scale of expenditure in the institutions mentioned above and stating that the amount noted against the Barahazar Santarpane allotment may be debited to the annual savings effected from the establishment charges of the Sri Bisle Rama Devaru Chattram instead of to the Santarpane allotment as in case the plague restrictions are relaxed, there would be a large influx of pilgrims, and that the sums to be debited to the Jain Matt of Sravanabelagola and Sri Channakesavaswami temple at Belur may be met from the general savings of the institutions.

No. 542-4—Muz. 125-12-4, dated Bangalore, 15th August 1913.

ORDER THEREON.—The Barahazar Santarpane Fund has invested surplus and the interest accruing can well bear the quota of cost debited against it. As regards the Jain Matt at Sravanabelagola and the Sri Channakesavaswami temple at Belur, it is reported that it is difficult to make any reduction in the sanctioned expenditure and that the amounts debited against these institutions may be met from their annual savings. The Deputy Commissioner's recommendation in this respect is sanctioned.

2. The revised scales of expenditure in the remaining two institutions (Chattram at Ramnathpur and Bisle Sri Rama Devaru Chattram) are sanctioned and appended to this order.

3. The Deputy Commissioner is requested to report the entertainment of the clerk sanctioned and the date from which he has been so entertained.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Proceedings No. (P. W.) 160-3—C. P. S., dated the 5th April 1913, sanctioning revised rates for electric power supplied for industrial concerns in the Bangalore City.

2. Letter No. 115—E. C., dated the 22nd July 1913, from the Secretary to the Mysore Economic Conference forwarding a copy of the resolution of the Conference regarding the rates for the supply of electric power for minor industries.

3. Statements showing the power at present utilised by the various concerns in Bangalore, the load factors up to which they work and the resulting rates per H.P. per annum and per month, submitted by the Chief Electrical Engineer to Government.

4. Memorandum dated the 30th July 1913, by Mr. A. Chatterton, C.I.E., Director of Industries and Commerce in Mysore, comparing the relative cost of working a concern with a suction gas plant capable of delivering 40 B.H.P. and with a 30 unit electric motor.

5. Letter No. 289, dated the 5th August 1913, from the Chief Electrical Engineer to Government, submitting a brief report of the discussion held at a meeting of the Committee composed of the undermentioned officers, on the 30th July 1913, for considering the different rates proposed for the supply of electric power for industrial purposes:—

1. Alfred Chatterton, Esq., C.I.E.
2. C. F. Beames, Esq., M.A.I.E.E.
3. C. S. Balasundaram Iyer, Esq., B.A.
4. K. Krishnaiengar, Esq., B.A., L.C.E.

No. 471-5—C.P.S., DATED BANGALORE, 25TH AUGUST 1913.

ORDER THEREON.—Since the issue of the Government Order of 5th April 1913 read above, representations have been made to Government that the rates sanctioned for electric power were not such as to induce users of power for industrial purposes to put in electric motors in preference to other means of generating power. A recommendation in favour of a reduction of rates was also made by the Mysore Economic Conference at its session in June last.

2. The whole subject has been further considered in the light of these representations. In the opinion of Government electric power can be used to the best advantage and in the most economical manner for industries which can be carried on continuously day and night and with a high load factor. The statement furnished by Mr. Beames shows that these conditions are wanting in most of the cases where power is now being used in Bangalore. The cost of power must necessarily be high in these circumstances and Government are of opinion that in the objections raised to the rates sanctioned in the Government Order of 5th April 1913 sufficient weight has not been attached to the existing defective conditions of working.

3. However, Government are desirous of affording every encouragement to nascent industries and are prepared to fix the rates as low as possible consistently with the minimum cost of power generation. Government are satisfied that the rates as further revised by the Special Committee referred to in paragraph 5 of the preamble for demands more than 2½ H.P. and up to 200 H.P. are very moderate and reasonable and they are accordingly pleased to sanction the same in supersession of those sanctioned in Government Order No. (P. W.) 160-3—C. P. S., dated the 5th April 1913.

SCHEDULE OF RATES FOR POWER.

Installation rating by the Electrical Department with all motors operating at the maximum demand			Minimum monthly charge per H.P. whether motors are operated or not		Rate per B. T. U. for power consumed in excess of that included in the minimum monthly charges
				Rs.	As.
Above	2½ H.P.	and under	7½ H.P.	8	1·5
,,	7½ H.P.	,,	20 H.P.	7	1·25
,,	20 H.P.	,,	50 H.P.	6	1·00
,,	50 H.P.	,,	100 H.P.	6	·875
,,	100 H.P.	,,	200 H.P.	6	·75

Public Works, dated 25th August 1913.

A maximum demand of 2½ H.P. or less will be supplied at the rate of As. 2'5 per B. T. U. with a minimum charge of As. 6 per point of 60 watts.

Installations exceeding an integral number of H.P. shall be rated at the next lower integral when the excess is less than '5 H.P. or at the next higher integral when the excess is more than '5 H.P. All the installations are subject to inspection and test by qualified inspectors of the Electrical Department and re-ratings for excess demands will be made whenever necessary.

A fixed charge of Re. 1 per month will be levied as meter hire for each meter installed.

DISCOUNTS.

4. Discounts varying from 10 per cent to 30 per cent will be granted for load factors varying from 50 per cent to 100 per cent, the rate increasing by two per cent for every five per cent increase in the load factor, as shown in the following table:—

Over	50	per cent load factor		10	per cent
,,	55	,,		12	,,
,,	60	,,		14	,,
,,	65	,,		16	,,
,,	70	,,		18	,,
,,	75	,,		20	,,
,,	80	,,		22	,,
,,	85	,,		24	,,
,,	90	,,		26	,,
,,	95	,,		28	,,
,,	100	,,		30	,,

The load factor shall be determined by dividing the total B. T. Us used in any month (as measured by the Electrical Department's integrating wattmeter) by 600 working hours in a month. For purposes of calculation under this rule, a month will be regarded as consisting of 600 working hours. The load factor will be calculated as under:—

$$\text{Load Factor} = \frac{\text{Total B. T. Us in the month}}{600 \times \text{rated H.P.} \times 746.}$$

5. "As the supply of power now available is limited, Government direct that smaller industries be encouraged and the supply be restricted for the present to motors aggregating 50 H.P. or less. No application for higher loads should be granted without the previous sanction of Government. All communications in that behalf should be accompanied by full information as to the amount of power available from the quantity held in reserve.

Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 2nd August 1913.

READ—

Subject No. 84 of the Mysore Dasara Representative Assembly Proceedings of 1912 :—

Summary of discussion.—The license fee levied on crackers is the same as on gun powder (Re. 1 for 200 lbs.), but the quantity of explosive material contained in a cracker is not even one-twentieth of its total weight. It is, therefore, prayed that the license fee on crackers may be proportionately reduced.

No. 397-402, DATED BANGALORE, 2ND AUGUST 1913.

ORDER THEREON.—It would be quite impossible to determine the quantity of explosive in each kind of crackers every time a license is required, nor is it advisable to go by the number of boxes the contents of which may vary enormously. The prescribed license fees are very small and the procedure of calculating these on the gross weight of the fireworks (exclusive of boxes) is the same as in British India and does not, in the opinion of Government, require revision.

W. F. SMEETH,
Secy. to Govt., Geol. Dept.

To—The Chief Inspector of Explosives.
The District Magistrates of Districts.
The Registrar, Chief Court.
The Inspector-General of Police.
The Secretary to Government, General and Revenue Departments.
The Deputy Commissioner, Shimoga District, for communication to the Representative member concerned.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 2nd August 1913.

READ—

Subject No. 25 of the Mysore Dasara Representative Assembly Proceedings of 1912:—

Summary of discussion.—According to a recent decision of the Chief Court, crackers are included among "Explosives" and as such cannot be kept without a license according to law. As boys are in the habit of using them almost every day for play, the law may be so modified as to definitely exclude crackers and similar articles from the term "Explosives."

No. 391-96, DATED BANGALORE, 2ND AUGUST 1913.

ORDER THEREON.—Crackers are explosives and cannot therefore be excluded from the provisions of the Mysore Explosives Regulation.

2. Rule 5 (2) of the Rules under the Mysore Explosives Regulation permits the possession, without a license, of explosives within certain limits which are sufficient to cover the case of crackers required for personal use.

3. The decision of the Chief Court refers only to possession of crackers for *purposes of sale.*

4. Under these circumstances, Government consider that no further exemptions are necessary.

W. F. SMEETH,
Secy. to Govt., Geol. Dept.

To—The Chief Inspector of Explosives.
The District Magistrates of Districts.
The Registrar, Chief Court.
The Inspector-General of Police.
The Secretary to Government, General and Revenue Departments.
The Deputy Commissioner, Hassan District, for communication to the Representative member concerned.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The following preliminary report, dated 23rd August 1913, by the Chief Inspector of Mines in Mysore, on a fatal accident due to the fall of a cage for raising and lowering persons in Edgar's Shaft, Mysore Mine, on the 21st August 1913.

About 7 A.M., on the morning of the 21st August 1913, the north cage in Edgar's Shaft fell from 100 feet below surface to the bottom of the shaft a distance of 2,600 feet. The cage has two compartments one above the other in each of which 25 men are permitted to travel. At the time of the accident there were altogether 42 persons in the cage, *viz.*, 6 Italians, 2 Eurasians and 34 Natives, all of whom must have been killed instantaneously when the cage reached the bottom of the shaft. When the cage fell away, at 100 feet from surface, it was on the downward trip and travelling at some 1,200 to 1,300 feet per minute.

2. Edgar's Shaft is a vertical circular shaft which was completed and equipped some two years ago. The cages run up and down on steel guides without safety catches.

3. There are two cages, one of which ascends as the other descends, each cage being suspended by a flat steel rope passing over a pulley at the top of the head-gear and led from thence into the engine room where it is coiled round a flat drum or reel some 16 feet in diameter. Each reel is mounted on the main engine shaft, but is not rigidly fixed to the latter. While winding is going on the reel is secured to the main shaft by means of a clutch which in the present engine is in the form of a steel band, lined with wood, acting on a drum—very like a band brake. One end of this steel band is attached to a fixing on the shaft through an "adjusting link" for taking up wear and regulating the tension of the clutch band. The accident was due to the snapping of this link which released the clutch and left the reel, on which the winding rope is coiled, free to revolve on the shaft and therefore disconnected from the engine.

4. The link which snapped is in the form of a bolt $3\frac{3}{8}$" in diameter, made of mild steel, and appears to be amply strong enough. When I inspected the engine the day after the accident the broken pieces of the link were still in position and the fractures were perfectly clean and fresh. There was no appearance of any flaw, but it is impossible to say whether any molecular alteration may have been set up without further examination.

5. Each reel is provided with a very powerful post brake which is capable of controlling the rotation of the reel, whether the latter is clutched to the shaft or not, under ordinary working conditions. These brakes appear to have been in perfect working order and are in constant use every day. At the moment when the link snapped and the south reel became declutched from the main engine shaft the south cage with 42 men was 100 feet below surface and the north cage with 21 men in it was 100 feet above the bottom of the shaft, the former descending and the latter ascending. The engine-driver (J. Jenkins) heard the snap of the link and without being able to recognize what had happened he immediately cut off steam and applied the two brakes which are worked by two small engines. The promptness of this action is shown by the fact that the north cage was brought to rest 150 feet above the bottom of the shaft so that it travelled only 50 feet after the snap took place. In other words after the snap was heard the engine driver cut off steam, applied the brakes and brought the north cage to rest within a space of a few seconds and the cage with its burden of 21 men remained suspended in the shaft for three hours or so until it was ascertained that it was safe to lower it again to the bottom. In this case, the weight of the cage, rope, etc., helped the brake to overcome the momentum of the moving masses.

6. In the case of the south cage, which was descending, the whole work devolved upon the brake which failed to bring the reel and the cage to a standstill. The friction of the brake blocks on the brake drum of the reel was so great that the wooden brake blocks were charred and the engine room filled with smoke in a few seconds. The engine driver stuck to his post, though he could do nothing further, while the reel revolved in a cloud of smoke and after the cage had struck the bottom the rope continued to pay out until some 14 spare coils were unwound and finally the plates and bolts which attach the rope to the drum of the reel were torn off and disappeared through the roof of the engine house.

7. The engine is in the charge of Mr. Kendall, one of the Assistant Engineers, and is subject to regular daily inspection. So far as I can see there was nothing whatever wrong with the brakes or the clutches or anything else and the sudden failure of the adjusting link is one of those unforeseen contingencies which it is not possible to account for at present.

8. On the other hand, this accident must raise questions as to the mechanical soundness of the particular type of clutch employed and as to the efficiency of the types of brake now employed on large winding engines with heavy loads and working at great depths.

9. The question of brakes has already been the subject of protracted discussion in various parts of the world and is by no means finally settled. I have followed the discussion from time to time, but have no wish to intrude my own opinions upon such a technical speciality. The fact remains that the brake failed to bring the descending cage to rest under conditions which are by no means so arduous as those which might obtain in many cases, where quick winding of heavy loads has to be undertaken, and the accident affords a definite and terrible object-lesson which requires the fullest investigation.

Geological, dated 29th August 1913.

10. The question of the type of clutch and of the nature of the fracture of the link also requires further consideration.

11. As soon as the necessary details are available I propose to obtain a fuller discussion of the particular conditions of this accident both by the Engineers on the Kolar Field and by outside authorities on this particular subject. In the meantime, work will be resumed as usual, but the adjusting links on both clutches will be replaced and constructed of slightly larger section, if possible.

12. As regards safety catches for holding up the cage in case the rope breaks, permission has been given to work the cages without safety catches as there was no safety catch known which was regarded as reliable and effective and free from grave objections. The practice of working such cages without safety catches is the usual one followed in other mining centres after exhaustive enquiry and experiment. In the present case it may be noted that the rope did not break and was probably under considerable tension all the time the cage was descending the shaft and that consequently no automatic safety catch would have been of the slightest use in averting the catastrophe.

13. The accident is a most unusual one and a repetition of it need not be anticipated and there is no obvious defect which requires immediate correction.

No. 580-7, DATED BANGALORE, 29TH AUGUST 1913.

ORDER THEREON.—The above report will be recorded.

2. In view of the magnitude of the accident and the terrible loss of life involved, Government are pleased to direct that an enquiry into the circumstances of the accident should be held as soon as possible by a Special Committee and a report furnished to Government.

3. The Special Committee will consist of Dr. W. F. Smeeth, M.A., D.Sc., Chief Inspector of Mines, Mr. Justice Wallace, I.C.S., Mr. C. Srikantesvara Aiyar, B.A., B.L., Inspector-General of Police, and one or two of the Chief Engineers of the Mines to be selected by the abovementioned officers in consultation with the Kolar Gold Mining Board.

4. The special enquiry hereby ordered will be undertaken as soon as possible and will be in addition to and independent of the technical investigation proposed by the Chief Inspector of Mines.

W. F. SMEETH,
Secy. to Govt., Geol. Dept.

To—The Chief Inspector of Mines in Mysore.
The Superintendent, Mysore Gold Mine, Marikuppam.
The Registrar, Chief Court of Mysore.
The Inspector-General of Police in Mysore.
The Secretary, Kolar Gold Field Mining Board.
The District Magistrate of Kolar.
The Comptroller, Mysore Government.
The Secretary to Government, General and Revenue Departments.

Exd.—C. R.

PART II.

REVENUE

SECTION 1—LAND REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1913.

Serial No.	Proceedings: Number	Proceedings: Date	To whom sent	Subject and Order
1	R 1100—G R 201-11-5 ...	1	Rev. Commissioner ...	Rejects the appeal of Narasimhaiya, Inamdar of Kurenahalli, Krishnarajpete Taluk, regarding the settlement of accounts connected with the management of the said village by agent Venkataramaiya.
2	R 1110—L R 201-11-6 ...	1	Narasimhaiya, Inamdar of Kurenahalli, Krishnarajpete Taluk	Informs him of the above.
3	R 1112-3—L R 71-13-2 ...	1	Rev. Comr., Chief Engr., Comptr. and Dy. Comr., Mysore	Sanctions the extension of the term of office of the Special Land Acquisition Officer, Kanambadi, and his establishment up to 30th June 1914.
4	R 1120—L R 374-12-4 ...	2	C. Subba Rao, late shevistadar of the District Court, Mysore	Rejects his appeal against the order of the Revenue Commissioner in Mysore, cancelling the revenue sale of Survey No. 131 of Kesare village, Mysore Taluk.
5	R 1121 ...	2	Rev. Commissioner ...	Forwards copy of the above.
6	R 1126—L R 328-12-4 ...	2	Do ...	Forwards copy of the order in appeal No. 102 of 1911-12, directing that if the appellant Venkata Rao's son is qualified for the Shanbhogi Office of Hoskote, Dandupalya, Somadevahalli and Sarvamanya Kurubarahalli villages in the Hoskote Taluk, the respondent Seenappa should be relieved and the appellant's son appointed as gumasta and if none of the appellant's sons is qualified, the present arrangement may continue till one of them becomes fit to take charge of the work.
7	R 1135—L R 10-13-18 ...	4	Do ...	Records his report on the occurrence of an accidental fire at Malebennur village, Haribar Sub-Taluk, on the 17th June 1913.
8	R 1136—L R 10-13-19 ...	4	Do ...	Records his report on the occurrence of an accidental fire at Kortakere village, Channagiri Taluk, on 19th April 1913.
9	R 1138-9—L R 216-13-2	4	Rev. Comr. and Comptr.	Approves of the Malvalli Taluk being placed under the direct charge of the Deputy Commissioner, Mysore District, the routine papers of the taluk being disposed of by Mr. T. G. Rama Iyer in his capacity as Personal Assistant to the Deputy Commissioner.
10	R 1151-4—L R 80-13-2 ...	4	Chief Engr., Rev. Comr., Comptr. and Dy. Comr., Chitaldrug	Sanctions the retention of Mr. K. Narasimha Iyengar, Amildar of the Hiriyur Taluk, on special duty in connection with the block system of irrigation under the Marikanave Reservoir in the Public Works Department, for twenty-three days in excess of the period mentioned in Government Order No. 1608-13—9875-9, dated 5th December 1912, and directs that he should resume charge of the Hiriyur Taluk.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
11	R 1155—L R 26-13-5 ...	4	Compiler, *Mysore Gazette*	Notifies the appointment of Mr. G. Santaveerappa, Police Inspector (now acting as Amildar of the Hiriyur Taluk) as Acting Amildar and 3rd Class Magistrate of the Shikarpur Taluk.
12	R 1156 ...	4	Rev. Commissioner ...	Forwards copy of the above.
13	R 1157 ...	4	Dy. Comr., Chitaldrug...	Ditto
14	R 1158 ...	4	I.-G. of Police ...	Ditto
15	R 1165—L R 61-13-4 ...	5	Compiler, *Mysore Gazette*	Notifies the appointment of S. Narayana Rao, Acting Judicial Head Munshi of the Deputy Commissioner's Office, Shimoga District, who has been placed in charge of the Shimoga Taluk, during the absence of Mr. M. S. Hayagriva Rao, Amildar, on one month's privilege leave, as Acting Amildar and 3rd Class Magistrate of that taluk, during the above period or until further orders.
16	R 1166 ...	5	Rev. Commissioner ...	Forwards copy of the above.
17	R 1182-3—L R 42-13-10...	6	Rev. Comr. and Comptr.	Sanctions the transfer of certain officials in the Kolar District, from the Local Fund to the Revenue Department and *vice versa*.
18	R 1202—L R 496-12-2 ...	6	Compiler, *Mysore Gazette*	Notifies the transfer of C. B. Shama Rao, Acting Deputy Amildar of French Rocks, temporarily to the Krishnarajpete Taluk, to assist the Amildar of that taluk, in the work connected with the acquisition of lands, etc., for the Cauvery Reservoir and the appointment of S. Srinivasa Murti, Acting Judicial Head Munshi, Deputy Commissioner's Office, Mysore, temporarily as Deputy Amildar and 3rd Class Magistrate, to assist the Amildar of the Yedatore Taluk, in connection with the above work and of Abdul Aziz Khan, Probationer, attached to the Mysore District, as Deputy Amildar and 3rd Class Magistrate of the French Rocks Sub-Taluk, during the employment of C. B. Shama Rao, as above or until further orders.
19	R 1203 ...	6	Rev. Commissioner ...	Forwards copy of the above.
20	R 1204 ...	6	Chief Engineer ...	Ditto
21	R 1205 ...	6	Dy. Comr., Mysore ...	Ditto
22	R 1216—L R 259-07 ...	7	Dy. Comr., Bangalore...	Records his report that the Inam lands of Thimmarayasandra Agrahar village in the Hoskote Taluk were not taken up for the restoration of the Aralegere tank in the same taluk.
23	R 1217—L R 64-12-7 ...	7	Rev. Commissioner ...	States that the prayer of Mr. G. Santaveerappa, Acting Amildar of Hiriyur, to a local allowance for the period he worked as Personal Assistant to the late Second Councillor is inadmissible and cannot be granted and that he may be asked to send up his representation about the increments claimed by him through the Inspector-General of Police.
24	R 1219—L R 36-13-7 ...	7	Do ...	Records his communication forwarding a statement showing the refunds sanctioned by him during the half-year ending 30th June 1913.
25	R 1221-2—L R 42-13-11...	7	Rev. Comr. and Comptr.	Sanctions the temporary transfer from 1st January to 24th February 1913 of Gopalakrishna Iyengar, a clerk of the Local Fund Department, as an accountant in the Revenue Department of the Kolar District Office.
26	R 1223—L R 20-13-4 ...	7	Rev. Commissioner ...	Directs that the extent of the Survey No. 96 in the Ravani village, Malvalli Taluk, which was sanctioned to be acquired be corrected from '1 acre and 29 guntas' to '12 acres and 29 guntas.'

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
27	R 1224—L R 20-13-5 ...	7	Compiler, *Mysore Gazette*	Notifies the certain erratum in respect of the above.
28	R 1226—L R 79-13-2 ...	8	Do ...	Notifies the cancellation of one month's privilege leave granted to Mr. G. Santaveerappa, Acting Amildar of Hiriyur.
29	R 1232-3—L R 29-13-4...	8	Rev. Comr. and Comptr.	Sanctions the purchase of certain books except Mayne's Hindu Law, at a cost of Rs. 41-4-0, for the office of the Deputy Commissioner, Bangalore District.
30	R 1255—L R 82-13-2 ...	8	Compiler, *Mysore Gazette*	Notifies the grant to Mr. P. Subba Rao, B.A., B.L., Amildar of the Tarikere Taluk, of one month's privilege leave on medical certificate from the date from which he may avail himself of it and the appointment of M. Narayana Rao, B.A., Taluk Sheristadar of Kadur, as Acting Amildar and 3rd Class Magistrate of the Tarikere Taluk, during the above period or until further orders.
31	R 1256 ...	8	Rev. Commissioner ...	Forwards copy of the above.
32	R 1257 ...	8	Dy. Comr., Kadur ...	Ditto

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
33	R 1275—L R 10-13-21 ...	9	Rev. Commissioner ...	Records the Revenue Commissioner's letter reporting the occurrence of an accidental fire at Naravalapalli in the Bagepalli Taluk, on the 24th June 1913.
34	R 1276—L R 519-12-2 ...	9	Do ...	Declines to reconsider the orders already passed reverting P. Nowroji from the post of Acting Head Clerk of the Deputy Commissioner's Office, Mysore, and states that his case may be taken into consideration in submitting proposals for promotions in future if the official gives satisfaction in his duties and qualifies himself for the Head Clerk's place by passing the prescribed tests.
35	R 1278-9—L R 13-13-4...	9	Rev. Comr. and Comptr.	Sanctions a bill for Rs. 1-12-11, being the charge allowance claimed by A. Srinivasa Rao, Head gumasta, Koppa Taluk, for having been in charge of the current duties of the Taluk Sheristadar, in addition to his own from the 20th May to 2nd June 1913, during the absence of the latter on privilege leave.
36	R 1280-1—L R 30-13-4...	9	Do ...	Sanctions the purchase of 175 net bags at a cost of Rs. 78-2-0, for the use of the District and Taluk Treasuries in the Shimoga District.
37	R 1337—L R 10-13-22 ...	11	Rev. Commissioner ...	Sanctions as a special case, the grant of date trees for building purposes to the non-kandayam paying persons who suffered by the accidental fire at Mallarahalli, Challakere Taluk, on 17th May 1913.
38	R 1338—L R 10-13-20 ...	11	Do ...	Records the Revenue Commissioner's letter reporting the occurrence of an accidental fire at Batlakatte, Davangere Taluk, on 3rd April 1913.
39	R 1340—L R 10-13-23 ...	11	Do ...	Records the report of the occurrence of an accidental fire at Thippur village in the Yedatore Taluk, on the 26th June 1913, resulting in the destruction of thirteen huts with property worth Rs. 3,000.
40	R 1341-2—L R 14-13-5 ...	11	Rev. Comr. and Comptr.	Records the Revenue Commissioner's letter No. 903, dated 25th July 1913, stating that the appointments of S. Raghunatha Rao and B. T. Garudachar, as Acting Revenue 6th Accountant and Acting Treasury Accountant, respectively in the Tumkur Deputy Commissioner's Office, which are contrary to the Rules, have been made subject to the incumbents passing the Accounts Test and that the promotions may be continued to be treated as temporary.
41	R 1343-4—L R 615-13-4...	11	Do ...	Directs that the certificate of incapacity granted by the District Medical Officer of Bangalore, in the case of Gangadhara Rao, Revenue Gumasta of the Sidlaghatta Taluk, be accepted for retiring the official.
42	R 1347-8—L R 28-13-7 ...	11	Rev. Comr. and Survey Superintendent	Sanctions the appropriation of 4 guntas of land out of Survey No. 46 of the Channadevi Agrahar village, Dodballapur Taluk, for building a District Fund Rest House thereon.
43	R 1351-2—L R 330-12-6...	11	Rev. Comr., and Chief Engineer	Declines to sanction the appointment of a separate manegar and sowdies for the Watadahosahalli tank in the Goribidnur Taluk and observes that, as the distribution of water from the tank is attended to by the nirgantees, there should be no difficulty for the manegar sanctioned in Government Order No. 8948-9—R. 3091, dated 30th June 1900, to look after the above tank and the one at Bairasagara in the Gudibanda Sub-Taluk.
44	R 1423—L R 45-13-3 ...	12	Rev. Commissioner ...	Records his letter submitting a statement of remissions of irrecoverable arrears of revenue sanctioned by him during the half-year ending 30th June 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
45	R 1424-5—L R 11-12-55...	12	Rev. Comr. and Comptr.	Directs that certain officials in the Mysore District, who have been given promotions during the quarter ending 30th September 1912, not being qualified, they may be informed that they will be reverted to their former appointments unless they qualify themselves at the next chance by passing the required tests.
46	R 1470—L R 16-12-15 ...	14	Rev. Commissioner ...	States that it is not necessary to renew the sanction of Government, accorded in Government Order No. R. 6762—L. R. 44-08-13, dated 1st March 1909, for the acquisition of certain lands in the Vaddarapalya village, Bangalore Taluk, for the extension of the village burial ground and that the amount of compensation may be paid with the sanction of the Comptroller, if there is provision for it in the budget.
47	R 1471-2—L R 36-12-60...	14	Rev. Comr. and Comptr.	Observes that as Mahomed Malik, Municipal Mutsaddi of Honnali, has not passed the Revenue Examination, he is not eligible for being permanently appointed as shekdar and directs that the appointment be continued as *sub pro tem* for another year and that the official be warned that he would be reverted to his permanent appointment if he does not pass Revenue Examination at the next chance.
48	R 1511-2—L R 29-13-6 ...	15	Do ...	Sanctions the expenditure of Rs. 20-12-0, incurred by the Revenue Commissioner in remitting subscription for certain periodicals required for his office use.

Serial No.	Proceedings: Number	Date	To whom sent	Subject and Order
49	R 1573-4—L R 36-13-3 ...	18	Rev. Comr. and Comptr.	Sanctions a refund bill for Rs. 633-14-6, being the amount of kandayam recovered from the raiyats of Eliyur and Erehalli villages in the Mandya Taluk in 1902, but credited towards the contribution due by them on account of special repairs to the Eliyur tank.
50	R 1577—L R 505-11 ...	18	Rev. Commissioner ...	Rejects the claim of Iravatam Rangiengar of Yeldur village, Srinivaspur Taluk, to the shanbhogi offices of Suggadanahalli and Birava Doddi villages in the Malur Taluk.
51	R 1578—L R 319-12 ...	18	Iravatam Rangiengar, Yeldur village, Srinivaspur Taluk	Informs him of the above order.
52	R 1579—L R 386-12-4 ...	18	Rev. Commissioner ...	Rejects the appeal of Venkatachelliah of Honnavara village, Dodballapur Taluk, against the Revenue Commissioner's order, upholding that of the Deputy Commissioner, Bangalore District, directing the registry of Survey Nos. 1—1 and 42—3 of Kammasandra village, Dodballapur Taluk, in the name of the Respondent Gangadharagowda in pursuance of the decree of the Chief Court.
53	R 1580—L R 386-12-5 ...	18	Venkatachelliah, Honnavara village, Dodballapur Taluk	Endorsement informing him of the above order.

FINANCIAL

SECTION 1—GENERAL FINANCE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 706-7—9-13-3 ...	5	Comptr. and Dy. Comr., Mysore	Sanctions the grant of an advance of six months' pay to R. Chakravarthi Iyengar, Accountant, District Excise Office, Mysore, for completing the construction of his house in the Lakshmipur extension, Mysore City.
2	Fl 708-9—32-11-1 ...	5	Comptr. and Mr. T. Lakshminarasimha Rao, B.A., B.L, Asst. Secy. to Govt., Finl. Dept.	Records the report on the results of the studies made by Mr. T. Lakshminarasimha Rao during the period of his deputation at Simla and Calcutta, with the observation that it touches upon several questions of administrative importance, that he may place at the disposal of the Comptroller any further useful information collected on the spot on the subjects relating to financial control and procedure and that Government hope that he will make full use of the information and experience gathered by him in the discharge of his duties.
3	Fl 729—11-12-22 ...	6	Comptroller ...	Accords sanction to the Comptroller subscribing from his office contingencies for "Banker's Journal" and four others required for reference in his office, with the exception of "Economic Review" which should be purchased only if it is not subscribed for in the Economic Conference Office and the General and Revenue Secretariat.
4	Fl 730—180-12-2 ...	6	Do ...	Sanctions the entertainment in service of one H. Narasinga Rao, as a permanent apprentice clerk of the Comptroller's Office, he having been more than twenty-five years of age on the date of entertainment, *viz.*, 2nd May 1913.
5	Fl 731—31-12-9 ...	6	Do ...	With reference to his enquiry if the stamp and registration fees deducted by the Agent, Mysore Spinning and Manufacturing Company, Limited, on account of the execution of the mortgage deed, may be accepted, states that the claim should be set off against the sum due to Government, that the sum of Rs. 96,555 and odd should be deemed due for payment on 1st March 1911, the rate of interest leviable thereon being four per cent and that no compound interest can be levied.
6	Fl 732—179-12-2 ...	6	Do ...	Sanctions the purchase of an iron safe at a cost of Rs. 200 for keeping therein certain important documents held in custody by the Comptroller.
7	Fl 733—11-12-23 ...	6	Do ...	Sanctions the purchase of certain Parliamentary Publications at an estimated cost of Rs. 21 for the use of the Comptroller's Office.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
8	Fl 780-3--9-12-109 ...	9	Comptr., Dy. Comr., Bangalore, Rev. Comr., and Secy. to Govt., G. R. S.	Sanctions the grant of an advance of six months' pay to Mr. M. Rama Rao, Amildar of Gubbi now acting as Personal Assistant to the 1st Councillor for completing the construction of his house in Malleswaram extension, Bangalore City.
9	Fl 807—21-13-2 ...	13	Compiler, *Mysore Gazette*	Notifies the advertisement of the Security of the Mysore five per cent Railway Debenture Loan of 1882 which was lost and in respect of which a duplicate had been issued and subsequently discharged by payment of Principal and Interest due on the bond.
10	Fl 810—16-12-93 ...	13	Regtr., Chief Court ...	Intimates that the Government are pleased to extend the benefit of the revised motor car rules issued in March 1913 to the Judges of the Chief Court and to the District and Sessions Judges.
11	Fl 817-20 —35-12-18 ...	13	Mily. Secy., Comptr., Comptr., P. W. Branch, and Chief Engr.	States that the proposal of the Military Secretary to transfer to the Public Works budget the item of Rs. 922, being the balance of the estimate for constructing watchmen's quarters at Hessarghatta Grass Farm cannot be sanctioned, as the year 1912-13 has closed and directs that the excess estimate may be treated as authorised in the accounts.
12	Fl 863-4—145-12-27 ...	15	Comptr. and Rev. Comr.	States that, as the year has closed, it is not possible to sanction the reappropriation of Rs. 1,770 proposed by the Revenue Commissioner and directs that the excess charges incurred should be considered as authorised.
13	Fl 865—110-12-10 ...	15	Chief Comdt., Mysore State Troops ...	With reference to his proposal for retaining full amounts under certain heads in the final budget, states that it is not considered necessary to revise the figures provisionally accepted, as the amounts cut out are such as could easily be found by reappropriation from within the Military budget itself.
14	Fl 866-8—16-13-10 ...	15	Comptr., Dy. Comr., Shimoga and Revenue Comr.	Sanctions the grant of an advance of Rs. 3,200 to Mr. K. Mathan, Officiating Deputy Commissioner, Shimoga District, for purchasing a motor car, subject to strict compliance with the rules of Government Order dated 10th March 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
15	Fl 881-2— 4-13-4 ...	18	Comptr., Dy. Comr., Mysore	Sanctions two bills, one for Rs. 4-1-6 and the other for Rs. 426, on account of fees claimed by the Public Prosecutor for having conducted a Civil Suit instituted by Singamma against Government and Mr. Chamappaji Urs, with the observation that the fee of Rs. 16 claimed cannot be admitted, as the Public Prosecutor is not entitled to remuneration for having given an opinion in a case which he himself conducted on behalf of Government and for the conduct of which he has charged separately.
16	Fl 970-3—9-13-10 ...	19	Offg. Chief Engineer, Comptr., Comptr., P. W. and Ry. Branch and Dy. Comr., Bangalore	Sanctions, under the circumstances explained, in supersession of Government Order dated 15th April 1910, an advance of one year's pay to Mr. K. Sreenivasiengar, Officiating Executive Engineer, Water-Supply and Stores Division, for completing the construction of his house in the Basavangudi extension for which he did not draw the advance already sanctioned in the order above referred to.
17	Fl 993-5—9-13-11 ...	20	Comptr., Dy. Comr., Bangalore and Excise Comr.	Sanctions the grant of an advance of one year's pay to N. Cheluviengar, Excise Inspector, for building a house in the Malleswara extension, Bangalore City.
18	Fl 1101-4—16-13-13 ...	23	Secy. to Govt., P. W. D., Comptr., and Comptr., P. W. and Rys. and Dy. Comr., Mysore	Sanctions under certain conditions an advance of Rs. 3,000 to Mr. Forbes, the newly appointed Assistant Operator at Sivasamudram, for purchasing a motor car, subject to strict compliance with the rules laid down in Government Order dated 10th March 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
19	Fl 1212-3—67-12-24 ...	25	Comptr. and Mily. Secy. to H. H. the Maharaja	Directs that certain bills received from the Military Secretary in connection with His Highness the Maharaja's Provincial tour of 1912 be passed and debited to the head "Reception and Entertainment of Guests" in the current year's budget.
20	Fl 1241—14-13-6 ...	26	Comptroller ...	Sanctions the grant of one month's privilege leave to T. Subbapathi Mudaliar, Assistant Examiner, Comptroller's Office, with effect from 22nd May 1913 and the appointment of B. Kesavachar to act for him during his absence.
21	Fl 1260—13-12-8 ...	27	Do ...	Sanctions a further grant of Rs. 100 for entertaining a temporary hand on Rs. 30 per mensem for the Civil Audit work in place of the special auditor who will be engaged in auditing the accounts of the Additional Munsiff's Court at Mysore for about three months.
22	Fl 1275—15-13-4 ...	29	M. R. Ry. Lakshminarasimhasastri, son of Kasipathi Sastry, Chamraj Road, Mysore	In reply to his petition praying for a loan of Rs. 20,000 on the security of his properties, *viz.*, the inam village of Bidagal in the Heggaddevankote taluk and his house in Mysore, informs him that Government regret their inability to grant it.
23	Fl 1277—82-12-4 ...	29	Comptroller ...	Conveys sanction to the grant of one month and eight days' privilege leave with effect from 24th April 1913 to T. Subramiah, Examiner in the Comptroller's Office, and to the consequential acting arrangements proposed by the Comptroller.
24	Fl 1305—93-11-67 ...	30	Do ...	Records his letter dated 27th March 1913 forwarding a revised statement showing the details of expenditure incurred in connection with the Delhi Durbar and stating that out of the amount of Rs. 42,637-14-0 shown as unadjusted advance in the previous report, all the sums have been adjusted excepting two items aggregating Rs. 2,538-6-8 for the adjustment of which also steps have been taken.
25	Fl 1306-8—16-13-15 ...	30	Rev. Comr., Comptr. and Dy. Comr., Bangalore	Sanctions, for reasons explained, the grant of an additional sum of Rs. 200 to Mr. C. S. Kuppusami Iyengar, Assistant Commissioner, to meet the cost of a motor bicycle with a side car and its accessories purchased by him under Government Order No. Fl. 5303-5, dated 20th March 1913.
26	Fl 1313-6—35-12-1 ...	30	Comptr., Members of Council, and Executive-Engineer, Water-Supply and Stores Division	Sanctions the purchase of two motor cars at Rs. 7,000 each for affording greater facilities to the Councillors to make more frequent and systematic tours of inspection in the districts and the entertainment of two chaffeurs and directs that to cover the charges for the conveyance of servants and kit on the occasion of their using the cars for their journeys, the Councillors be allowed half mileage in addition to full daily allowance.

GENERAL AND REVENUE SECRETARIAT.
Bangalore, 31st August 1913.

J. S. CHAKRAVARTI,
Financial Secretary.

SECTION 2—SEPARATE REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 633—S R 16-13-2 ...	2	Excise Commissioner ...	Approves of the draft Notification submitted by the Excise Commissioner embodying the exemption under the proviso in Notification No. Fl. 3944, dated 17th January 1913, extending the provisions of the Mysore Excise Regulation to coca leaves, cocaine, etc., and medicated articles containing drugs allied to them.
2	Fl 634—S R 8-13-2 ...	2	Do ...	Sanctions the opening of a shop for vending special liquors at Stephen's Camp, Kolar Gold Fields, in addition to the one already sanctioned in Government Order No. Fl. 300, dated 12th July 1913.
3	Pol 107 ...	4	First Asst. to the Hon'ble the Resdt.	Forwards for transmission to the Accountant-General, Madras, a statement of stamps supplied to the Hon'ble the Resident's treasury and of the spoilt stamps returned by the Officer in charge of that treasury in the month of June 1913.
4	Fl 703—S R 271-12-2 ...	5	Excise Commissioner ...	With reference to the petition of Mr. B. Ramanna, Advocate, for the Inamdar of Thimbanerla village, praying for the grant of an advance of a portion of the toddy revenue of the village, if the claim thereto can be settled early, requests the Excise Commissioner to inform the petitioner that orders will be passed in the case in due course and that no advance can be given until the settlement of the question of the claim.
5	Fl 704—S R 13-13-2 ...	5	Do ...	Records the statement of fresh men entertained and promotions given in the Excise Department during the quarter ended the 31st March 1913, with the observation that the column of "qualifications" therein does not show that Mirza Mahomed Hussein and four others have passed the prescribed Local Service Examination.
6	Fl 726-7—S R 9-13-4 ...	6	Ex. Comr. and Comptr.	Approves of the action of the Excise Commissioner in attaching the Excise Assistant Inspector Hassan Ali for duty in the map-mounting branch of his office from the 4th October 1911 till he was sent to the Bangalore City Excise Range in November 1912.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
7	Fl 779—S R 68-12-12 ...	9	I.-G. of Education ...	With reference to his proposal to remove the Government Arrack Bonded Depôt from the premises of the Government Anglo-Vernacular School at Fort, Bangalore, intimates that the Excise Commissioner who was consulted in the matter, states that no suitable site is available for the construction of a new building for the Depôt and that the question of its removal has to be deferred till a new Taluk Cutcherry is built.
8	Fl 793—S R 268-12-4 ...	12	Chief Engineer ...	States that the Excise Commissioner represents that an open shed for storing molasses in the Central Distillery, Bangalore, is very urgently required and requests the Chief Engineer to order its construction at once giving preference to this work over other less urgent ones for which funds have been allotted in the Public Works budget for the current year.
9	Fl 849-51—S R 216-12-4	14	Ex. Comr., Dist. Magte., Mysore, & Government Advocate	Records letter dated 31st July 1913 from the Government Advocate reporting that in the appeal preferred to the Chief Court against the judgment of the Amildar Magistrate of Yelandur acquitting one Nanja who was found to be in unauthorised possession of 12 tolas of ganja, the Judges allowed the appeal and convicted and sentenced the accused to pay a fine of rupees ten.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
10	Pol 150 ...	19	First Asst. to the Hon'ble the Resident	Forwards duly verified a copy of pass No. 1712 for the import of one grammie of Acoine required for the use of the London Mission Hospital, Chikballapur.
11	Pol 161 ...	21	Do ...	Forwards for transmission to the Accountant-General, Madras, a statement of stamps supplied to the Hon'ble the Resident's Treasury and of the spoilt stamps returned by the Officer in charge of that Treasury during July 1913.
12	Fl 1030-3—S R 19-13-4...	22	Comr. of Stamps, Supt., Stamp Manufactory, Supt. of Stamps and Comptr.	Directs that the transfer of blank water-marked papers intended for being stamped including the three-pie papers to the Superintendent of Stamps ordered in Government Order No. Fl. 6799-801—S. R. 121-11-8, dated 19th May 1913, be held in abeyance until the Stamp Manufactory is shifted to the new building near the Government Press and approves of the Stamp Commissioner's action in having permitted, until further orders, the retention of the temporary establishment of the Stamp Manufactory.
13	Fl 1210-1—S R 53-13-2 ...	23	Ex. Comr., and Public Prosecutor, Bangalore	Sanctions the defence at Government cost of Excise Inspector D'Costa of the Bangalore City Range in a case of criminal prosecution instituted against him by one Gangadhara Mudaliar, a vendor under the late Foreign Liquor Licensee.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
14	Fl 1253-4—S R 20-13-2...	26	Ex. Comr. and Comptr.	Sanctions the proposal of the Excise Commissioner for reducing the price of methylated spirits and for its issue in two gallon jars and consequently raising the quantity of the limit of private possession without a license from one to two gallons.

GENERAL AND REVENUE SECRETARIAT.
Bangalore, 31st August 1913.

SECTION 4—SALARIES AND ALLOWANCES

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 630-1—S & A 656-12-2	1	Comptr. and Supt., Govt. Gardens	Sanctions a gratuity of Rs. 63 to Mallappa, late Gardener, Government Gardens.
2	Fl 641—S & A 23-13-10	2	Comptroller ...	Sanctions a bill for Rs. 3-13-11 on account of arrears of pay claimed on behalf of Sweeper Ninga of the Sagar Anglo-Vernacular School, Heggaddevankote Taluk, for October 1910.
3	Fl 687—S & A 23-13-17	5	Do ...	Sanctions a bill for Rs. 88 and odd on account of arrears of increment due to S. Narasimhamurti Rao, Office Sub-Inspector, Challakere Range, from 1st July 1903 to 30th November 1907.
4	Fl 688-9—S & A 34-12-230	5	Comptr. and Rev. Comr.	Sanctions a bill for Rs. 62-8-0 on account of arrears of pay and horse allowance due to Shekdar C. Subba Rao, Mysore Taluk, from 16th April to 30th June 1910.
5	Fl 718-9—S & A 48-13-2	6	Comptr. and I.-G. of Police	Sanctions a pension of Rs. 4 to Masthan Sab, late 1st class Police Constable, Kunigal Taluk.
6	Fl 720-1—S & A 9-13-2	6	Do ...	Sanctions a pension of Rs. 4 to Dastagir Sab, late 1st class Police Constable, Arkalgud Taluk, and commutes into leave without allowances the period of his absence for 2 months and 11 days without leave.
7	Fl 722-3—S & A 49-13-2	6	Comptr. and Ch. Engr.	Sanctions a pension of Rs. 112-8-0 to Mr. R. E. Foregard, late Superintendent, Bethamangala Pumping Station.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
8	Fl 768-9—S & A 23-13-12	9	Comptr. and Sany. Comr.	Sanctions a bill for Rs. 27-14-2 on account of arrears of pay claimed on behalf of Mahomed Abbas, vaccinator, Shikarpur Taluk, for certain periods between February and August 1903 and for March 1907.
9	Fl 774-5—S & A 34-12-231	9	Comptr. and Excise Comr.	Sanctions a bill for Rs. 140-0-0 on account of arrears of horse allowance due to Excise Range Office Establishment of Hosdurga from 1903 to 1906.
10	Fl 828-9—S & A 23-13-15	14	Do ...	Sanctions a bill for Rs. 44 on account of arrears of pay and allowances due to the Excise Inspector Mir Karim Ali Khan from 1st to 22nd June 1908.
11	Fl 836-7—S & A 8-13-2	14	Comptr. and Dy. Comr., Tumkur	Overlooks a deficiency of 3 months and 26 days in the qualifying service of Krishnappa, late shekdar, Gubbi Taluk, and sanctions to him a pension of Rs. 6-15-0.
12	Fl 840—S & A 218-12-30	14	Chief Comlt., Mysore State Troops	With reference to his letter dated 31st May 1913 bringing to notice that Article 541 of Mysore Service Regulations in the 3rd edition granting general sanction to him for taking his conveyance by rail has been abrogated in the 4th edition and requesting that such sanction may again be incorporated in it, states that the article referred to has been deleted after full consideration, as the revised Article 539 meets all the requirements of the case and that sanction of Government should be obtained to take conveyance at State cost in each case, it being considered inexpedient to grant general sanction to any officer.
13	Fl 841—S & A 641-12-2	14	Dy. Comr., Tumkur ...	With reference to his enquiry as to how Article 61 of Mysore Service Regulations should be interpreted with a view to decide the acting allowances or salaries of the Conference Clerk and other clerks connected in the seriatum states that the former should be considered as holding a temporary appointment not retaining his lien on any officiating or *sub pro tem* appointment held prior to his temporary employment elsewhere and that *seriatim* arrangements may be made as if that person did not hold that officiating or *sub pro tem* place at all.
14	Fl 859—S & A 43-13-2	15	I.-G. of Education ...	With reference to his proposal for exemption of acting men appointed temporarily for short periods from producing medical certificate of physical fitness for public service, invites attention to the '*N. B.*' under Article 32, Mysore Service Regulations, under which the vaccination certificate alone is necessary in the case of candidates other than those permanently appointed to a superior grade.
15	Fl 860-1—S & A 652-12-2	15	Comptr. and I.-G. of Police	Sanctions for a period of twelve years an extraordinary pension of Rs. 4 in favor of Narayana, the eldest surviving son of Virupakshayya, late Police Dafadar of Hassan Town Police who is reported to have died of plague caught while in the execution of his duty.
16	Fl 862—S & A 53-13-2	15	Comptroller ...	Sanctions the payment for the first time of the arrears of pension due to Christiana, late midwife attached to the Local Fund Dispensary, Krishnarajpete, under Government Order No. Fl. 2945-6, dated 16th November 1912.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
17	Fl 975-6—S & A 59-13-2	20	Comptr. and Sr. Surgn.	Sanctions a pension of Rs. 21 to J. Gnanapragasam Pille, late 1st class Sub-Assistant Surgeon.
18	Fl 977-8—S & A 57-13-2	20	Do ...	Sanctions a gratuity of Rs. 51 to Bheema *alias* Bimba, late Surgery Cooly, Local Fund Dispensary, Bowringpet.
19	Fl 982—S & A 29-12-72	20	I.-G. of Police ...	In the matter of travelling allowances claimed on behalf of Pavgada Taluk Police for February 1913, observes that the journey performed beyond the State by the officer referred to therein was in connection with response to a summons received from the Taluk Magistrate of Madaksira to give evidence before him in his official capacity and that therefore he is entitled to claim allowances at Mysore Service Regulation rates from the Madras Government.
20	Fl 984-5—S & A 60-13-2	20	Comptr. and Dy. Comr., Shimoga	Sanctions a pension of Rs. 5 to Dodda Rangoji, late Jamadar, Deputy Commissioner's Office, Shimoga.
21	Fl 986-7—S & A 22-13-2	20	Secy., P. W. D., and Comptr.	Sanctions the grant of a conveyance allowance of Rs. 40 to Mr. V. V. Karve, Superintendent, Fern Hill, Ooty, with effect from 1st July 1913 in addition to his Hill allowance of Rs. 100.
22	Fl 988-9—S & A 653-12-4	20	Comptr. and Sr. Surgn.	Sanctions for a period of 12 years an extraordinary pension of Rs. 20 to B. Seetharamayya, the eldest surviving son of B. Subba Rao, late 1st class Sub-Assistant Surgeon, T.-Narsipur who is reported to have died of cholera caught while in the execution of his duty.
23	Fl 1016-9—S & A 605-12-6	21	Comptr. I.-G. of Police & Ch. Comdt., Mysore State Troops	Directs that the services rendered in the Civil and Military Departments by Imam Khan, late Police Constable of Mulbagal Taluk, be combined as a special case and a pension of Rs. 4 sanctioned to him, in lieu of the gratuity of Rs. 104 already sanctioned in Government Order No. Fl. 1135-6, dated 30th July 1906.
24	Fl 1020—S & A 521-12-6	22	Mr. Solomon Leighton, retired Special Grade Inspector, Railway Police, residing in Kavali, Nellore Dist.	In reply to his petition praying that his service in the office of the Chief Commissioner of Coorg may be treated as Mysore Service and that he may be granted enhanced pension, informs him that his claim is unsustainable and that his petition is accordingly rejected.
25	Fl 1021-2—S & A 647-12-2	22	Comptr. and I.-G. of Police	Sanctions a gratuity of Rs. 98 to Subba, late 2nd class Police Constable, Bagepalli Taluk, commutes into leave without allowances the period of his 4 days' absence without leave and waives the recovery of the leave allowances irregularly drawn by him for 20 days.
26	Fl 1023—S & A 34-13-4	22	Secy., Economic Conference	In the matter of the charges claimed by Mr. P. F. Bowring, Deputy Commissioner, Kolar, for taking a motor car to Mysore in connection with the Birthday Session of the Conference, observes that from the correspondence, it is seen that his journey was not performed in connection with a function necessitating his taking a conveyance at Government cost and that the case does not disclose sufficient reason to grant the concession under Article 539, Mysore Service Regulation.
27	Fl 1027-8—S & A 61-12-4	22	Comptr. and Dy. Comr., Mysore	Sanctions the recommendation of the Deputy Commissioner that the Mutafirkhat pension of Rs. 10 granted to Mir Nasiruddin Ali Khan, the eldest son of the deceased pensioner Mir Azizullakhan, be divided equally between himself and his brother Mir Badiodin Ali Khan, on the

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				ground that the latter complains that owing to a private dispute between themselves, his brother has withheld payment of his share of the pension.
28	Fl 1026—S & A 124-12-38	22	Chief Comdt., Mysore State Troops	With reference to the travelling allowance bill of Bandmaster Mathews, observes that he is not entitled to any halting allowance at Mysore, as he was detached and sent for duty entirely connected with the Local Service Regiment to which his services should be considered to have been transferred from the 2nd Battalion and that Mysore became his headquarters only for the time being.
29	Fl 1088-9—S & A 23-13-23	23	Comptr. and Rev. Comr.	Sanctions a bill for Rs. 64 on account of arrears of increment due to the Sagar Taluk Establishment from 1st January 1910 to 31st October 1911.
30	Fl 1090-1—S & A 23-13-24	23	Do ...	Sanctions a bill for Rs. 23-11-4 on account of arrears of pay due to the Yedatore Taluk Establishment from 1st June to 18th July 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
31	Fl 1225-6—S & A 23-13-27	26	Comptr. and I.-G. of Police	Sanctions a bill for Rs. 5-5-10 on account of arrears of pay due to the Police Establishment of the Hiriyur Taluk from 1st to 23rd November 1910.
32	Fl 1227-8—S & A 23-13-29	26	Do ...	Sanctions a bill for Rs. 40-4-8 on account of arrears of pay due to the Police Establishment of the Turuvekere Sub-Taluk for September, October and November 1907.
33	Fl 1229-30—S & A 23-13-28	26	Do ...	Sanctions a bill for Rs. 2-5-4 on account of arrears of pay due to the Holalkere Taluk Police Establishment from 1st to 10th November 1908.
34	Fl 1257—S & A 173-12-5	27	Fathma Bi, widow of Police Constable Enaiyat Beig, residing in Old Sowar Lines, Bangalore City	In reply to her petition praying for the grant of some bonus for the services rendered by her husband who died of plague, informs her that it is reported that her husband was not deputed on plague duty, but that he caught the infection while living in his own house near the Police lines where rats were dying and that therefore she is not entitled to any pension or gratuity.
35	Fl 1264-5—S & A 23-13-30	28	Comptr. and Rev. Comr.	Sanctions a bill for Rs. 21-10-8 on account of arrears of pay due to the Treasury Department, Deputy Commissioner's Office, Kadur District, from 1st to 26th September 1907.
36	Fl 1268—S & A 53-13-4	28	Comptroller ...	Sanctions the payment to his legal heirs of the arrears of pension due to Sanjeeviah, late Lance Police Dafedar, Bangalore District Reserve, who is reported to have died on the 3rd February 1910.
37	Fl 1273-4—S & A 71-13-2	29	Comptr., and Dy. Comr., Hassan	Sanctions a gratuity of Rs. 104 to Ranganna, late Daftarbund, Channarayapatna Taluk.
38	Fl 1278-9—S & A 74-13-2	29	Comptr. and Sr. Surgn.	Sanctions a pension of Rs. 75 to A. Kothandapany Mudaliar, late Manager of the Office of the Senior Surgeon.

SECTION 5—POLICE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1913.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	J 359-60—Police 165-12-8	4	I.-G. of Police and Comptr.	Sanctions as a special case, the extra charge incurred on account of holding the Ambulance class of the Headquarter Police Training School for 22 days over and above the sanctioned period of eight months, the charge being met by re-appropriation in the Police Budget of the current year.
2	J 361—Police 29-13-2 ...	4	I.-G. of Police ...	Sanctions the acceptance by Sub-Inspector Hiriyanniah of the Alur Sub-Taluk, of a reward of Rs. 10 offered by the Excise Commissioner for the Sub-Inspector's prompt action in detecting a case of illicit Ganja cultivation.
3	J 363—Police 25-13-2 ...	4	Do ...	Sanctions the acceptance, by constable Timmaraya and Nanjundiah, of a reward of Rs. 5 offered by one Abdul Khader Sabi of Magadi for their services in a case of house-breaking and theft which occurred in his house.
4	J 364—Police 30-13-2 ...	4	Do ...	Sanctions the acceptance by Sergeant Don of the Mysore City Police of a reward of Rs. 3 offered by one Boriah of the Kumbar Koppal village for his services in arresting one Malla who had stolen Boriah's money bag containing Rs. 73.
5	J 105—Police 69-13-4 ...	4	First Asst. to the Hon'ble the Resident	States that as the present arrangement, under Government Order dated 16th August 1912, of placing Post Office cash chests in Police stations has given rise to certain difficulties in that the Police Station buildings in many places are either ill suited or are under-manned for the efficient guarding of such cash chests, it is considered desirable to place the cash chests of certain post offices in the Headquarter towns in the respective Taluk Treasuries and the chests of other post offices in Police stations located in fairly strong buildings and hope that the Postal Department would meet any extra cost which may be involved by the above arrangement.
6	J 370-71—Police 10-13-2	5	I.-G. of Police and Comptroller	Sanctions the retention of the two temporary Inspectors, sanctioned in Government Order dated 8th March 1913, till the trial of the Kannegal riot case is over, the extra expenditure on this account being met by a re-appropriation of funds in the Police Budget.
7	J 382-3—Police 63-11-11	5	I.-G. of Police and Comptroller	Directs that Inspector Ramasheshayya, who was dismissed from service be restored to his permanent appointment as Sub-Inspector as the charges of defalcation and wrongful confinement brought against him have not been clearly proved and requests the Inspector-General of Police to submit to Government half-yearly reports on the work of Ramaseshayya for three

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				years, and observes that the action of Inspector-General in dismissing the Inspector, though acting, is opposed to Section 8 of the Police Regulation of 1908.
8	J 384—Police 63-11-12 ...	5	T. M. Ramaseshayya, Acting Police Inspector	Informs him that orders have been issued to restore him to his permanent appointment as Sub-Inspector, the intervening period being treated as one of leave without allowance.
9	J 392-3—Police 26-13-2...	5	I.-G. of Police and Comptr.	Sanctions the purchase of a copy of A B C Telegraphic Code with rubber stamp at a cost of Rs. 17-8-0 for the use of the office of the Inspector-General of Police, the expenditure being met from the head "purchase of books" of his office.
10	J 394—Police 31-13-2 ...	5	I.-G. of Police ...	Sanctions the acceptance by Head Constable Munisami Mudaliar, and constable Isaac of a reward of Rs. 45 offered by the Chief Supervisor of the Watchmen, Kolar Gold Fields, in recognition of the good work done in a case of theft of amalgam valued at Rs. 890.
11	J 396-7—Police 13-13-4...	5	I.-G. of Police & Comptr.	Cancels the unexpired portion of leave, namely one day, out of five days' casual leave granted to Mr. C. Srikantesvara Aiyar, Inspector-General of Police, in Government Proceedings dated 18th July 1913.
12	J 404—Police 20-13-2 ...	6	Dt. Magte., Mysore ...	States that the expression "Forest Officer" occurring in the Mysore Arms Rules should be interpreted according to the meaning given to it in the Forest Regulation.
13	J 467-8—Police 36-13-2...	8	I.-G. of Police and Comptroller	Sanctions the refund of Rs. 29-5-6 to Mr. E. Vivian Hunt, Manager of the Kuradi Betta Estate, being the moiety of the amount deposited by him for the loan of the services of two Police constables, but whose services were utilized for only one month.
..	.. ..	.	... .	
14	J 469-70—Police 27-13-2	8	Do ...	Sanctions the payment of enhanced rent at Re. 1 per month to the building in which the Kudur Police Station, Magadi Taluk, is located from 1st October 1912, the extra cost being met from the contingencies of the Bangalore District Police Office under the head "Rents, etc." and states that necessary provision will be made in the next year's budget for the purpose.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
15	J 602—Police 87-12-4 ...	19	I.-G. of Police ...	Observes on the statement of Police promotions and appointments for the quarter ending 30th September 1912, that while promotions of certain Inspectors were pending orders of Government, the Inspector-General should not have filled their places.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
16	J 684—Police 51-13-1 ...	26	Compiler, *Mysore Gazette*,	Places Mr. Mahomed Jaffer Mehkri, Assistant Superintendent of Police, Mysore City, on special duty under the Inspector-General of Police until further orders.
17	J 700-1—Police 47-13-2	27	I.-G. of Police, and Comptroller	Sanctions the purchase of two copies of "The Motor Vehicles Byelaw No. 24" of the Civil and Military Station, for the use of Inspector-General of Police's office.
18	J 749-50—Police 2-12-14	29	Do ...	With regard to the conveyance charges included in the travelling allowance bills of the Inspector-General of Police for the months of February and March 1913, sanctions only the charge for conveying a coach and a pair of horses from Bangalore to Kadur and one horse from Kadur to Holalkere, the charge for conveying the horse back from Holalkere to Kadur being disallowed.
19	J 763—Police 52-12-4 ...	30	I.-G. of Police ...	States that there is no objection to Inspector Rama Seshayya's claim to privilege leave allowances as the period of his being out of employ on the expiration of his privilege leave has been treated as leave without allowances.

GENERAL AND REVENUE SECRETARIAT.
Bangalore, 31st August 1913.
